CSTE Executive Board

Infectious Diseases Steering Committee

CD/MCH/Oral Health Steering Committee

Environmental/Occupational/Injury Steering Committee

Surveillance/Informatics Steering Committee

Cross Cutting I Steering Committee

Cross Cutting II Steering Committee

**Adult Immunization
Child Immunization
Food Safety/CIFOR
HIV
Healthcare-Associated Infections/Antibiotic Resistance
Influenza
STDs**

**Cancer
Cardiovascular
Chronic Disease Epidemiology
Capacity Building
Chronic Disease Indicators
Maternal/Child Health
Surveillance and Informatics**

**Climate Change
Disaster Epidemiology
Environmental Epidemiology
Injury Surveillance & Control
Occupational Health Surveillance**

**Surveillance Practice & Implementation
Surveillance Policy
Electronic Laboratory & Disease Reporting
Surveillance Indicators**

**Alcohol
Alcohol & Other Drug Indicators
Local Epidemiology
Overdose
Substance Abuse
Workforce**

**Border/International Health
Disparities
Public Health Law
Tribal Epidemiology**

Occupational Health

- **Published Management Guidelines for Blood Lead Levels in Adults & Counting Work-related Injuries and Illnesses: Taking Steps to Close the Gaps**
- **Webinars: ICD 10 transition & NIOCCS**
- **OHI and OH Leadership group activities**
- **Ongoing BRFSS surveillance collaboration**

Infectious Disease

- HIV & HAI peer to peer technical consultations
- Customized SAS trainings for HIV coordinators
- NASPHV compendium on prevention of zoonotic disease among veterinarians and other workers
- CSTE working with APHL on strengthening lab/epi communications for improved efficiencies in surveillance
- CIFOR completed a series of documents on legal authority in states to conduct disease surveillance and respond to outbreaks

Surveillance/Informatics

- **2013 Epidemiology Capacity Assessment ongoing**
- **2012-2013 State Reportable Conditions Assessment this fall**
- **Planning an informatics national summit**

Environmental Health

- **Published report on the use of Poison Center Data & Guidelines for investigating suspected cancer clusters and community concerns**
- **Interested in providing guidance or a point of contact to states for fracking-related issues**
- **New workgroup to define the use of syndromic surveillance data for surveillance of non-infectious conditions**

Chronic Disease/MCH/Oral Health

- **Published Chronic Disease Orientation Manual**
- **Various webinars**

Cross Cutting

- **H.R. 1792 – currently administrative directive: establishes requirements for mandatory reporting of state reportable diseases by the VA to public health**
- **2 new subcommittees - Epidemiology Methods and Public Health & Primary Care Integration**
- **2 new fellowship opportunities – I-TIPP & HSIP**

CDC/CSTE Applied Epidemiology Fellowship

2014 – 2016 (class 12)

- **5 Host site billets accepted: CA, MI, CO, FL & WI**

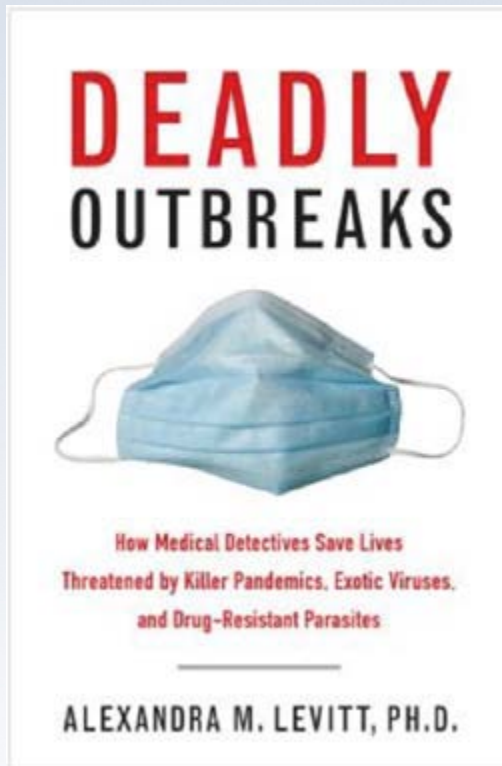

2013 – 2015 (class 11)

- **Current fellows: N/A**

2012 – 2014 (class 10)

- **Current fellows: Rebecca Cohen, CA and MyDzung Chu, MA**

Deadly Outbreaks: How Medical Detectives Save Lives Threatened by Killer Pandemics, Exotic Viruses, and Drug-Resistant Parasites

**COUNCIL OF STATE AND
TERRITORIAL EPIDEMIOLOGISTS**

Future Webinars

- Writing a competitive grant application
- Communicating to policymakers
- ACS hands-on/how this can be used for denominator data
- Ag Injury Surveillance and denominator data
- Evaluation on a Shoestring Budget
- Syndromic surveillance primer
- Utilizing BRFSS data & analysis tips
- Investigations where epi has led to intervention
- Electronic health records update

CSTE Annual Conference

- Marion Kainer to present on HAIs and the link between OH and ID
- Panel discussion on injury and illness datasets (NHANES, NHIS, BRFSS, etc.)
- Local/regional OH issues and perspective
- Occupational asthma and heavy metal surveillance
- Bring in a specialist on an emerging issue
- How to create effective education/intervention materials with minimal funding
 - Developing communications tools
 - How-to discussion focused on prevention: how to do it, what materials
 - Innovative outreach & how states have used their data for intervention
 - Social marketing
- OH: how does it fit in a public health model
 - Using one state as an example, provide a basic 'how to' on data, surveillance, intervention & prevention
 - Methods of data gathering
 - Application of data findings to guide interventions (thought process/variety/how states approach it)
 - How to identify priority areas for your state (strategies)
 - How to be useful to your state: work comp; OSHA; i.e. provide useful data to partners
 - Evaluation

Future Activities

- OHIs
- Worker's compensation workgroup
- Electronic health record liaison or workgroup
- Multi-state projects (heat related illness)
- Webinar
 - NIOCCS
 - Grant writing
 - Communicating to policymakers
