2024 CSHP Seminar Quiz Bowl Team

This year's CSHP-MBKU Quiz Bowl team, made up of amazing second-, third- and fourth-year students, earned 4th place! Participating in Quiz Bowl offered a unique opportunity for leadership, growth of communication, and peer collaboration. Beyond competition, it fostered professional development through interactions with students from other pharmacy schools and pharmacists across California, enriching their learning and broadening their perspectives. Quiz Bowl and Seminar offered students the chance to meaningfully connect with and gain insight into the field of pharmacy.

Vaccine Clinic

CSHP-MBKU students partnered with Pax Pharmacy for a vaccine clinic, and had the opportunity to provide flu and COVID vaccines to residents of Leisure Vale Assisted Living in Glendale. Students learned how to prepare supplies and promote immunization to seniors. It was an incredible day to be part of the PAX community!

Canned Food Drive

Through Pathway of Hope, a local shelter in the city of Fullerton, CSHP-MBKU chapter hosted a holiday canned food drive. Students from all of MBKU's College of Pharmacy showed their dedication to community service, seeing the value of helping those in need and giving back to the community. Thank you to everyone who donated and we hope to continue the canned drive in the upcoming year!

CSHP x Rho Chi Academic Success Student Panel

CSHP-MBKU collaborated with the honor society chapter, Rho Chi Zeta Alpha, for an academic success student panel where members of the Rho Chi chapter gave studying tips, strategies on how to be academically successful, and advice on professional growth.

Stop the Bleed

CSHP-MBKU hosted its fourth annual "Stop the Bleed" event with Dr. Kayvan Moussavi, PharmD, BCCCP. MBKU's College of Pharmacy was invited to come learn and gain hands-on practice on how to stop the bleed, such as with proper dressings and tourniquet techniques. Students learned the ABCs of bleeding: Alert, Bleeding, and Compress.

Residency Roundtable

Students joined fourth year panelists in CSHP-MBKU's Residency Roundtable, learning about their journey through the residency application process and programs. Students were engaged in this more casual and conversational setting and we hope students are more prepared for their own path towards residency. Congratulations to everyone who matched!
