

Activate Deeper & Broader Levels of Healing with Your Clients

Essential Skills in

COMPREHENSIVE ENERGY PSYCHOLOGY

Attending CEP Level 1 profoundly changed the way I work with clients. Clients are delighted to see that they can actually change things within themselves instead of just dissecting them, which is so common in conventional approaches. They were able to cope better using conventional methods, but they didn't experience the deep, transformational change that comes from energy psychology work.

My clients often feel a profound sense of wholeness and well being they have never felt before.

—Heather LaChance, PhD

- **Integrate** more holistic, mind-body approaches into your practice.
- **Learn** simple, powerful, evidence-supported practices to swiftly improve the well-being of your clients.
- **Master** an integrative framework that helps you combine energy work with most conventional psychotherapy modalities.

12 CE/CME/CNE hours

Philadelphia, PA

Level 1
March 9-10, 2019

Santa Ana Pueblo, NM

Level 1
May 1-2, 2019

The latest neuroscience findings and trauma-informed therapy point to the importance of including body-oriented systems to effectively help people heal.

“The techniques of energy psychology have provided me with invaluable tools for working with trauma. No therapist can afford to remain ignorant of this new and exciting field.”

**-Nathaniel Branden, PhD,
Author *The Six Pillars of Self-Esteem***

“In every culture and in every medical tradition before ours, healing was accomplished by moving energy.”

**-Albert Szent-Gyorgyi,
Nobel Laureate in Medicine**

“Energy psychology techniques and procedures can bring about remarkably rapid changes in the way people feel and move through the world.”

**-Bessel A. Van Der Kolk, MD
Medical Director, The Trauma Center,
Brookline, MA**

*“If you can make this training, do so!
It forever changed my personal life
and my practice for the good!”*

Judy Vartelas, LCSW

What is energy psychology?

A growing body of scientific research and literature, especially in the field of trauma, recognizes that the dysregulation of affect and disruptions in mood and thought are driven by the body — more specifically by disturbances in the body’s bioenergetic patterns.

Energy psychology combines some of the best practices of psychotherapy, counseling and coaching. It includes attunement, presence, goal setting, compassionate and mindful awareness of painful/stressful events or experiences while physically activating the body’s energy systems by using techniques such as having the client tap specific acupuncture points.

Over 100 peer-reviewed studies have shown the effectiveness of EP. Learn more about the research at energypsych.org/research.

Why study with ACEP?

Formed as a non-profit in 1999, the Association for Comprehensive Energy Psychology (ACEP) is the only professional organization dedicated to upholding standards of practice and a code of ethics in the field of energy-based psychotherapeutic modalities.

Additionally, ACEP is the only organization of its kind geared toward serving licensed mental health professionals and allied health practitioners around the world who are interested in incorporating energy psychology into their work.

Isn't it time you expand your tool kit to include the evidenced-based, mind body approaches of energy psychology?

Imagine yourself...

- Feeling completely confident in your ability to help your clients heal tremendous emotional pain and regulate their emotions without using medication
- Helping your clients rapidly heal trauma/PTSD
- Assisting your clients to identify and resolve unconscious blocks to achieving their goals
- Integrating energy-based methods with other therapeutic approaches
- Working with more inspiration, intuition and deeper connection

You'll learn:

- About 3 human energy systems: meridians, chakras and the biofield
- Healing techniques that work with each of these systems
- The blocks many clients have to achieving their goals and how energy psychology can help resolve them

Plus key methods most other trainings don't include:

- A unique, specific, six-step protocol. *The training in most specific techniques focuses on only a few of these steps.*
- How to move *between* energy systems (e.g., chakras and meridians) even while working on the same issue, so that your clients experience the most thorough healing.

You'll be able to take virtually any treatment method you already know, plug it into the model, and make your treatment more comprehensive.

The result? You can help your clients

- Relieve suffering from emotional challenges such as trauma, food cravings and addictive behavior, anxiety, depression, and stress
- Clear limiting beliefs
- Enhance performance in school, business and sports
- Experience well-being

This training is a perfect fit for:

Forward-thinking psychologists, social workers, therapists, counselors, coaches, physicians, nurses, acupuncturists and other helping professionals.

Course Overview

CEP LEVEL 1

12 CE hours

Practice Content Level: Beginner to Advanced

Understand and practice energy psychology within an overall perspective of sound science, practical application and ethical consideration. Leave with an array of tools you can use to customize treatment for specific client needs, along with a framework to integrate these tools within a psychotherapeutic model.

CEP LEVEL 2

Prerequisite: CEP Level 1

12 CE hours

Practice Content Level: Intermediate to Advanced

Building on the foundation you have developed in Level 1, in Level 2 you will learn advanced approaches for working with meridians as well as advanced chakra and biofield interventions for trauma, anxiety, pain and more. You will also learn skills for self care.

Both workshops include many opportunities for experiential practice.

Trainers

Lynn Karjala, PhD, DCEP, is a clinical psychologist specializing in trauma treatment. She is trained in hypnosis, AIT, EFT, TAT and BSFF. Author of three books, Lynn has extensive experience training clinicians in conventional and alternative approaches. She chairs ACEP's certification committee.

Kristin Holthuis, MD, DCEP, is a holistic family doctor who has integrated EP completely in her professional practice. As a certified CEP, TAT, EFT, TFT-alg and Matrix Reimprinting trainer, she loves to train professionals and introduce EP modalities into the health care system.

David Gruder, PhD, DCEP, psychologist and award-winning author, was ACEP's co-founder and first president. David is the founder and CEO of Integrity Revolution, whose mission is to assist entrepreneurs, leaders and helping professionals Make Integrity Profitable™. He speaks, trains and consults worldwide.

Stephanie Eldringhoff, MA, LMFT, DCEP, TFT-DX has specialized in energy psychology approaches since 1993. She has a private practice in Washington and an international practice online. She has served on the faculty of Donna Eden's Energy Medicine Certification Program, and is co-developer of The Rapid Relief Process.

Michael Galvin, PhD, DCEP, is a clinical and health psychologist and has served on the faculty of three university graduate schools. He is an ACEP and EMDRIA approved consultant and has been trained in TFT, EFT, EDxTM and TAT. Michael trains internationally, and is co-author of *Energy Psychology and EMDR*.

Course Outlines & Objectives

Visit energypsych.org to view complete outlines and objectives.

Amplify Your Credibility & Upgrade Your Expertise—Get Certified!

This series of two workshops is the gateway to ACEP's certification program in Comprehensive Energy Psychology (CEP). You can sign up for CEP Level 1 as a stand-alone course or attend the Level 1 and 2 workshop series before making a decision about continuing with the certification program.

With ACEP's certification credentials in Comprehensive Energy Psychology, you distinguish yourself in an emerging and pioneering field.

For more information about these workshops and ACEP's CEP certification program, visit energypsych.org

Save up to \$80 when you register at least 6 weeks early!
