Chapter Goals & Objectives (Description)

We have two major chapter goals for this upcoming year. 1) We will recruit and initiate a new member class within the next year that will continue the work that we are doing. 1a.) We will do this through inviting our new students to all of our meetings and social events. 1b.) We will do this by providing opportunities for new students to understand the purpose of CSI. 2) We will focus on providing a balance of advocacy efforts and continue to engage with our community through programming and partnering with local organizations. 2a.) We will do this by engaging in community events and put our name "out there" and networking. 2b.) We will serve as an advocacy group for mental health matters in the community and provide education to those interested.

Chapter Goals & Objectives (Description)

* Business Meetings: o We will hold a meeting with an employee from Prudence Crandall Center to present our donation to their organization. o We will also host a get-together to make sandwiches for an organization called Sandwich Heroes, which will be donated to a local homeless shelter. o We will coordinate with the Connecticut Clearinghouse in Plainville, who has the ability to create a remembrance quilt for those who have lost loved ones due to addiction. This meeting will be a way for our society to support recovery month. * Membership Meetings: o Chapter business meetings will be held monthly to discuss member involvement, social/community engagement planning, and promotion and recruitment of the Executive board and other committee members. * Professional Advocacy: o Potential advocacy related to the effects of addiction as well as promoting recovery efforts on CCSU's campus. o Coordinate a town hall event in Fall 2019 with the Connecticut Counseling Association (CCA) to raise

awareness of new legislation for the Licensed Professional Counseling Associate (LPC-A), a tiered licensure. * Workshops: o We will hold a professional development workshop including: 1. Skills development regarding the writing guidelines as outlined by the Publication Manual of the American Psychological Association. 2. Information on how to conduct a professional presentation. 3. An opportunity to network (including promotion of graduate student involvement in the Connecticut Counseling Association and its annual conference). * Counselor Community Engagement: o Activities: 1. We will collect clothing donations for an organization called Vietnam Veterans of America. These clothing donations help support programs for veterans. 2. We will volunteer for an organization called "Sandwich Heroes." This experience involves making many sandwiches for homeless people. The sandwiches that our chapter will make will be donated to homeless people that fill the South Park Inn emergency shelter, in Hartford, CT. 3. We will engage in community fundraising by collecting money donations for an organization called Prudence Crandall Center in New Britain, CT, while raising community awareness about Domestic Violence with an informational booth in the university's student center. 4. We will engage in community collaboration as we hold a meeting with employees from Prudence Crandall Center to discuss future opportunities for our honor society and their organization. These opportunities may potentially involve the following: a. "Hope Tours" of their building, the services they provide, and their clients stories. b. Potential internships and practicum opportunities. c. Collaborating in increasing community awareness of domestic violence. 5. Our chapter received a Chapter Development Grant from Chi Sigma Iota (\$250) to support our Fall 2019 Student Self-Care and Mindfulness Retreat. Our Co-CFA, Dr. Holt,

submitted the grant and was awarded the certificate during the ACA National Conference and Expo in New Orleans, LA on March 30, 2019. The funds from the grant will be used to purchase retreat supplies (e.g., activity supplies, participant door prizes, etc.), which will occur on Saturday, September 28, 2019 from 10:00am-3:00pm. 6. We will collaborate with the Connecticut Clearinghouse in Plainville, who has the ability to create a remembrance quilt for those who have lost loved ones due to addiction. In an effort to raise community awareness and support National Substance Abuse Prevention Month (October 2019), our society will coordinate the creation of a quilt on campus. This event will be developed in partnership with the university's Presidential Advisory Council (PAC) on Alcohol, Tobacco, and Other Drugs. A tentative date for the event is Thursday, October 10, 2019 from 12:00pm-3:00pm. This event will be open to all university students, faculty, and staff. 7. To raise community awareness about self-care and increase member involvement we may host a "Mindfulness Hike" (Fall 2019 or Spring 2020).

* Social Events: o "Sunday Funday Bowling" for CSI chapter members and guests. This will occur on Sunday, October 13, 2019 at 12:00pm. o We will plan a recreational/outdoor event involving an outdoor picnic (Spring 2020).

