

PHARMACY TOWNHALL

*Hosted by CSHP, CPhA, and LACDPH's
Vaccine Preventable Disease Control Program*

January 22nd, 2025
3pm-4pm

Join us for a collaborative townhall where pharmacy professionals can connect, share insights about their practice settings, and advocate for the needs of their patients and communities.

Hosted by the California Society of Health System Pharmacists (CSHP), the California Pharmacists Association (CPhA), and LACDPH's Vaccine Preventable Disease Control Program (VPDCP), this event offers a platform for open dialogue. LACDPH aims to better understand how to support pharmacy professionals and the communities they serve through enhanced resources, community engagement, or policy-driven initiatives.
