| NORM Services | Robert Krumberrger | CO | 303/229/6616 | rkrumberger@normservices.com | D&D, NORM |

(1) All firms compile site history, maps, building plans and decon plans. All perform, or contract for, external radiation surveys, radioassay of soil and biota, decon of buildings and equipment, demolition and excavation, soil and groundwater remediation, and close-out assessment of compliance with regulations. Most firms offer training in radiation detection and in radioactive contamination control. General Service includes NORM remediation and consultant services.

(2) Additional firms that provide decontamination and remediation are listed on www.crcpd.org 'Free Documents,' 'Commercial Services,' 'see 'Radioactive Waste Brokers and Decontamination Services'