Membership Meetings (Description)

Membership meetings occur on an "as-needed" basis. E-mails are sent out as a primary means of communication between all members of the DSM chapter of CSI. As there is a member of each cohort on the executive board, this also helps to increase cross-cohort communication and collaboration.

Professional Advocacy

Professional Advocacy Activities

Advocacy within the profession|Advocacy with the community

**Professional Advocacy Activities
(Description)**

Members of DSM are encouraged to advocate for the counseling profession in all settings. For example, at practicum and internship sites where members are working with colleagues in fields such as social work and psychology. At the beginning of each school year, second year members of our chapter also meet with first year students to advocate for the profession, and to encourage joining professional organizations, such as Chi Sigma Iota. We will advocate for counselors and clients in all appropriate settings, such as at the Wellness Summit in November 2019, and when collaborating with community agencies to help provide clothing, food, and toys for their clients during the winter months.

We are hoping to create a panel of clinicians, teachers and school counselors to discuss the business side of counseling work. They will talk and answer questions on personal marketing, licensure, financial management, telehealth, etc. The current plan is for there to be a panel style discussion and Q&A followed by the option to break up into groups with particular presenters. That way, school track can meet with a school counselor, those interested in private practice can meet with someone in private practice, etc.

Dan Dumont from Oasis Center's Just Us program will be coming to present for two hours about LGBTQ+ allyship and treatment considerations for future clinicians. Dan's focus during the presentation will fall mainly in the categories of mental health disparities, risk factors, protective factors and advocacy for LGBTQ+ populations. A panel from Focus Treatment Center in Chattanooga will be coming to discuss their work with eating disorders in a residential facility. The subject matter of their talk will include a brief walk through disorders, common eating disorder behaviors, cognitive distortions, thought processes, trauma relationship and what it

looks like to treat eating disorders in a residential treatment facility with a step-down process and team approach. In the spring, we are hoping to host Chris Scribner, a Vanderbilt Law student, to come talk about his sobriety and recovery journey. Chris will discuss substance use and getting clean as he entered college, as well as his experiences with various treatment methods and his time in a sober living community. The talk will largely be personal, but there will be a Q&A period meant for applying his message to the clinician working with a young person in recovery.

Primary Chapter Goal This Year	Chapter growth Events
Chapter Goals & Objectives (Description)	The chapter goals for CSI Lambda revolve around further developing a sense of community within the Lambda chapter members and JHU Counseling programs. To do this we hope to continue to sponsor events that further educate our counseling students and provide spaces for them to socialize with one another. We plan to fulfill this by continuing to endorse our mentorship program that pairs CSI members with new students, planning a CPCE/NCE study session event, a "culture shock" event for incoming International students and a Q&A session for those interested in Doctoral programs. In providing these events, we hope to alleviate confusion that our students have about their futures and what to expect while in a counseling graduate program. We hope to continue to support our Lambda members and provide resources not only for them but also for the counseling students at Hopkins.

Financial Issues & Concerns	Though we would like to have additional events throughout the year, time constraints and multiple policies are barriers to fund raising efforts.
Initiations	2
Initiations (Description)	We plan to conduct an initiation is spring 2020 for new students who entered the counselor education program during summer of 2019. This cycle will continue to maximize membership of all counseling tracks. Because School Counseling and College Counseling and Student Affairs students begin their program during the summer and clinical mental health begins their program during fall

semester, a January initiation gives all new students equal opportunity to accumulate the required minimum of hours to receive an invitation for membership.

Business Meetings

2

Business Meetings (Description)

We conduct two business meetings per semester. The first business meeting is focused on the introduction of new officers, planning event for the year, and other activities that may be anticipated. The budget is reviewed and input is given by all executive board members about priorities for the academic year. During the final meeting of the semester we review accomplished goals and plan for spring semester initiation. The budget is reviewed as well.

Membership Meetings

1

Membership Meetings (Description)

We will hold one membership each semester. At this meeting special committees are formed for the task of accomplishing goals for the semester. There is a general discussion of the budget, member concerns, and input from the general membership about activities for the year.

