- Complete the post-test successfully
- Provide feedback on the course by completing a course evaluation

Evaluation and Testing

Evaluation and Testing

Fill out evaluation form:

Take post-test:

12-3

Instructional Note

How the evaluation and post-test administration will be set by the instruction team. It may be best to ask participants to complete the evaluation prior to testing. Participants can complete the evaluation and then pick up the test and answer sheet. After the test has been completed, the instructors can grade the test immediately and provide participant with the results. If a participant fails to obtain a passing score, they should work with the instructor until a passing grade is obtained.
