

Connecting with Other CBA Members

CBA members can now connect and collaborate with fellow members by selecting the **Connections** link.

Connections are very similar to LinkedIn Connections and Facebook Friends. Members can search for other CBA members by clicking the **CBA Member Directory** link (found in the connections section) or by selecting the **Find A Member** icon on the left menu.

Once a connection is made, all of your connections will be listed (as shown above). You can easily access all of your connections, view when they are online, chat with them easily, view their page, and send private messages. Keeping in touch with colleagues has never been easier or more centralized.