Professional Advocacy

2

Professional Advocacy Activities

Advocacy within the profession|Advocacy with the community

Professional Advocacy Activities (Description)

In January the chapter will participate in the Virginia Legislative Day to advocate for medicaid/medicare reimbursement for licensed professional counselors in the state of Virginia. In addition, we will advocate at the Virginia Department of Education for a more sensible and more well-informed policy surrounding the mental health modules required for certification as a school counselor. The current policy states that students graduating from a CACREP accredited program is exempt from taking the online mental health policies,

which is ill-informed. There is no evidence that just because a school counseling program is CACREP accredited that the program's curriculum offers mental health training in areas needed to address mental health issues in public schools. The chapter feels that there should be specific requirements around coursework and the number of academic credits needed to determine this area of proficiency.

Workshops

2

Workshops Themes

Student-oriented (e.g., APA style, orientation, internships)|Multiculturalism

Workshops (Description)

The chapter will sponsor an APA writing workshop at the end of the first semester to help new students transition from MLA to APA writing. We will collaborate with the university's Writing Center for this workshop. We will also sponsor a workshop on mental health issues facing first-generation college students.

Counselor Community Engagement

1

The chapter plans to sponsor a Walk of the Darkness campaign for suicide education and prevention.

10 or more

Business Meetings (Description)

We have an executive meeting every month. At each meeting, the President facilitates the collaboration of the upcoming events hosted by the Pi Chapter. At our meetings, we vote on upcoming obligations. Our business meetings

	consist of all executive committee members and our chapter faculty advisor if available.
Membership Meetings	4
Membership Meetings (Description)	We have membership meetings twice a semester. Membership meetings will be held to inform members of upcoming events and opportunities for their involvement. We also collect the members' ideas and input on events and opportunities for the Pi Chapter.
Professional Advocacy	1
Professional Advocacy Activities	Advocacy within the profession Advocacy with the community
Professional Advocacy Activities (Description)	Our chapter will be participating in a local walk to support the American Foundation for Suicide Prevention and help raise awareness. This event will be held on 9/15/19. We advocate for our program by getting input from members. We also advocate for the counseling faculty at Marywood if necessary. We advocate for education in our mentor-mentee program which allows students coming into the program to be in contact with a student that has been in the program for at least a year. The new student is mentored through the process. Members are invited to discuss how to advocate for the profession and students on a professional level.
Workshops	2
Workshops Themes	Student-oriented (e.g., APA style, orientation, internships) Professional development and leadership
Workshops (Description)	We are currently organizing a workshop ("stress-less carnival"), which will be open to the public. Our hope is that this workshop will bring professionals from the field to an open house where students, the public, and other professionals will have the opportunity to meet professionals from the field. Students and other individuals will understand from this

workshop what services are available to them. We are also organizing a workshop for students to prepare for their comprehensive and licensure exams (CPCE and NCE). Our hope is to facilitate a review for students, focusing on material that may show up on either of these tests. Students will hear feedback from students who have already taken the test and information will be given about registration for the tests.

Community awareness: We advocate in the community for mental health awareness and for local agencies in the area. Professional Development: We are currently working to plan a "CPCE & NCE Prep night" where counseling students can learn about the process of registering for the exams, get basic information about the exams, and review some of the content that may appear on the exams.

Social Event Activities

Dinner / parties / socials|Welcome / orientation|Recreational / outdoor events|End of semester / graduation

Social Events (Description)

We attended the new student orientation at the beginning of the academic year in order to welcome new students to the university and introduce them to our chapter of CSI. New students interested in CSI signed up to receive information about future events. For the beginning of this school year, the Pi chapter

will be hosting a back to school event. Students who attend will be given the opportunity to network with other counseling students and CSI members and engage in team building activities. An induction ceremony will be planned for new inductees in the Spring. Inductees, CSI members, and their families will attend a dinner after the ceremony. An “end-of-the-year” social event will be planned. The type of event will depend on feedback and ideas from members.

