Workshop Themes: Student-oriented (e.g., APA style, orientation, internships)|Clinical or school issues|Professional development and leadership|Multiculturalism

Workshops (description): There are three workshops that the chapter would like to host this academic year. The three workshops are: Group Lesson Planning for School Counselors, Navigating through the Internship Process, and Social Justice and Advocacy in the Counseling Profession. However, it is important to note that these workshops are currently tentative, but the objective is to target the aforementioned workshop themes.

Counselor Community Engagement: 1

CCE Activities: Donations|Run/ walk-a-thons

CCE (description): The chapter will be participating for a third year in NJ's Chapter of National Alliance on Mental Illness Walk for mental illness. This is an opportunity for members as well as for students to raise awareness of how mental illness affects a number of families and individuals. Additionally, the chapter will raise funds as walkers, which will go directly to NAMI.

Social Events: 3

Social Events Activities: Dinner / parties / socials|Welcome / orientation|End of semester / graduation

Social Events (description): The chapter has planned to host its First Annual Meet and Greet for new students admitted into the program as well as seasoned students. This will be a great time for new and seasoned students to meet one another and for seasoned students to answer any questions that a new student may have about the program. The objective is to demonstrate to new students that our program is one that fosters support and community. The chapter will also host Holiday Party for members as well as
non-member during December of 2013 to acknowledge the hard work that all students have done in the past semester. Moreover, this will give students that chance to speak with professor outside of a classroom setting. Lastly, the program will be planning on hosting some sort of celebration for graduating students to congratulate them on successfully completing the program.

Newsletters:

2

Newsletters (Description & Length): The chapter will be creating two newsletters that will be sent out in Late October 2013 and another one in late February. The goal of the newsletters is to inform students on the different types of events that CSI will be hosting as well as provide educational articles that may be valuable to counselors in training. The fall newsletter in particular will be focused on introducing new faculty as well as giving the opportunity for one of our professors to speak on the process of obtaining her doctoral degree.

Number of CEs Involved: 3

Will nonCFA CEs be involved? Yes

If yes, how? The role that Counselor Educators will play during the academic year will be as advocates. Counselor educators within our program will be informed of events and programs that the chapter will be hosting and will encourage students to attend these invites. Additionally, we plan on asking some of our counselor educators to run some of our workshops that we have planned.

Recognizing Involvement of CEs: Thank you notes / messages

Recognizing Involvement of CEs (description): Thank you notes will be given out at the end of each semester to demonstrate our appreciation for supporting our chapter's endeavors.
Number of Alumni Involved: 14-Oct

Involvement of Alumni (description): One of the areas that the chapter wants to develop is Alumni Involvement. It has been identified that our chapter has not successfully engaged Alumni and kept a part of the organization. One of the ideas that we are developing is to invite certain Alumni to speak to students on some of the jobs and opportunities that have become available as a result of graduating from a CACREP program. Additionally, we want Alumni to have understanding that the program and organization is still a support system for them.

Number of Former Members Involved: 0

Involvement of Former Members (description):

Other Activities (description): Another area that we want to develop is our fundraising abilities. It is important that the chapter have a decent funding source so that students or members who are interested in attending conference can have the chance of having their cost either supplemented or paid for completely. Furthermore, additional funds will give the chapter the chance to host better events for members to attend. Additionally, the chapter is planning on doing membership drives by sending personalized letters to potential students who meet the criteria to become CSI members. Moreover, the chapter plans on visiting classrooms to inform students about CSI and how the organization can benefit them in their professional and academic development.

Chapter Goals & Objectives:

Primary Chapter Goal This Year: Chapter growth|Membership growth|Events

Chapter Goals & Objectives (description): Overall, the chapter’s main goal is to build a strong foundation so that next year’s leadership team can focus on external events like serving and engaging the community.
surrounding William Paterson. It is also important to note that the chapter will be striving to increase member engagement as well as commitment. Members must have an understanding that being a part of the chapter can aid in developing one into a skilled and marketable counselor. Lastly, it is the chapter objective to be as organized and intentional with all events or programs that the chapter undertakes.

