

48th Annual Collaborative EW Symposium

2-4 APRIL 2019

Pt. Mugu, CA

Call for Proposal Template

(All fields are mandatory and this form must accompany your 400 words or less Unclassified abstract)

Briefer's Name: _____

Briefer's Organization: _____

Briefer's Email: _____

Briefer's Phone Number: _____

Briefing Title: _____

My final presentation will be releasable: US SECRET Only Releasable Australia

My final presentation will be: Unclassified US SECRET Only SECRET Rel AUS

To assist with placement in the final agenda please choose briefing classification of your final presentation. If your final presentation is Releasable Australia, you must have your Company Empowered Official complete and sign a Foreign Disclosure Form and submit with your final presentation NLT March 8th. Upon acceptance you will be provided the necessary paperwork and have an informational phone meeting to understand the requirement for release. We understand the final presentation due date is early but NAWCWD must have time to review disclosure paperwork.

PROPOSED SUB-TOPIC AREA (Choose one or more):

Coherent Electronic Attack: Technology trends and advancements focused at the precise phase and timing requirements to produce sophisticated coherent jam strategies. This includes the cognitive/AI algorithms that can drive system adjustments at the speeds/precision necessary to produce coherent effects

Cooperative Electronic Attack: Technology trends and advancements focused at combining EA systems for increased performance. This includes both offensive and self-protect EA and potential jam strategies that can optimize EA resources between different type EA systems.

Collaborative Electronic Attack: Technology trends and advancements focused at generating broader EA effects at the operational level. This includes the optimal allocation of limited EA assets over a longer duration and broader geographic areas than EA support to single target area and short time on target.

Collaborative EW enablers to improve EA effectiveness: Non-EA technology trends and advancements that are necessary to produce greater EA effectiveness. Includes networked solutions, interoperability / compatibility concerns, manned / unmanned teaming, assured comms...
