**The Diablo Society of Health-System Pharmacists**  
**Cordially invites you to attend an**  
**Accredited CE Dinner Program**  
*Presented by*

**Khin Htwe, Pharm.D.**  
**PGY-1 Pharmacy Resident**  
**Alameda Health System- Highland Hospital**

**“Long Acting Lipoglycopeptides: Current Studies and Future Potential”**

**Goal Statement:** To enhance knowledge on the use of FDA-approved long-acting lipoglycopeptides based on current clinical evidence and suggest future opportunities for use of these novel agents.

**Learning Objectives:**

- Review the background of currently available glycopeptides and compare their therapeutic properties
- Summarize the initial trials relevant to the FDA-approval of long-acting lipoglycopeptides in acute bacterial skin and skin structure infection
- Evaluate the pharmacokinetic/pharmacodynamic studies in animal and human models for select infections
- Discuss the potential for the use of long-acting lipoglycopeptides for the treatment of infections requiring longer duration of therapy based on PK/PD and current evidence

**Thursday, March 21<sup>th</sup>, 2019**

6:30 Registration and Dinner

7:00 Presentation

**Kaiser Permanente Walnut Creek**  
Oak 3 on the 3<sup>rd</sup> Floor Medical Office Building  
1425 South Main Street, Walnut Creek, CA 94596