Advocacy within the profession | Advocacy with the community

**Professional Advocacy Activities (description):**
1. We initiated a lunch with alumni of the program who are currently transformative school counselors during which we discussed advocacy for our profession and for our future students. We plan to remain in contact with alumni through a Facebook group and through future in-person conversations.
2. Career-readiness speaker: Much of our graduate program’s focus has been on college access for our students. However, it is important for us to remain culturally competent and realize that not all students may pursue higher education. We plan to invite Dr. Marja Humphrey and a Middle School Counselor to speak on this topic. The Middle School Counselor has done excellent work on the progression of careers from middle school to high school.
3. Kipp College Bootcamp: In the advocacy spirit of giving more to those who need more, our chapter participated in a "college boot camp" at one of the DC KIPP high schools. Members, along with other volunteers, spent 2 days working with rising seniors to support their first steps into the college admission process.
4. Our newest member, Edwin, currently resides in Puerto Rico where there are no active CSI chapters. Edwin has drafted a proposal to represent CSI at a professional counseling conference where he will begin the process of attempting to revive a stronger CSI presence in PR.
Workshops:

9-May

Workshop Themes:

Clinical or school issues|Professional development and leadership|Multiculturalism

Workshops (description):

1. In August 2013, members attended a chapter-initiated "Stewards of Children" child sexual abuse prevention training in Washington, DC along with colleagues from the school psychology program. 2. The CSI Chapter is providing partial funding for members to attend a local workshop on Solution-Focused Counseling on 10/4/13, led by an expert in the field. 3. On 10/29/13, the CSI Chapter is sponsoring a Professional Development Workshop at the Planned Parenthood of Maryland, located in Baltimore, MD. This workshop, led by Planned Parenthood of Maryland Vice President of Education and Professional Counselor, Amber Eisenmann, will cover how to counsel and support pregnant teenagers and their families. 4. On November 12, 2013, the CSI Chapter will host a Professional Development Workshop at the UMD College Park Campus on the resources that are available to college students with disabilities. This program will be led by UMD Disability Support Services Director Dr. Jo Ann Hutchinson, who will discuss what is available and how it can be accessed. The goal is this program is to help high school counselors support their students with disabilities by being more aware of what can be offered at the college level. We plan to discuss how to help high school seniors with special needs/504 s/IEP s make the transition to college. 5. In early January 2014, the CSI Chapters at UMD and Johns Hopkins University with partner to present a Professional Development Workshop on Preparing for Careers in School Counseling. This annual event will feature a panel of professional school counselors, counselor educators, district leaders from the
surrounding states/counties, and district hiring officials. The event will cover the application and hiring process, resume and interview advice, and more. The event will be attended by School Counseling students from both UMD and JHU. 6. Rainbow Terrapin Training: This training covers the fundamentals of allyship and advocacy for lesbian, gay, bisexual, transgender, and queer inclusion in a learning community. The discussion includes social justice, vocabulary and inclusive language, campus issues and resources, and ways to take action and get involved. Our chapter plans to attend and promote a training in the spring semester. 7. Violence Intervention Assistant Training: This training program covers sexual violence, relationship violence, and stalking; the impact of these incidents and indicators they have occurred; how to help someone who has experienced these crimes; available resources; bystander intervention. Special trainings are provided for faculty, staff, and graduate students at the University by experts from University of Maryland's CARE (Campus Advocates Respond and Educate) to Stop Violence Program. Our chapter plans to attend and promote a training in the spring semester.

