**Re: FIRE Weekly Legislative Report – Week Ending 01/19/2018**

[2018 Legislative Schedule](#)

### Legislative Update

On Wednesday, 01/17/2018, we attended a hearing of the Senate Environmental Quality and Budget & Fiscal Review Committees on the California Air Resources Board's Scoping Plan for the California Cap-and-Trade Program. The impact of wildfires on greenhouse gas emissions was discussed. We are now waiting for the release of Governor Brown's Cap-and-Trade Expenditure Plan, which is expected to occur next week.

#### *Two bills introduced last year had developments this week:*

[Assembly Bill 5 \(Gonzalez-Fletcher\)](#) would have required an employer with 10 or more employees to offer additional hours of work to an existing part-time employee before hiring an additional employee or subcontractor. AB 5 was held in the Assembly Appropriations Committee.

[Senate Bill 532 \(Dodd\)](#) would add cyberterrorism to the definition of those conditions constituting a state of emergency and a local emergency. The bill moved to the Senate Floor this week.

#### *The following bills of interest have been introduced:*

[Assembly Bill 1747 \(Rodriguez\)](#) would require schoolsite councils to consult with first responder entities in developing school safety plans. Additionally, the bill would require tactical responses to criminal incidents to include procedures related to individuals carrying guns on school campuses.

[Assembly Bill 1776](#) (**Steinorth**) would authorize an EMT to transport a police dog injured in the line of duty for emergency veterinary services. EMTs would be exempt from civil liability unless they exercised gross negligence or bad faith.

[Assembly Bill 1795](#) (**Gipson**) would authorize a local emergency medical services to transport patients to a community care facility in lieu of transportation to an acute care hospital.

[Assembly Bill 1877](#) (**Limón**) would require OES to translate any emergency communication into a language other than English that is spoken by a majority of the public in the impacted area.

[Senate Bill 821](#) (**Jackson**) would specify that OES may assist county jurisdictions in developing effective emergency warning systems.

[Senate Bill 831](#) (**Wieckowski**) would delete the requirement that an area be zoned to allow single family or multi-family use from a local agency ordinance authorizing accessory dwelling units.

[Senate Bill 833](#) (**McGuire**) would require a local governmental agency or state agency that uses the federal Wireless Emergency Alert (WEA) system to alert a specified area of an evacuation order by use the term “red alert” and to notify OES of the alert.

[Senate Bill 896](#) (**McGuire**) would extend the aggravated arson offense until January 1, 2024, and would increase the threshold of property damage constituting an aggravated arson to \$7,300,000.

[Senate Bill 901](#) (**Dodd**) would require a wildfire mitigation plan prepared by utility companies to include policies and procedures when it may be necessary to de-energize its electrical lines. The policies and procedures would be required to expressly include relevant meteorological conditions, maps of fire hazard zones and high fire risk areas, vegetation conditions near electrical lines, and communication protocols for notifying customers who may be impacted by the de-energizing of electrical lines.

**Summary:** Current provides that under an open policy that requires payment of actual cash value, the measure of the actual cash value recovery, in whole or partial settlement of the claim, is, in the case of a total loss to the structure, the policy limit or the fair market value of the structure, whichever is less, and, in the case of a partial loss to the structure or loss to its contents, the amount it would cost the insured to repair, rebuild, or replace the thing lost or injured less a fair and reasonable deduction for physical depreciation based upon its condition at the time of the injury or the policy limit, whichever is less. This bill would delete the provisions regarding the actual cash value of the claim of total loss to the structure and would instead require that the actual cash value of the claim, for either a total or partial loss to the structure or its contents, be the amount it would cost the insured to repair, rebuild, or replace the thing lost or injured less a fair and reasonable deduction for physical depreciation based upon its condition at the time of the injury or the policy limit, whichever is less.

**Summary:** The Public Utilities Commission has regulatory authority over public utilities, including electrical corporations and gas corporations. Current law authorizes the commission to establish rules for all public utilities, subject to control by the Legislature. Current law authorizes the commission to fix the rates and charges for every public utility and requires that those rates and charges be just and reasonable. Current law prohibits a gas corporation from recovering any fine or penalty in any rate approved by the commission. This bill would prohibit an electrical corporation from recovering a fine or penalty through a rate approved by the commission.

