The Fairfax County Courthouse is continuing to add more high-tech courtrooms! Courtrooms are even being converted from the old analog systems to digital. We have updated this course to demonstrate our new wireless technology, including the ability to transmit screens from mobile devices. If you'd like to use technology in the courts, come and learn from some of the FBA's best experts in this popular ongoing CLE. Our faculty will give you an hour of technical information and demonstrations and then attendees will have an hour to work with the technology themselves.

Attendees should bring, at a minimum, their own laptops and power cords/adapters. It is suggested that you bring your own mock evidence - flash drives, DVDs, X-rays, maps, digital cameras, mobile devices, etc. so you can derive the maximum advantage from this CLE.