Professional Advocacy Activities (description):

In September, Alpha Omicron hosted a health booth on eating disorders and body image in front of Stetson University, providing students with information on how to prevent eating
disorders, how to eat healthy, and having positive body image, as well as allowing students to discuss body image. Students also used sticky notes to post what they liked about themselves on a mirror while talking about pressure peers and media to look a certain way. Members of the social justice/professional justice committee provided psycho-educational material, as well as offered resources to the counseling department at Stetson University. A video of this activity was taken and will be posted on the National Eating Disorders Awareness website. This committee also hosted a movie night and played "America The Beautiful" and had a discussion about body image following the film. Social Justice is also working on hosting a blood drive at Stetson in association with Banned4Life, an organization that allows gay men to donate blood. In December, Alpha Omicron members will also participate in "Santa's Holiday Workshop" hosted by Volusia County Foster Care. Members will volunteer by stuffing and donating stockings before the event, and will then participate in the event by making ornaments and crafts with the children, decorating cookies, and visiting with Santa. In the spring, the committee is considering beginning a psycho-educational group for parents called "Circle of Parents" which would provide parents with emotional support, as well as educational material on ways to parent. This project is still in the works and details will be decided at a later date.

Number of Former Members Involved: 0

Involvement of Former Members (description):

Other Activities (description): Our Awards ceremony occurs each year during our Initiation Ceremony. We plan to nominate two students for the Leadership Fellow and Intern program. Two doctoral students are co-chairing a fairly new committee called the Student Mentorship
Program. We identified a need and developed a way to meet that need. Many of our Masters and Specialist students are interested in continuing into PhD programs. We have established a list of mentors (current doctoral students) and mentees (interested Masters and Specialist students) and have recently provided matches. We collected data about interests, needs, availability, etc. to provide the match. We hope that through contact with the mentor that the mentee will find support, guidance, clarification, direction, and connection in their quest to enter a doctoral program. We also have an active Research Committee that connects Masters and Specialist students with current doctoral students. The aim is to provide a more structured way to facilitate support, connection, and collaboration in research endeavors.

Chapter Goals & Objectives:

Primary Chapter Goal This Year: Events

Chapter Goals & Objectives (description): We aim to provide opportunities for scholarship, leadership, and excellence in professional counseling. Professional Advocacy and self-care are this year’s theme for Chi Epsilon and we hope to infuse those themes throughout our various endeavors such as the Alumni Social Event (mentioned above), Student Mentorship Program, the 5K event, and the newsletter, for example. We aim to encourage more involvement from Masters and Specialist students as well.

**Chapter Goals & Objectives (description):** Our chapter, though seeking chapter growth and membership growth has been very focused on events this year. We have already done a large number of socials, volunteer days, meetings, etc. that are meant to make a difference in new and different contexts thus providing a service and fulfilling a need in multiple areas. The events have not only served as events but always way in which to get student more involved in the counseling world. Ergo, we hope the events and objectives will address all of the above goals.

### Chapter Goals & Objectives:

**Primary Chapter Goal This Year:** Chapter growth|Membership growth|Events
Chapter Goals & Objectives (description): During the 2013-2014, the Executive Board hopes to attain a high level of participation from current members and new members. To do this, we will require members to engage in at least one community effort of their choice along with their membership dues. We will aspire to high visibility in the community, and general contributions to and from the community. In order to achieve our goals, the Board will (1) reach out to chapter members, both new and existing and alumni; (2) promote and increase the number of professional development activities for both departmental students and the community; (3) provide increased opportunities for students, alumni and faculty to socialize and network at various community events; and (5) support the Counselor Education Department. These goals and objectives will remain and guide the work of the 2013-2014 Executive Board.

Chapter Goals & Objectives:

Primary Chapter Goal This Year: Chapter growth|Membership growth

Chapter Goals & Objectives (description): Our greatest goal was to ensure that Chi Sigma Iota’s MuSigmaRho’s chapter was well-known on the campus. In an effort to do this we have utilized our resources such as word of mouth, business cards, fliers, emails, newsletters, and events to make our presence known. An increasing number of our peers have gained a great interest in our organization and have become a part of the broader community of Chi Sigma Iota. Our greatest accomplishment is that we have a stronger network of individuals who are vested in the betterment of the communities that they serve, who are both professionals and students in the fields of rehabilitation, mental health and school counseling.

