

EKA Closed Meeting Geneva

19 - 20 June 2015

Geneva Starling Hotel

Dear EKA Members,

We are happy to welcome you to the EKA closed meeting.

Located in the centre of Europe, Geneva is an attractive city for many reasons: the landscape is spectacular with the lake, the fountain which rises 140 metres and the surrounding mountains; the Red Cross has its seat in the city and has just reopened a very interesting museum; the Old City, on a hill, is an archaeological jewel which is witness to more than 23 centuries of history exhibited under the St. Pierre cathedral. From the tiny Old City roads to the wide lakeshore, you will find many leisure activities: shopping in the original watchmakers' boutiques, a taste of chocolate in various arcades and a wide choice of restaurants.

We have organised an engaging programme for this meeting which will focus on the subject of Infection and Patient's Assessment after Total Knee Arthroplasty. Another interesting part of the first day's programme is the multicenter study on Management of the Infected TKA. We look forward to your involvement.

During the closed meeting, a Free Paper afternoon session, covering a variety of fascinating topics, will be held on the second day.

Additionally, we plan to publish the outcome of this meeting in the KSSTA journal.

We look forward to meeting you all in Geneva!