Primary Chapter Goal This Year	Events
Chapter Goals & Objectives (Description)	The over arching goal for this year is to strengthen the involvement of chapter members. The Pi Alpha chapter has been fairly stagnant for the past few years. Little involvement from the faculty, coupled with a lack of social events has resulted in less enthusiasm and understanding of who CSI is and what we do. More meaningful activities,

coupled with more interactive involvement may result in a more active chapter.

while fostering relationships with classmates/colleagues. Better engagement means better connectivity. When members feel more connected, they typically feel more integrated to the organization. Engagement in activities with your organization has proven to reduce turnover but most importantly, engaged employees are happier, both at school and in their personal lives. Joining in on the fun can be a great way for members to get to know each other on a more personal level.

Our main goal this year is to get more counseling students involved, especially students who just entered the program and will take on our roles next year. We actively send out emails with information regarding the organization to students in the program. We have hosted one social event already. We are also electing two first-year students as liaisons so they can communicate with their cohort directly and help get as many first-year students as possible interested in being involved with CSI.

Number Non-CFA CEs Involved	5 to 9
Have non-CFA CEs been involved in the chapter?	Yes
Involvement of Non-CFA CEs (description)	Our chapter plans to recognize the involvement of our counseling faculty by giving our counseling department a chance to nominate a faculty member who has had the most influence on them and on the counseling program. We plan to give these awards to faculty members at the CSI initiation ceremony. We plan to recognize all of our counseling faculty members for their service by providing "Thank you" notes to thank them for their dedication to our program and it's students.
How has the involvement of non-CFA CEs been recognized? (description)	Awards / recognition
Number of Alumni Involved	5 to 9
Involvement of Alumni (Description)	The previous year we had alumni speak at our initiation ceremony and present as part of a professional development event. This academic year, our chapter plans to invite counseling alumni to be speakers at our CSI induction ceremony in the Spring of 2020. Our chapter also plans to help sponsor a professional development event where alumni of our counseling program will be involved. We also plan to invite counseling program alumni to our professional development events and social events as a way to stay in touch with the program as well as providing them opportunities for education in the counseling field as well as an opportunity to network with others. The previous year we saw an increase in alumni involvement and hope for the same this year.
Number of Inactive Members Involved	5 to 9
Involvement of Inactive Members (Description)	We plan to invite our chapter's former members to all CSI-sponsored professional

development events, CSI-activities, social events, member meetings and to send them the same information we send to our current members in the program. Last year, through our events we saw an increase in former member involvement and hope to do the same this year.

Other Activities (Description)

We plan to recognize student excellence by providing them with awards for their dedication to academics and to fieldwork in the counseling field. We plan to present these awards to students at our annual CSI induction ceremony. In September our chapter started off the academic year by spreading positivity and hope to our students and faculty to show them that they are cared for and supported by our program. We did this by encouraging students and faculty members to write supportive notes to be put up on the CSI-bulletin board. We also encouraged students and faculty to take pocket-sized inspirational quotes found on the bulletin board in case they needed a positive reminder. Those who could not make it to campus were encouraged to submit a note through Google Forms to be put up on the bulletin board. This was a way to give everyone the ability to participate including alumni and former members. We plan to update our bulletin board throughout the academic year to spread awareness about the different awareness months pertaining to mental health such as Domestic Violence Awareness Month, Eating Disorder Awareness Month and Mental Health Awareness Month, to name a few examples. Any other activities will be recorded in the annual report.

Will your chapter encourage prospective students to join the counseling profession at any events?

Yes

If you advertise your program to prospective students, what documents will you provide?

Please provide any additional information about the recruitment events you hope to attend.

Our chapter plans to encourage prospective students to join the counseling profession at counseling graduate information sessions and open houses hosted by Rider University. We plan to have an officer or member of our chapter co-lead information sessions or open-houses with a faculty member when possible in order to share their experience as a counseling student as well as answering any questions prospective students may have about the program or the field of counseling as a whole. During these events, we plan to mention, describe and highlight the impact of our chapter of Chi Sigma Iota on our counseling department in order to advocate for our chapter and to further encourage prospective students.