Chapter Goals & Objectives:

Primary Chapter Goal This Year: Chapter growth|Membership growth

Chapter Goals & Objectives (description): The Phi Upsilon chapter was reestablished in 2012. As our counseling programs experience enrollment growth our desire is to increase Phi Upsilon's visibility and grow chapter membership. To this end, our objectives for the 2013-2014 year are as follows: 1) Retain at least 70% of existing members at the end of 2013-14. 2) Initiate a minimum of seven new members in spring 2014 initiation ceremony. 3) participate in at least one advocacy campaign that helps shine light on our chapter development. Although she is now in an administrative role, Dr. Porter will participate in chapter event planning and coordination.

Professional Advocacy Activities: Education about advocacy|Other (describe below)

Professional Advocacy Activities (description): In September 2013 our chapter created a poster showcasing the ways in which our chapter as well as the University of Alabama Counselor Education program as a whole contribute to our local community. This poster was displayed at a United Way fundraising event on campus. This is one way in which we advocated for the profession on campus. We also plan to promote the annual conference of the Alabama Counseling Association to students in our program and encourage them to attend. Last year through similar efforts we saw many students attend the annual conference. Sessions at the conference generally educate attendees regarding advocacy (among many other topics). We feel the conference contributes to attendees' professional identity and is likely to promote greater professional advocacy.

CCE (description):
Our chapter plans to become involved with our local "Meals on Wheels" program, which delivers hot meals to those in need. We plan to partner with a local group that is responsible for delivering meals on Sundays in particular. One Sunday each month members of our chapter will volunteer as drivers to deliver these meals. We also plan to coordinate the collection of canned goods which will be donated to a local food bank at a particular point in the year. Members of our chapter will also volunteer at an event at our local hospice agency. The event is a "bereavement camp" for children who have experienced a loss through death. The event will provide activities that are intended to give children tools to deal with their grief.

Our chapter already organized a successful Counselor Education "Meet and Greet" to kick off the 2013-2014 academic year. Last year our chapter was involved in organizing end-of-semester social events, and we plan to do the same this year. Additionally, we have organized viewing parties for football games involving our university's team.

Topics will likely include wellness, issues in private practice, and descriptions of local internship/practicum sites from the perspectives of practitioners and/or former interns.

Chapter Goals & Objectives:

Primary Chapter Goal This Year:

Chapter Goals & Objectives (description):

Goal # 1: Increase our Counselor Education students’ awareness of our chapter of Chi Sigma Iota. The primary objective associated with this goal is to utilize our program’s e-mail list of students in order to make them aware of events/opportunities associated with Chi Sigma Iota. Goal # 2: Serve our Counselor Education program by organizing events that better connect our students with one another and that support development of their professional identities. Objectives associated with the goal include: Organizing social events (football parties, a Meet and Greet, end of semester parties, etc.); Organizing speaker events that will concern counseling topics of interest to students; Encourage attendance at
the Alabama Counseling Association annual conference and organize social events for those who do attend the conference. Goal # 3: Increase the visibility of our chapter of Chi Sigma Iota and our Counselor Education program as a whole in our local community. Objectives associated with this goal include taking part in our community's Meals on Wheels program, collecting canned goods in local neighborhoods which will be donated to a local food bank, and volunteering at an event for bereaved children at our local hospice agency.

Business Meetings:
8

Business Meetings (description):

Membership Meetings:
8

Membership Meetings (description):

Professional Advocacy:
3

Professional Advocacy Activities:
Advocacy within the profession

Professional Advocacy Activities (description):
Advocacy remains a formal thread of Rho Alpha Beta. We are currently working to clarify where and how we want to center our advocacy efforts outside the CNED program. Current indications are we are looking to connect with a campus or community group where we can build a long-term alliance. In the past our advocacy efforts, while productive, have not resulted in long-term relationships and we seek to change that this year.

Workshops:
2

Workshop Themes:
Clinical or school issues|Professional
Workshops (description): We plan to host two formal workshops this year that will serve as links to the professional community while serving as form of fundraising for Rho Alpha Beta. Current topics under consideration include workshops on supervision, play therapy, the DSM-V, and a multicultural panel.