**Summary:** Current law requires an insurer to comply with certain procedures relating to the cancellation of insurance policies, except as specified, in the case of a total loss to the primary insured structure under a residential policy. Among other requirements, an insurer may not cancel coverage while the primary insured structure is being rebuilt, as specified, nor use the fact that the primary insured structure is in damaged condition as a result of the total loss as the sole basis for a decision to cancel the policy, and must offer, at least once, to renew the policy, as specified, if the total loss to the primary insured structure was caused by a disaster. This bill would express the intent of the Legislature to clarify that the provision described above is applicable to all insured properties located within a county for which a state of emergency has been declared, as specified.

**Summary:** The Planning and Zoning Law authorizes a local agency to provide by ordinance for the creation of accessory dwelling units in single-family and multifamily residential zones and sets forth standards the ordinance is required to impose, including, among others, maximum unit size, parking, and height standards. Current law authorizes a local agency, special district, or water corporation to require a new or separate utility connection between the accessory dwelling unit and the utility and authorizes a fee to be charged, except as specified. Current law requires a local agency to submit an ordinance adopted for the creation of accessory dwelling units to the Department of Housing and Community Development and authorizes the department to review and comment on the ordinance. Current law, commencing January 1, 2019, deletes the aggravating factor of property damage and other losses in excess of \$7,000,000 from the definition of aggravated arson. **Summary:** Current law requires the State Board of Forestry and Fire Protection to establish a fire prevention fee in an amount not to exceed \$150 to be charged on each habitable structure on a parcel that is within a state responsibility area. Current law requires the fee moneys to be expended, upon appropriation, in specified ways. Current law requires a person who owns, leases, controls, operates, or maintains a building or structure in, upon, or adjoining a land with various types of flammable material, including forest-covered lands, to maintain defensible space of 100 feet, as provided. This bill would authorize the fee money to be expended to provide loans or grants to a person who is at or below 500% of the federal poverty level for purposes of complying with the above law.

**Summary:** Current law establishes the State Responsibility Area Fire Prevention Fund and prohibits the collection of fire prevention fees if there are sufficient amounts of moneys in the fund to finance specified fire prevention activities for a fiscal year. Current law requires that the fire prevention fees collected, except as provided, be deposited into the fund and be made available to the board and the Department of Forestry and Fire Protection for certain fire prevention activities that benefit the owners of structures in state responsibility areas who are required to pay the fee. Current law further requires the board to submit an annual written report to the Legislature on specified topics. This bill would repeal the above provisions.

**Summary:** Current law establishes as the goal of the CASF program to approve funding, no later than December 31, 2015, for infrastructure projects that will provide broadband access to no less than 98% of California households. Decisions of the commission, including Decision 14-12-039, establish procedures for a party to apply for a grant or loan to finance an infrastructure project that furthers that goal, for a party to challenge that application, and for the commission to select an application through the issuance of a draft resolution for public comment and a subsequent final resolution. This bill would revise the goal of the CASF program to approve funding, no later than December 31, 2020, for infrastructure projects that will provide broadband access to no less than 98% of the number of California households in existence on January 1, 2016.

**Summary:** Under current law, the Public Utilities Commission has regulatory authority over public utilities, including telephone corporations. Current law requires the commission to require all telephone corporations that are local exchange carriers to include information in their telephone directories and to annually provide information to all subscribers, in the form of a billing insert, concerning emergency situations that may affect the telephone network. This bill would make nonsubstantive revisions to these requirements.

**Summary:** Current law requires the Public Utilities Commission to develop, implement, and administer a program to advance universal service by providing discounted rates to qualifying schools, community colleges, libraries, hospitals, health clinics, and community organizations. This bill would, beginning January 1, 2021, require entities that receive discounted rates for broadband services pursuant to the program to provide those services at a speed sufficient to support the delivery of high-speed

broadband service.

**Summary:** Current federal law recognizes the authority of a state or local government to manage public rights-of-way or to require fair and reasonable compensation from telecommunications providers, on a competitively neutral and nondiscriminatory basis, for the use of public rights-of-way on a nondiscriminatory basis, if the compensation required is publicly disclosed by that government. Current federal law provides that no state or local government has the authority to regulate the entry of, or the rates charged by, a commercial mobile service, but permits a state to regulate the other terms and conditions of commercial mobile services. This bill would provide that a small cell, as defined, is a permitted use, subject only to a specified permitting process adopted by a city or county, if the small cell meets specified requirements.