Primary Chapter Goal This Year

Chapter growth|Membership growth|Events|Other

Chapter Goals & Objectives (Description)

Our chapter goals and objectives include increasing our member involvement through social events, personal development events, service activities, member meetings, and other CSI-sponsored activities. Another goal is to continue to increase our alumni and former member involvement by providing alumni and former members with invitations to all CSI events and activities and inviting alumni and former members to be a part of our CSI induction ceremony. We also plan to increase attendance and participation at our different events by engaging in more advertising for our activities. We hope for our chapter to have an increasing influence on the experience of our counseling students and to inspire other students to take on a leadership role in our chapter. Our goal is to have our objectives align with CSI's objectives of being servant

leaders and by promoting excellence in counseling within our chapter.

Chapter Goals & Objectives (Description)

One of the major goals of our work this year is to help strengthen our PROFESSIONAL identity. We are trying to organize a fundraiser than can sell items that can be used in professional daily life. We are going to bring a speaker for induction that can also offer a workshop on the same day with continuing education. We are going to offer a wellness event to help tie in the emphasis of self-care in our curriculum. We also are working to make membership more accessible by possibly setting up a scholarship fund as well as helping students plan in advance for financial obligations for induction/membership.

CCE (Description)

Our chapter has formed a team for October 2019 New Hampshire NAMI walk. As part of the NAMI's initiative our chapter has raised over \$500 in donations as of September 2019. This fall we have extended the invitation to students in school psychology, nursing, social work and psychology programs to join our NAMI Walk team. This invitational extension will also serve as a recruitment opportunity of undergraduate students for our counseling programs and eventually CSI membership. Professional development activities for this academic year include two major events. In September, CSI is co-sponsoring our programs' Annual Kickoff Event. This year the topic is on self-care. The leadership team will also be actively involved in planning the Diversity Institute, co-hosted by our chapter and the counselor education and school psychology programs. For this event, the CSI leadership members and students are charged with planning, organizing, and overseeing the day's events. This professional development opportunity is scheduled for March 2020 and is open to all university students, faculty, staff, and community members. In December, our chapter will support the university's

scholarship program by donating a Christmas tree to the Plymouth State University Festival of Trees. All monies raised go toward student scholarships.

Business Meetings (Description)	Upsilon Theta holds monthly Leadership Meetings for elected and appointed members.
Membership Meetings	2
Membership Meetings (Description)	Upsilon Theta holds one general membership meeting per semester.
Professional Advocacy	3
Professional Advocacy Activities	Education about advocacy Advocacy within the profession Advocacy with the community
Professional Advocacy Activities (Description)	As co-committee chairs for professional advocacy, we hope to encourage and facilitate advocating by CSI members for an environment that encourages wellness and speaks out against oppression. We desire to advocate for this at the local university and city level, at the state level, and at the federal level. We plan to empower CSI members to do this through two main initiatives, increasing awareness and collaborative advocating events. Increasing awareness of services and events that support wellness in the local area through a resource sheet and informing members of relevant local, state, and national issues through a bimonthly newsletter will provide members with actionable options of organizations and causes to get involved with. To facilitate collaborative advocacy we plan to organize at least one group advocacy activity a semester for members. We feel that building a system of advocating as CSI members not only supports the counseling profession and promotes learning the practices of advocacy, but also encourages a community movement. We want to encourage activities that bring people together in advocating whether it be

through having snacks and writing to university officials or coordinating with other organizations to have a day on the hill to meet with legislators

I will be creating a resource file with study materials for these sessions as well as recording the study sessions to make available for students whose schedule does not permit their attendance to the sessions.

CCE (Description)

The community engagement and advocacy committee is excited to connect counseling students to mental health needs within the University of Tennessee campus community and the Knoxville community at large through psychoeducation and personal development events. We hope to establish a presence on campus as a way to advocate for a multi-cultural, developmental, and wellness based perspective and to foster a sense of belonging among diverse groups on campus by representing values unique to the counseling profession- listening, empathic connection, and unconditional positive regard. We will focus our attention in the fall on several smaller community events and facilitate a

	stronger counselor presence during mental health awareness week on campus. We will also be preparing for a Multicultural Counseling Education and Campus Outreach Summit in the spring to engage students, connect with other campus organizations, and address the current campus climate regarding multiculturalism and belonging.