Counselor Community Engagement: 2

CCE Activities: Donations|Community collaborations|Professional development|Other (describe below)

CCE (description): As noted, we seek to enhance our community profile by creating a longitudinal relationship with a community or campus organization (RSO) that is consistent with the ideals of CSI and the counseling profession. Additionally, our community engagement is illustrated by our workshops that seek to involve the professional community. This includes CSI students volunteering at the state counseling conference and a local conference sponsored by a local mental health agency. Further, local professionals will again be asked to volunteer their time as presenters at our workshops.

Social Events: 4

Social Events Activities: Dinner / parties / socials|Welcome / orientation|End of semester / graduation

Social Events (description): Our current social activities include: 1. CSI dinner/networking event 2. Ice-cream/potluck social 3. End of the year celebration 4. Formal post-induction dinner

Newsletters: 2

Newsletters (Description & Length): We publish one newsletter per semester highlighting new member induction, membership meetings, and past/upcoming events.
Number of CEs Involved: 1
Will nonCFA CEs be involved? Yes
If yes, how? The primary CSI advisor (Dr. Kissinger) will be present at all formal CSI activities to help and provide guidance if necessary. Other CNED faculty often attend the workshops and other activities and all routinely attend the formal induction ceremony.
Recognizing Involvement of CEs: Thank you notes / messages
Recognizing Involvement of CEs (description): Generally, the faculty advisor/CNED faculty are extended a formal thank you card in appreciation of their involvement.
Number of Alumni Involved: 4-Jan
Involvement of Alumni (description): This has been an on-going battle, but this year we appear to have a couple alumni that are willing to assist in workshops, etc. We continue to try and improve our (sometimes) lost connection with our alumni and ask them to stay involved-and provide them with ideas/options on how to do so.
Number of Former Members Involved: 4-Jan
Involvement of Former Members (description): Similar to alumni.
Other Activities (description): We hope to establish lunch discussions, but this has proven difficult with scheduling. We are working to clarify how we could improve this as many ideas are of interest to students.
Chapter Goals & Objectives:
Primary Chapter Goal This Year: Chapter growth|Membership growth|Other
Chapter Goals & Objectives (description): Our primary chapter goals this year include: 1. Continue to build on membership growth from last year. 2. Continue to clarify CSI (RHO) as an international organization and facilitate member engagement in leadership positions in the program and beyond. 3. Continue to
increase student interest and involvement in CSI opportunities for scholarship (grants, conference presentations), and leadership positions at the national level.

Social Events (description): Social Events are two per year. First of the year is a welcome back social informing members about what CSI has planned or goals for upcoming year and ways to get connected. At end of year towards graduation a party on campus or at restaurant.

Newsletters: 1

Newsletters (Description & Length): Newsletter comes out at end of year and is given to staff members, new members, alumni members, parents of new members as well as current members. Due to the fact that Rho Upsilon Beta is a relatively new organization on Rider's campus the newsletter has restated what the purpose and mission of CSI is, what events and activities were done in the past year, the new E-board members with information about them, the different committees and descriptions so new members can get connected right away if interested, advocacy opportunities and goals for the upcoming year.

Will nonCFA CEs be involved? No

Recognizing Involvement of CEs (description):
Number of Alumni Involved: 4-Jan

Involvement of Alumni (description): Helping current CSI members get connected with advocacy projects, job openings, workshops to run for counseling department as well as offering insight into any current breakthroughs in the field such as therapy treatments or medical treatments.

Number of Former Members Involved: 4-Jan

Involvement of Former Members (description): Helping CSI members prepare for jobs, preparing portfolio, resume. Assisting in PhD applications and interview processes. Informing CSI members of jobs in the area and counseling field whether school or clinical setting.

Other Activities (description): Substance Abuse Speaker from psychiatric hospital discuss various groups run at inpatient setting what works what doesn't and why. Different challenges that are faced in that acute population and what is important to keep in mind when dealing with a substance abuse population. Music Therapist speaking on importance of instruments in groups and using instruments to work through or describe their mental illness.

