

University of Southern California

USC Alfred E. Mann School of Pharmacy & Pharmaceutical Sciences

Membership

The USC student chapter has gained a reputation for its consistently increasing student engagement. With close to 20 patient care projects available and a board comprised of 40 members, we have effectively organized membership drives for both the 2023 Fall Semester and the 2024 Spring Semester, attracting 128 student pharmacists to join our ASHP/CSHP and APhA/CPHA joint chapter. We maintain our position as the largest organization on campus and remain dedicated to motivating students to develop personally and professionally.

Meet the Residents & Fellows

The USC student chapter recently organized the 3rd Annual Meet the Residents and Fellows, marking our latest major networking event of the academic year. Conducted virtually, the event facilitated student participation in Zoom breakout rooms, allowing them to explore various residency and fellowship programs firsthand. We were delighted to welcome 16 pharmacists representing diverse fields. Our objective is not only to expose student pharmacists to a wide array of residency and fellowship programs nationwide but also to establish direct connections with individuals currently completing these programs. Student pharmacists had the privilege of networking with current residents and fellows, gaining invaluable insights into their paths to postgraduate training, daily responsibilities, and professional aspirations.

CPhA/CSHP Meet & Greet

The USC student chapter organized the 12th Annual CPhA/CSHP Meet and Greet, marking our first large-scale networking event of the academic year. The primary goal of this event is to acquaint student pharmacists with the various opportunities available to them through involvement in local associations affiliated with CPhA or CSHP. This year, we decided to broaden our reach by extending invitations to students from other institutions, providing them with an

invaluable growth opportunity. The event garnered significant success, prompting our commitment to its continuation in the years ahead. Conducted virtually, the event enabled students to engage in rotating Zoom breakout rooms, where they gained insights into local associations from pharmacists actively engaged in them. We were honored to host 12 pharmacists and representatives from esteemed organizations such as Greater Los Angeles CPhA, San Diego CPhA, Inland Empire CPhA, San Gabriel Valley CPhA & CSHP, Southern California CSHP, and Orange County CSHP. All of our guest speakers have held or currently hold board positions within their respective local associations.

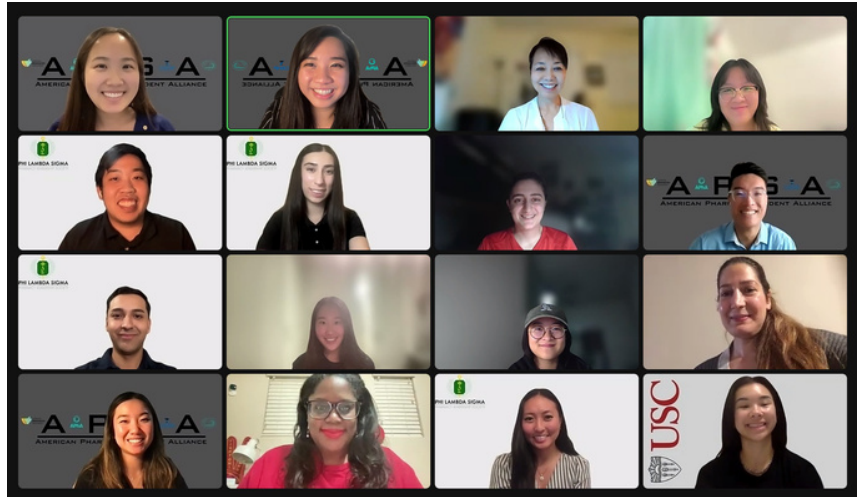

Meet the Directors

Our chapter proudly organized our annual in-person roundtable dinner networking event of the year, Meet the Directors. The primary goal of this event is to provide student pharmacists with the invaluable opportunity to gain insights and form connections with directors/ managers spanning various fields of pharmacy. We were honored to welcome esteemed guests who serve as program directors across fields, providing abundant opportunities inherent in the dynamic landscape of pharmacy. Represented areas of pharmacy at this event encompassed academia, ambulatory care, independent pharmacy, inpatient pharmacy, managed care, and the pharmaceutical industry. With attendance reaching maximum capacity, the event boasted participation from 13 pharmacists and 70 student pharmacists.

APSA/PLS Interview Prep Workshop

The USC student chapter collaborated with Phi Lambda Sigma, Phi Chapter, to host our inaugural interview preparation workshop. The central aim of this event is to empower student pharmacists with the essential skills and confidence needed to leave a lasting impact during leadership and employment interview opportunities. Given the novelty of this workshop, we were honored to welcome a speaker from Southern California CSHP, Dr. Janet Aiso, to provide invaluable insights into interview strategies and best practices. Following her presentation, we facilitated one-on-one mock interview sessions with the first-year students. These sessions were designed to provide a relaxed environment for students to familiarize themselves with the interview process and hone their skills at a comfortable pace.

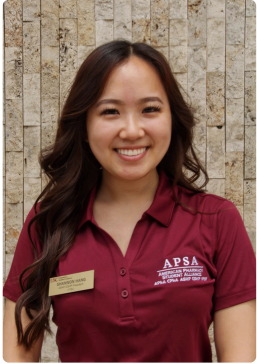

Student Leadership Award

Congratulations to Heather Yen, our Immediate Past ASHP/CSHP President, who was honored with the CSHP Student Leadership Award at CSHP Seminar this year! In addition to this prestigious recognition, Heather has also been bestowed with the ASHP Student Leadership Award. We take immense pride in witnessing Heather's numerous accomplishments, which are a testament to her unwavering dedication and tireless efforts. Heather's invaluable contributions extend beyond our chapter, notably as one of the former Co-Chairs of the CSHP Student Section Executive Committee (SSEC), showcasing her commitment to advancing the pharmacy profession as a whole. We extend our heartfelt gratitude to Heather for serving as an exemplary leader, both within our chapter and throughout the broader community.
