The Faculty of Science of the University of Fribourg/Switzerland and the Adolphe Merkle Institute (AMI) invite applications for a tenured position of a

Full Professor in Biophysics

Qualified applicants must have an outstanding track record of successful independent research in the field of the physics of the interactions between living matter and materials.

The successful candidate is expected to develop a vigorous, internationally recognized research programme that is sustained by a significant level of external funding. Close collaboration with the other members of the Institute and the Faculty of Science as well as active participation to the National Competence Center for Research Bio-Inspired Materials are expected. The candidate will contribute to the educational mission of the Faculty of Science by teaching at the graduate level. AMI offers highly competitive working conditions, an outstanding infrastructure, a generous start-up package, and a significant level of discretionary research funding.

The AMI is a recently established center of competence, focused on research in the field of soft nanomaterials science and technology. With the objective to stimulate innovation, AMI aims to combine fundamental and application-oriented research within an interdisciplinary setting.

More information about the application procedure (deadline 31.07.2014) as well as the AMI is available at www.unifr.ch/science/positions.
