

Support EFF

EFF is a 501(c)(3) organization that strives to expand its programs and offerings to the endocrine fellow community. With the assistance of educational focused individuals, we are able to continue to educate fellows and we invite you to donate now.

Presidents Letter

July marks the beginning of a new academic year and many of you are just settling into an exciting new phase of your careers. Nothing is more intimidating than moving from a clinical residency and suddenly walking into a lab filled with technologies and procedures that seem sent from a foreign world. The process of discovery is an exciting one and working with a mentor in expanding the boundaries of current knowledge is a highly satisfying part of training, though a late Sunday night in a lab drawing specimens from a lab rat might not always hold such appeal.

For those of you new to EFF, welcome, and I strongly encourage you to take full advantage of our research grant programs and our preceptorships in bone and diabetes. For those of you already part of the EFF family we look forward to helping you further your career development. Look for new content in bone and mineral metabolism on our website in the coming months as we are happy to make available the academic and didactic content from the Columbia bone Preceptorship to all of you.

We at EFF send our best wishes for a successful academic year!

Dr. Mark Stolar

2018 Grant Cycle 2

Applications for the 2018 Grant Cycle 2 are now open. If you are interested in learning more about our grant program, [click here](#).
