The European Physics Society 2020 EPS Condensed Matter Division Europhysics Prize Short Citation

The 2020 EPS Condensed Matter Division Europhysics Prize is awarded to Jörg Wrachtrup for his pioneering studies on quantum coherence in solid-state systems, and their applications for sensing, and, in particular, for major breakthroughs in the study of the optical and spin properties of nitrogen vacancy centres in diamond.

Jörg Wrachtrup
3rd Physics Institute / 3. Physikalisches Institut
University of Stuttgart / Universität Stuttgart
Pfaffenwaldring 57
D 70569 STUTTGART
