Preliminary Programme
Thursday, 10 April 2014

University Hospital Motol, Prague - Czech Republic

General Auditorium

12.00-16.00 - European Consensus/Current Concepts Meeting

Therapy Talar OCD

*Moderators: John Kennedy, C.N. van Dijk*

**Treatment of Talar OCD**

- Introduction - Current evidence from literature
- 1. BMS: How can we make it better?
  - G.M.M.J. Kerkhoffs
- 2. Overview of Biologic Solutions
  - John Kennedy
- 3. MACI: 1 stage and 2 stage
- 4. OATS
  - John Kennedy
- 5. Hemicap
  - C.N. van Dijk
- 6. Retrograde drilling
  - James Calder
- 7. Fixation
  - G.M.M.J. Kerkhoffs
- 8. Osteotomy
  - C.N. van Dijk

Consensus Discussion

16.30-17.30 - Live surgery Hemicap implantation
Preliminary Programme

Friday, 11 April 2014

Hotel Intercontinental, Prague - Czech Republic
Congress Hall - A

8.30-8.40 - Opening and Welcome
8.40-11.30 - Session 1
Talar OCD: Summaries of Consensus Meeting International Expert
Moderators: John Kennedy, C.N. van Dijk

- Consensus on Diagnosis of Talar OCD
  Report from consensus meeting Dublin

- Consensus on treatment of Primary OCD
  Report from consensus meeting Prague, John Kennedy

- Bone marrow Stimulation: Current state of the art and future perspective
  Report from consensus meeting Prague, G.M.M.J. Kerkhoffs

- Consensus secondary treatment of Talar OCD
  Report from consensus meeting Prague, C.N. van Dijk

- Consensus of Rehabilitation after bone marrow stimulation
  Report from consensus meeting Dublin, James Calder

- Rehabilitation after treatment Talar OCD: Overview after various treatments
  Report from Consensus meeting Dublin

11.30-12.30 - Session 2
Cases for the Panel: Case discussion session
12.30-13.30 - Lunch

13.30-14.00 - Session 3
**Key Note Lecture**  
*Moderators: Milan Handl, C.N. van Dijk*

- What did we learn from the past and what does the future bring us in cartilage repair?

14.00-15.30 - Session 4
**Natural History, prevalence, and Diagnosis**  
*Moderator: James Calder*

- Injury mechanism and prevalence of talar OCDs
- Walking on water, not always a benefit!  
  *C.N. van Dijk*
- Patient history, physical examination, radiographs, ultrasound, MRI or CT scan with or without contrast: how to diagnose a talar OCD?

15.30-16.00 - Tea break

16.00-17.00 - Session 5
**Treatment Primary Talar OCD: what’s the current best and what will the future bring?**

- Where do we stand with current treatment primary talar OCDs. Future: Healing water?  
  *G.M.M.J. Kerkhoffs*

- Juvenile Articular Ankle Cartilage Defects, all you need to know

19.30 - Social Dinner
Preliminary Programme

Saturday, 12 April 2014

Hotel Intercontinental, Prague - Czech Republic
Congress Hall - A

8.30-10.00 - Session 6

Treatment Talar OCD: Biological Augmentation and Tissue Engineering

- Biological Strategies in the Surgical Treatment of Osteochondral Lesions of the Talus
  John Kennedy
- Biologic augmentation for articular cartilage repair
- Stem Cells in Cartilage Repair
- Talar Biocartilage – A New Treatment
- The Use of Biologics in Cartilage Degeneration and Repair
- Cartilage tissue regeneration using injectable and sparable biomimetic hydrogels
  Milan Handl
- MACI in talus

10.00-10.30 - Coffee break
10.30-11.15 - Session 7
Treatment Talar OCD: Role of Alignment
Moderator: John Kennedy

- Did Dr. Mikulisz forget the os calcare? 
- Calcaneal Correction osteotomies: often not enough!

11.15-13.00 - Session 8
Young Guns Case Presentations and Debate

All Faculty in debate chairs on Podium including discussion per each case.

11.15 - Chris Pierce
11.30 - Grasham Mac Gullom
11.45 - Akos Kynsberg
12.00 - Giuseppe Longo
12.15 - Aimee Kok
12.30 - Christiaan van Bergen
12.45 - Tahir Ogut

13.00 - Closing remarks

13.10-14.10 - Lunch
