

CSHP Chapter Highlight:

West Coast University

Unified in Purpose

Celebrating a Year of Collaboration, Care, and Connection

Our team proudly represented WCU in October at the CSHP Seminar Quiz Bowl. It was our first time combining forces across class years, and it pushed us to think critically and work as a unit under pressure. It was a milestone in our development as future clinicians and an exciting clinical skills showdown.

Immunization Clinic Partners

This year, our chapter partnered with Courtyard Pharmacy, the City of Calabasas, and other campus organizations to plan and host an innovative immunization clinic. Together, the team administered hundreds of COVID-19 and flu vaccines, helping protect our local community and promote public health. This combined effort was a powerful reminder of the role pharmacists play on the frontlines of care.

We also want to highlight the 4th annual SoCal Pharmacy Mixer. Students from eight Southern California pharmacy schools came together to plan and lead this 100% student-driven mixer. With over 120 participants in attendance, this event is just one example of what is possible when passionate students come together. The planning committee did a phenomenal job mindfully constructing a day filled with networking, professional development across cohorts, and meaningful conversations.

Passing the Torch

The events this year were thoughtfully designed and rooted in our core mission. At West Coast University, we believe in more than just education and hard work. We believe in leadership, professionalism, and giving back to our community. We strive for excellence and aim to stay ahead of the curve both in the classroom and outside the four walls. We are proud that this board was able to see how our values positively impact patient care and outcomes firsthand. Our chapter president was honored with the Student Leadership award at the CSHP Seminar. WCU's chapter leaders have built a path for our brand-new board to improve upon. After a rigorous interview process, we are confident they will showcase their innovation, passion, and collaborative skills. Moreover, we are excited to see how they enhance the field of pharmacy and connect with patients and the local community.

Local Health Fair

4th Annual SoCal Mixer

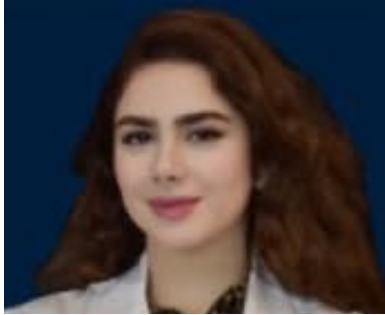

Vaccination Clinic

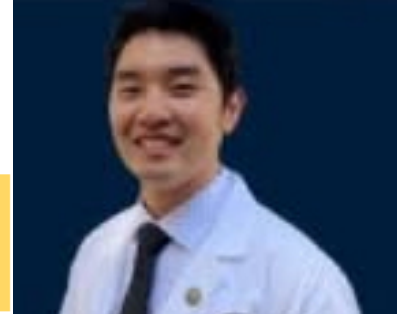

Thank you to our advisor, Dr. Catherine Van, the board, and to the CSHP organization! It was an honor for us to serve on the board as well as learn from the mentors we have found through CSHP. To connect with our new board, follow them on Instagram @ashpcshpwcw and contact them via email at ashpcshpscw@gmail.com. The chapter is always looking to build new partnerships as well as receive feedback. West Coast University Center of Graduate Studies, located in Los Angeles, California, has a new hybrid PharmD program. As a result, the chapter has been transitioning to a highly virtual environment via Zoom. Thus, we have been redefining the meaning of collaboration, care, and connections!
