Stephanie Murillo

Administrative Supervisor I

- **Connect** with the pulse of industry and bring awareness of a free resource available to DMA members
- Convene partners and businesses around the **future of workforce** with a focus on industry growth and connections to **education and training** provider

Overall goal is to expand the pool of available talent to respond to current and future needs

<https://cwdb.ca.gov/initiatives/slingshot/>

- The Workforce Development Boards of San Bernardino County and Riverside County assist companies **grow and thrive**
- Job posting, recruitment services, job placement, and funding to **assist with training** new employees
- **Free HR hotline** for companies seeking help with any HR related issues or questions, and business consultant services to assist with improving business efficiency, marketing, and operational processes

We are looking for:

- Grow regional efforts to **improve connections** between Logistics Industry and WDBs in San Bernardino and Riverside Counties
- Expand workforce development strategies and efforts around the **growth of Logistics and Transportation**
- Explore ways of building a **quality talent pool** based on direct feedback and input from business leaders

To whom it may concern:

We are currently utilizing Workforce Development Department and OJT to help develop our employees through the use of training. All employees who are hired on board will have to go through the program. This program covers standard work, process, procedures as well as safety and other training initiatives.

“I would like to thank you for the OJT Program...the funds will greatly help with our financial stability “

July 21, 2014

Dear San Bernardino County WFD:

This letter is written to express our appreciation to the County of San Bernardino and Riverside Workforce Investment Board for their support and assistance in providing training through the OJT program. We are currently utilizing Workforce Development Department and OJT to help develop our employees through the use of training. All employees who are hired on board will have to go through the program. This program covers standard work, process, procedures as well as safety and other training initiatives.

DeVoll's Rubber Products is a custom rubber manufacturer located in Adelanto, California.
