The Turnitin Difference

Reduce copy/paste culture

Compare student work with over 70 billion current & archived web pages, the largest web coverage available.

Identify inappropriate homework collusion

82%*

Our vast database of over 1 billion student papers is 20 years in the making, allowing teachers to quickly identify improper collaboration both within and across schools.

*82% of unoriginal work matches other student papers

Built-in grammar feedback

Natural-language processing technology evaluates and highlights improvement opportunities in grammar, mechanics, usage, lexical complexity and more.

Fast, clear results

Easy-to-read Similarity Reports are available right away, assuring that students complete their work honestly while respecting teachers’ time.

Partner with us to cultivate writing excellence for all of your students.
