SESSION DETAILS & SPEAKER BIOS

Please visit estheticacademy.org/AnnualMeetingProgram

for full session descriptions and speaker bios.

The American Academy of Esthetic Dentistry is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

AAED designates this activity for 13.5 continuing education credits.

2019 ANNUAL MEETING GOALS

- **Provide improved understanding of evidence-based methods for achieving excellence in esthetic and restorative dentistry**
- **Provide interdisciplinary education and advanced knowledge in esthetic, endodontic, prosthodontic, periodontic, orthodontic and surgical aspects of patient care**
- **Strengthen in-depth knowledge in materials selection and ethical considerations in esthetic and restorative dentistry**
- **Create a welcoming environment for networking and professional interaction among participants that builds on the mission of AAED and the spirit and legacy of its founders**

AMERICAN ACADEMY OF ESTHETIC DENTISTRY MISSION

To promote the integration of dental esthetics into the total spectrum of oral health care and provide a leadership role for the profession by defining the highest interdisciplinary clinical, scientific, artistic and ethical standards through research, publications and educational presentations.

PRESIDENT'S WELCOME

PRESIDENT

JOEL BERG, DDS, MS

Welcome to beautiful Banff, Alberta, Canada, as we gather for the 44th Annual Meeting of the American Academy of Esthetic Dentistry. We will enjoy three days of exceptional education as we share ideas, techniques and experiences with one another.

This year's theme, "Disruptive Dentistry › The Challenges Opportunities Ahead" provides us with the opportunity to hear presentations from teams of esthetic dentists from around the world. We have many world-class speakers delivering insightful solo talks on topics related to the opportunities that are forthcoming in the field of dentistry. You can expect presentations on the cutting-edge techniques, ideas and research that are guiding the field of esthetic dentistry toward the future.

I am especially excited to spend these next few days networking and discussing our field at the many social events planned. As members and guests of the world's oldest, most prestigious esthetic dental society, I hope that the connections you make during a reception or a hike along the Canadian Rockies will inspire you to continue building the AAED community and advancing our profession.

Finally, I want to thank you for your continued support and dedication to the future of esthetic dentistry. Our conference location, speaker lineup, program format and social activities promise nothing short of another outstanding annual meeting.

Enjoy!

JOEL BERG, DDS, MS

2019 MEETING HIGHLIGHTS

- President Joel Berg, DDS, MS, will kick off the 44th Annual Meeting with the President's Welcoming Reception on Thursday, August 8 from 7:00 - 9:30 pm. Bring your entire family as we toast to another excellent meeting, focusing on Disruptive Dentistry: The Challenges Opportunities Ahead.
- To give our attendees time to enjoy Banff and the surrounding area, we have pre-arranged optional tours and social activities for you and your guests, including horseback riding, whiskey tasting, a float tour on Bow River and a hike through Johnston Canyon.
- The closing reception and gala on Saturday, August 10 at 6:30 pm will offer the perfect setting to bid farewell to another phenomenal meeting. This black-tie optional affair will feature cocktails, dinner and dancing.

ANNUAL MEETING COMMITTEE

The AAED expresses sincere gratitude to the entire Annual Meeting Committee for their hard work and dedication to this event over the past year.

AWARDS & GRANTS

CHARLES L. PINCUS/RONALD E. GOLDSTEIN AWARD

DENNIS P. TARNOW, DDS

2019 RECIPIENT

The American Academy of Esthetic Dentistry awards the AAED Charles L. Pincus/Ronald E. Goldstein Award for lifetime achievement, recognizing individuals who have contributed at the highest level to the welfare and advancement of the Academy and/or interdisciplinary care, dentistry, science and health professions. This award is given in honor of Dr. Charles L. Pincus and Dr. Ronald E. Goldstein, AAED Co-Founders and Past Presidents.

AAED is proud to present the 2019 award to a true pioneer in the field of esthetic dentistry, Dennis P. Tarnow, DDS. In addition to Dr. Tarnow's substantial professional accomplishments, this award recognizes his exemplary service to AAED. The official presentation of this award will take place on Saturday, August 10 during the closing dinner.

AAED 2018 RESEARCH GRANT

AHMED ALAMRI, BDS, MSD

PHD CANDIDATE AT THE UNIVERSITY OF TORONTO

The use of chairside generated crowns produced entirely by computer-aided design (CAD) and computer-aided manufacturing (CAM) technologies has increased significantly over the past 10 years. Lithium-disilicate glass-ceramic (LDGC) CAD-CAM (IPS e.max CAD, Ivoclar Vivadent) crowns milled chairside have been shown to perform well clinically with high rates of survival. Although there are some published studies describing the clinical performance of LDGC CAD-CAM crown restorations provided by experienced dentists and/or specialists, there are no reports focused on the delivery of these types of restorations by novice operators (i.e. students) or how successful these restorations are when delivered by novice clinicians. Therefore, the purposes of this retrospective clinical study were:

1. To assess the clinical performance of monolithic chairside posterior LDGC CAD-CAM crowns performed by predoctoral students.
2. To evaluate the effects of patient's gender, age, periodontal condition, location of tooth in the mouth (maxilla vs. mandible and premolar vs. molar), pulp condition (vital vs. non-vital), type of cement used, nature of opposing dentition on clinical performance of LDGC CAD-CAM crowns provided by predoctoral students.