Chapter Goals & Objectives:

Primary Chapter Goal This Year: Membership growth|Events

Chapter Goals & Objectives (description): The main goal of CSI is to improve membership involvement. The more members that are involved the more it allows CSI to do. The participation in past CSI events and activities has been minimal. More attention needs to be focused on making members aware ahead of time of events, ways to get involved and the potential benefits of getting involved in an organization such as CSI. E-board also wants to continue to grow through uses of social media such as Facebook site in order to keep members informed of events that CSI are doing. Due to the lack of member
involvement the events that have run the past haven't been as many as faculty or E-board members would have hoped for. E-board's goal for this upcoming term is to provide more service projects, find interesting speakers for events that might create more member participation and involvement for the future.

Chapter Goals & Objectives (description):

Since the Sigma Tau Upsilon chapter of CSI was reactivated last fall, we have been recruiting members during the spring and summer semester and we are looking forward to kicking off a full year of events and activities. The primary goals of the chapter will be: 1. Increasing chapter growth and visibility. We would like CSI to be more widely recognized among counseling students, as well as all students and faculty within the school of education. Ways in which we hope to grow the chapter include distribution of our newsletter, creation of a CSI bulletin board, as well as sharing our events and successes with School of Education Administrators. Ultimately, we hope that CSI will be as widely recognized on campus as other honors programs with strong visibility (i.e. PDK). 2. Membership growth: We had a strong response to our first two calls for members and we currently have 45 members in CSI. Our goal is to grow that number each year such that we develop a healthy group of CSI students and alumni in our chapter. 3. Events. In our first year as a fully functional honor society, we are looking forward to hosting several events on campus as indicated in our annual plan.

Chapter Goals & Objectives (description): This year we hope to expand our membership at the local level within the university. We are also hoping to reach out to alumni, so that we can better keep in touch with those who were involved with CSI in the past. We plan to advocate for the profession and university as a whole, and promote the field of counseling to those in our community. We are also trying to build a bond between the current members, and hope to add on to this as we initiate new members.

This year's initiation will take place on May 2nd at 2:00pm.

Professional Advocacy: 14-Oct

Professional Advocacy Activities: Advocacy within the profession

Professional Advocacy Activities (description): We want to hold several forums/panel discussions where students can discuss relevant/current issues in the field with professionals in counseling. In addition, our chapter is connected to the local chapter of NYMHCA (New York Mental Health Counselors Association) as several of their meetings are held on campus and we often use CSI to promote and advertise meetings. This helps by connecting current students and recent graduates to professionals in the community.

Workshops: 3
Workshop Themes:

Student-oriented (e.g., APA style, orientation, internships)|Professional development and leadership|Other (describe below)

Workshops (description):

As of now, we have three planned. First - An alumni run workshop where recent graduates discuss the processes for certification(s) and job applications. The goal of this workshop is to provide a venue for both of these, and also resume preparation/critiquing to happen. These are things that are often discussed in class, and this workshop will take it one step farther by renting out a campus computer lab so that students can work towards these tasks while receiving guidance as needed. Second - A workshop on professional networking, with an emphasis on online presences and how websites such as LinkedIn or Pinterest can increase networking and be used to display positive attributes. Third - A self-care night. Students often discuss their self-care activities during classes. This workshop will capture several of those and have stations where participants can learn and practice. For example, some students use yoga for self-care, but not every student has had a chance to try yoga. This workshop could be used to inform students about yoga, and have them practice it, with the goal that it, or other included activities (e.g. cards, video games, baking, knitting) could help students try things out and expand their repertoire of self-care activities.

CCE (description):

Walk Now for Autism Speaks - October 2013 Project to benefit the local Veterans Affairs (VA) We are looking to start a partnership with a local elementary school. At present we are working to envision this partnership and are unsure about the capacity with which we will volunteer. However, we want it to be an
ongoing tradition for years to come.

