2018 ANNUAL MEETING GOALS

- Provide improved understanding of evidence-based methods for achieving excellence in esthetic and restorative dentistry
- Provide interdisciplinary education and advanced knowledge in esthetic, endodontic, prosthodontic, periodontic, orthodontic, and surgical aspects of patient care
- Strengthen in-depth knowledge in materials selection and ethical considerations in esthetic and restorative dentistry
- Create a welcoming environment for networking and professional interaction among participants that builds on the mission of AAED and the spirit and legacy of its founders

VERIFICATION OF PARTICIPATION FORMS

A link to the overall conference survey and session surveys will be sent at the conclusion of the meeting. You will need to indicate the sessions you attended in order to claim your CE.

ADA CERP* Continuing Education Recognition Program

The American Academy of Esthetic Dentistry is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

AAED designates this activity for 15 continuing education credits.

*American Academy of Esthetic Dentistry
To the members of the AAED community, allow me to extend you a warm welcome to the beautiful shores of Southern California, here at the Terranea Resort, as we gather for the 43rd Annual Meeting of the American Academy of Esthetic Dentistry.

Many thanks to our program chairs, Markus Blatz, DMD, and Marc Nevins, DMD, who have brought together excellent speakers from around the world to present on this meeting’s theme, “The Stars Are Aligned: Shaping the Future of Excellence in Esthetics.” You can expect presentations on the cutting-edge techniques, ideas, and research that are guiding the field of esthetic dentistry toward the future.

This year’s meeting also includes time to relax and enjoy one another’s company at our social events, receptions, and gala. As members and guests of the world’s oldest, most prestigious esthetic dental society, I hope the connections you make at this year’s meeting inspire you to continue building the AAED community and advancing our profession.

I can’t wait to begin our three days of exceptional education and great conversation here in Rancho Palos Verdes. I believe that the stars will align and we’ll have a most memorable annual meeting. Enjoy!

Jacinthe M. Paquette, DDS

2018 MEETING HIGHLIGHTS

This year is the 43rd Annual Meeting with the theme, “The Stars Are Aligned: Shaping the Future of Excellence in Esthetics.” The educational program focuses on the cutting-edge research, techniques, and materials pushing the field of esthetic dentistry toward the future.

To give our attendees time to enjoy Rancho Palos Verdes and the surrounding area, we have pre-arranged optional tours and social activities for you and your guests, including golfing, whale watching, wine tasting, ocean kayaking, and painting by the shore.

The cocktail reception and closing gala on Saturday, August 4 at 6:30pm will offer the perfect setting to bid farewell to another phenomenal meeting. This black tie optional affair will feature cocktails, dinner, and dancing.

ANNUAL MEETING COMMITTEE

The AAED expresses sincere gratitude to the entire Annual Meeting Committee for their hard work and dedication to this event over the past year.

Wine Lecture – Napa Valley: A Family Affair
**FRIDAY, AUGUST 3 | 4:00 - 5:00PM**
**LOCATION:** PALOS VERDES 45
Join vintner and sommelier Ryan Evans as he details the history of Napa Valley and how it became one of the most prestigious wine regions in the world. Napa Valley has a rich viticultural history that dates back to the mid-1800s. Many of us have heard about the world-class wines, expensive price tags, and glamorous events that are associated with Napa’s name. However, the rich familial histories of the vineyards and wineries are what made Napa Valley what it is today. Come learn about the multi-generational, boutique family wineries that have been honing their craft for decades and see how they built the foundation of the world’s most famous wine regions.

Wine Tasting

AWARDS & GRANTS

The American Academy of Esthetic Dentistry awards the AAED Charles L. Pincus/Ronald E. Goldstein Award for lifetime achievement, recognizing individuals who have contributed at the highest level to the welfare and advancement of the Academy and/or interdisciplinary care, dentistry, science, and health professions. This award is given in honor of Dr. Charles L. Pincus and Dr. Ronald E. Goldstein, AAED Co-Founders and Past Presidents.

AAED is proud to present the 2018 award to a true pioneer in the field of esthetic dentistry, Frank M. Spear, DDS, MSD. In addition to Dr. Spear’s substantial professional accomplishments, this award recognizes his exemplary service to AAED. The official presentation of this award will take place on SATURDAY, AUGUST 4 during the closing dinner.

The American Academy of Esthetic Dentistry awards the AAED Distinguished Lecturer Award to individuals whose research represents a significant contribution to the literature, teaching, or clinical applications of the Academy and/or specialty of interdisciplinary care, dentistry, science, and health professions.

The 2018 recipient of the Distinguished Lecturer Award is Robert R. Winter, DDS. Dr. Winter will be recognized for this honor following his presentation on FRIDAY, AUGUST 3.

AAED GRANT FOR RESEARCH
IN ESTHETIC DENTISTRY
Negar Homayounfar, DDS, MS
2017 Recipient

We congratulate Dr. Negar Homayounfar, Assistant Professor of Prosthodontics at the University of Maryland School of Dentistry, as the recipient of this grant for her research entitled, “Evaluation of the Effect of Burnout Residues of 3D Printing Resins on Esthetic Outcomes of Pressed All-Ceramic Restorations.” Meet Dr. Homayounfar and view her digital poster during this year’s meeting.

RESEARCH SUMMARY
Due to high demand for all-ceramic restorations, the effort to efficiently fabricate restorations with ideal esthetics is intensified. Heat pressing is one of the methods used to fabricate all-ceramic restorations. In this method, similar to casting metals, wax or resin patterns are utilized to make molds. Inappropriate selection of pattern material or burnout protocol may result in ash residues in the mold. The residues can have negative effect on optical and physical properties of final restorations. Recently, new 3D printing materials are being used in dental labs. There is no study on the effect of these materials on the esthetics of all-ceramic restorations. This study intends to evaluate the shade of the restorations fabricated with two types of 3D printing resins. Results of this study will help clinicians and lab technicians to understand if 3D printing resins are appropriate choices for ideal esthetic results.
