The DAPS Workgroup (version 2) was tasked with updating the original DAPS Toolkit to reflect new HAI metrics, the 2015 national SIR baseline, and updated materials to use when analyzing and displaying data for facilities without an SIR (< 1 predicted infection). The Methods chapter was updated, and an expanded chapter was created on data display for hospitals with less than 1 predicted infection.

**Co-chairs:**
Zeshan Chisty, MPH, HAI Collaborative Coordinator, State of Hawaii Department of Health
Lindsey Weiner Lastinger, MPH, Epidemiologist, Division of Healthcare Quality Promotion, CDC

**Members:**
Michael Anderson, MPH, Program Analyst, CSTE
Rachel Cathey, MPH, CIC, HAI Epidemiologist, Indiana State Department of Health
Ashley Fell, MPH, Epidemiologist Senior, Minnesota Department of Health
Virgie Fields, MS, CPH, HAI Epidemiologist, Virginia Department of Health
Chelsea Foo, MPH, CIC, Epidemiologist, Los Angeles County Department of Public Health
Sam Horwich-Scholefield, MPH CIC, Antimicrobial Resistance Epidemiologist, California Department of Public Health
Tisha Mitsunaga, DrPH, ScM, CDC/CSTE Applied Epidemiology Fellow, Virginia Department of Health
Robert C. Orellana, PhD MPH, Epidemiologist, The Ohio State University Wexner Medical Center
Colleen Roberts, MPH, Epidemiologist, Tennessee Department of Health
Katie Palladino, MPH, CPH, HAI Epidemiologist, North Carolina Department of Health and Human Services
Co-chairs:
Andrea Alvarez, MPH, HAI/Influenza Program Coordinator, Virginia
Lindsey Weiner, MPH, Epidemiologist, Division of Healthcare Quality Promotion, CDC

Members:
Nicole Bryan, MPH, CPH, CIC, Research Associate, CSTE
Maggie Dudeck, MPH, Epidemiologist, Division of Healthcare Quality Promotion, CDC
Ashley Fell, MPH, HAI Epidemiologist, Tennessee
Katrina Hansen, MPH, HAI Program Manager, New Hampshire
Megan Sanza, MPH, Epidemiologist, Communicable Disease Branch, North Carolina
Kristine Smith, MA, CCPH, National Public Health Information Coalition
Rachel L. Stricof, MPH, CIC, CSTE Consultant
Mary Beth Wenger, Health Communications Specialist, National Public Health Information Coalition
Eileen Witherspoon, MPH, Health Policy Analyst, Maryland Health Care Commission

Associate Members:
Gary Haseltine, MD, MPH, Epidemiologist, Emerging and Infectious Diseases Branch, Texas
Theresa Lee, MPA, CPHQ, Director of Center for Quality Measurement and Reporting, Maryland
Paul Malpiedi, MPH, Epidemiologist, Division of Healthcare Quality Promotion, CDC
Jeffrey R. Miller, MD, MPH, CDC Career Epidemiology Field Officer assigned to Pennsylvania Department of Health
Tabatha Offutt-Powell, DrPH, State Epidemiologist, Delaware
Alyssa Parr, MPH, CIC, CDC/CSTE Applied Epidemiology Fellow, Virginia
Erica Runningdeer, HAI Program Coordinator, Illinois
Jennifer Vinyard, MPH, CIC, Epidemiologist for HAI Reporting, Texas

Acknowledgments
We are grateful for the following individuals and teams who provided input and a peer review of some toolkit materials:
Zeshan Chisty, MPH, HAI Collaborative Coordinator, Hawaii
DHQP Statistics Team, CDC
DHQP Communications Team, CDC
DHQP Methods and Analytics students, CDC

The original image files used in the HAI educational materials provided by Robert Geist, MPH, CIC, Epidemiologist, Kansas Department of Health.
The invaluable feedback we received from Maryland's focus group was instrumental in the development of this toolkit. We wish to thank all focus group participants for their time and contributions.

We also wish to thank Dr. Marion Kainer, Tennessee Department of Health, Dr. Katie Arnold, CDC, and Dr. Stephen Ostroff, Federal Drug Administration, for providing guidance and helping formulate ideas for the position statement preceding the development of this toolkit.
