Introduction	v
Special Presentation	
Healthy Rhode Island Environmental Design Summit	1
Keynote Address	
Designing Healthy Communities	4
Plenary Sessions	
Healthy Rhode Island Environmental Design Summit: The Findings.....	5
Health Impact Assessment: Building New Partnerships for Healthier Communities.....	6
Streets for Living	7
Career Award	
Richard Wener, PhD, Professor of Environmental Psychology, Polytechnic Institute of New York University....	8
Achievement Award	
“Inconvenient Heritage” by Lynne M. Dearborn and John C. Stallmeyer	9
Michael Brill Award, co-sponsored by the Urban Communication Foundation	
Sheila Gobes-Ryan, University of South Florida.....	10
Organizational Award for Excellence in Environmental Design Research, Application, or Education	
Project for Public Spaces	11
Refereed Full Papers	
Bridging Embodied Learning Theory, Place Meaning and the Process of Place Making in Design Studio Pedagogy	15
The Healthful and Helpful House in Positive Aging: Possibilities for the Development of a Local Prototype and Conceptual Model	20
Ways to Design Holiday Accommodations for People With Dementia and Their Family Caregivers.....	26
Making Children’s Environments “R.E.D.”: Restorative Environmental Design and Its Relationship to Sustainable Design	31
Experimenting with Distance Education in Architecture.....	38
The Impact of Color on Healthcare Environments: A Growing Body of Evidence-Based Design	45
Healthy Convenience: Nudging Students Toward Healthier Choices in the Lunchroom.....	52
Design Plus Children: An Approach to User-Centered Design and Constructionism in the Design/Build of the Muncie Children’s Museum Tot Spot	58
Changing Campus Learning Space Design to Correspond with Adopting Problem Based Learning: Student Collaboration, Prominent Activities, and Its Relationship to Learning Styles	71

Refereed Full Papers (continued)

The Perceptual-Based Design Model: A Conceptual Framework to Designing Constructive Individuals' Experiences Based on the Perceived Attributes of the Settings	79
Effects of Integration of Housing Schemes on Social Interaction and Resident Well-Being	87
Person-Nature Therapeutics in Crisis Shelters for Victims of Domestic Violence: A Review	97
Environmental Design Research and the Design of Urban Open Space: A Study of Current Practice in Landscape Architecture	105
Placing Social Capital in the Campus: Case Study of the University of Wisconsin-Milwaukee	113
Re-placemaking: Constructing a New System of Bonding with Places	122
Improved Public Health Through Better Design of Community Toilets: A Case of Universal Access to Community Toilets in India	134
Eight Characteristics of Built Space Supportive to Conflict Mediation Processes	139
Environmental Quality and Preference among Different Socio-Cultural Groups in Israeli Society	146
A Study of Nursing Home Gardens: Using a Case-Study Approach to Understanding How Gardens Are Constructed in Nursing Homes	152
Steps Towards Healing: The Garden Oasis Down the Street	163
Applying Gibson's Theory of Affordances to Interior Design	170

Thematic Abstracts

Active Living By Design	181
Applied Health Policy	185
Children, Youth & Environment	222
Communication	232
Cultural Aspects of Design	235
Cyberspace & Digital Environments	244
Environment-Gerontology	248
Environmental Design Research Education	253
Health	260
Historic Preservation	272
Inquiry & Research	273
Interior Design	291
Nature & Ecology	293
Participation	302
POE/Programming	307
Residential Environments	316
School & Educational Environments	322
Sustainable Planning, Behavior & Design	329
Work Environments	336
Mobile Sessions	345
Display Poster Presentations	349
Author Index	361
EDRA44 Providence Reviewers	367