**Social Events:**

9-May

**Social Events Activities:**

Dinner / parties / socials|Recreational / outdoor events|Other (describe below)

**Social Events (description):**

Walks and the self-care night will double up as social events. In addition to that, we will host an end of the semester holiday party in December, and a party at the beginning of the Spring Semester. The later will be held in mid February, and will be the 2nd Annual 'Black Tie Social'; Building off the success of last years party that had both student and faculty members.

**Newsletters:**

2

**Newsletters (Description & Length):**

In the past, we have had a 2x per year newsletter. However, in recent years the focus has shifted towards including CSI events and news in with other school-wide publications (e.g. The Warner Word; The department’s quarterly newsletter). We plan to use this in combination with social media as a means to engage alumni and inform the current students about CSI events and opportunities.

**Number of CEs Involved:**

9-May

**Will nonCFA CEs be involved?**

Yes

**If yes, how?**

Non-CFA CEs are highly involved in the master’s and doctoral programs through various initiatives such as Master’s Thesis workshops and NCE Review Sessions. These notable contributions are not CSI organized. However, CSI does a lot to promote them and will continue to do so throughout this coming year.

**Recognizing Involvement of CEs:**

Thank you notes / messages

**Recognizing Involvement of CEs (description):**
Number of Alumni Involved: 20 or more

Involvement of Alumni (description): We want all of our events to be open to alumni. There are over 20 recent graduates (in the past 3 years) that currently live in the area. CSI events can be a great way for them to stay fresh in the field with the spirit of continuing education. Furthermore, their knowledge and experience can prove to be beneficial in helping to prepare students for life after graduation (e.g. with the computer lab-based workshop on applications, certifications, and resumes).

Number of Former Members Involved: 9-May

Involvement of Former Members (description): see above.

Other Activities (description): At the end of each year, faculty presents one student with a CSI Research Award. This award is "For an individual who has completed a research project of significance to the profession. This project reflects commitment to excellence in counseling." Our chapter is also thinking of ways to engage more doctoral student members. One idea is to have a research writer's support group that is sponsored and organized by our chapter. The capacity at which CSI is involved is open for discussion amongst chapter members. However, even just a small contribution such as providing refreshments/coffee could be a great way to get this idea off the ground.

Chapter Goals & Objectives:

Primary Chapter Goal This Year: Other

Chapter Goals & Objectives (description): Our main goal is to expand the influence of our chapter. Traditionally, students only participate in CSI during their second year of our program. With a large percentage of students being full time students pursuing Master's Degrees, this leaves only one year of participation as a CSI member. Thus there
seems to be a high turnover rate in our chapter. We wish to combat this by getting more involvement from first year students, even if it is before they are actual members. Also, we want to continue to forge sustainable bonds with the large pool of local alumni. Furthermore, our chapter is housed within a larger graduate school of education. We wish to use CSI as a foundation to strengthening the bonds between the school’s departments and their students. For example, we want CSI to organize events that might encourage students pursuing degrees in teaching, higher education, behavior analysis and human development to interact more close with the counseling students.

Professional Advocacy Activities (description): The Upsilon Sigma Alpha chapter had members present on September 10, 2013 for World Suicide Prevention Day. Volunteers gathered at the campus food court to pass out information pertaining to suicide prevention. Chapter members will also be present on RAINN day to help the nationwide fight against rape, abuse and incest. Zeta Pi has organized a few social events each semester to promote chapter unity. Our chapter gathers at local restaurants and/or on campus at Rowan University. We believe that a strong sense of community is very beneficial to our future careers as we will eventually build a network of members to Zeta Pi. Our social events are perfect to create relationships with one another and establish a strong support system within our program in general.

**Newsletters:** 3

**Newsletters (Description & Length):**

Zeta Pi will publish a quarterly newsletter which highlights our activities for the semester in addition to what we have planned for the future. A hard copy will be provided to the Dean of our college. This newsletter contains a plethora of useful information about our program as well
as chapter to keep our community informed of the work that we are accomplishing.
