Re: FIRE Legislative Report – Week Ending February 7, 2020

Legislative Update

After last week's deadline for moving bills introduced in 2019 to the opposite house, the Legislature had minimal committee hearings this week. However, several bills of interest were dropped into the process during the week:

[Assembly Bill 1855 \(Frazier\)](#) would require by July 1, 2022 that the Department of Social Services, Technology and OES develop an online emergency database to include an emergency disaster technology tool to be accessible for emergency response personnel to employ in assisting residential care facilities for the elderly during disaster conditions.

[Assembly Bill 2044 \(Voepel\)](#) would require the Energy Commission to propose to the California Building Standards Commission to adopt building standards appropriate to accessory dwelling units.

[Assembly Bill 2054 \(Kamlager\)](#) would establish a "Community Response Initiative to Strengthen Emergency Systems Act" (Crisis Act) to provide a grant program for CAL OES to make grants to community organizations operating to expand emergency response services to vulnerable populations.

[Assembly Bill 2064 \(Patterson\)](#) would require CAL OES to include proposed best practices for local governments and nongovernment entities to evacuate people who have functional needs during a disaster when they update their State Emergency Plan.

[Assembly Bill 2068 \(Petrie-Norris\)](#) would provide a new tax check-off for taxpayers to designate voluntary contributions for the California Firefighters Memorial Fund and the California Peace Officers Memorial Fund.

[Assembly Bill 2076 \(Bigelow\)](#) would require the Director of Parks and Recreation to develop a wildfire management plan for all their property located within a high or very high fire hazard severity zone.

[Assembly Bill 2092 \(Rodriguez\)](#) would require private ambulance providers to provide employees with protective gear, safety equipment and training regarding its use in responding to an emergency call.

[Senate Bill 909 \(Dodd\)](#) would authorize an emergency vehicle to be equipped with a “hi-lo” audible warning sound to be used for the purpose of notifying the public of an immediate need to evacuate.

Summary: Current law authorizes a member of PERS, who is credited with less than a certain number of years of service and who enters employment as a member of another public retirement system supported by state funds, within 6 months of leaving state service, to elect to leave their accumulated contributions on deposit in the retirement fund. Current law specifies that a member's failure to make an election to withdraw accumulated contributions is deemed an election to leave the member's accumulated contributions on deposit in the retirement fund. Current law provides that a member may revoke their election to allow accumulated contributions to remain in the retirement system, except under specified circumstances. Current law requires a member who is permanently separated from all PERS covered service, who meets specified conditions, and who attains 70 years of age, to be provided with an election to withdraw contributions, or, if vested, an election to either apply for service retirement or to withdraw contributions. This bill would instead require a member permanently separated under the circumstances described above to attain 71 1/2 years of age before being provided with those election options. This bill would also correct an obsolete cross reference.

Summary: Current law establishes a workers' compensation system, administered by the Administrative Director of the Division of Workers' Compensation, to compensate an employee for injuries sustained in the course of employment. Current law requires the administrative director to contract with an outside, independent research organization on or after March 1, 2019, to evaluate the impact of the provision of medical treatment within the first 30 days after a claim is filed, for a claim filed on or after January 1, 2017, and before January 1, 2019. Current law requires the report to be provided to the administrative director, the Senate Committee on Labor and Industrial Relations, and the Assembly Committee on Insurance before January 1, 2020. This bill, instead, would require the evaluation to cover a claim filed on or after January 1, 2017, and before January 1, 2021, and would require the report to be submitted to the administrative director and those legislative committees before January 1, 2022.

Summary: The Ralph M. Brown Act requires meetings of the legislative body of a local agency to be open and public and also requires regular and special meetings of the legislative body to be held within the boundaries of the territory over which the local agency exercises jurisdiction, with specified exceptions. Current law authorizes a person to request that a copy of an agenda, or a copy of all the documents constituting the agenda packet, of any meeting of a legislative body be mailed to that person. This bill would require a legislative body to email a copy of the agenda or a copy of all the documents constituting the agenda packet if so requested. By requiring local agencies to comply with these provisions, this bill would impose a state-mandated local program.

Summary: Current law establishes a program within all cities and all counties and portions thereof located within seismic zone 4, as defined, to identify all potentially hazardous buildings and to establish a mitigation program for these buildings. The mitigation program may include, among other things, the adoption by ordinance of a hazardous buildings program, measures to strengthen buildings, and the application of structural standards necessary to provide for life safety above current code requirements. Current law requires the Alfred E. Alquist Seismic Safety Commission to report annually to the Legislature on the filing of mitigation programs relating to building construction standards from local jurisdictions. This bill would require the commission, by specified deadlines, to identify funding and develop a bidding process for hiring a third-party contractor to create an inventory of potentially vulnerable buildings, as defined.

Summary: Current law, until January 1, 2026, authorizes a development proponent to submit an application for a multifamily housing development, which satisfies specified objective planning standards, that is subject to a streamlined, ministerial approval process, as provided, and not subject to a conditional use permit. Current law requires a local government to notify the development proponent in writing if the local government determines that the development conflicts with any of those objective standards by a specified time; otherwise, the development is deemed to comply with those standards. Current law provides that if a local government approves a project pursuant to that process, that approval will not expire until a specified period of time depending on the nature of the development. This bill would, notwithstanding those provisions, authorize a development proponent to submit an application for a development to be subject to a streamlined, ministerial approval process provided that development meet specified objective planning standards, including that the

Summary: The California FAIR Plan Association is a joint reinsurance association formed by state insurers licensed to write and engaged in writing basic property insurance within this state to assist persons in securing basic property insurance and to formulate and administer a program and FAIR Plan for the equitable apportionment among insurers of basic property insurance. Existing law requires each insurer to participate in the writings, expenses, and profits and losses of the association in the proportion that its premiums written bear to the aggregate premiums written by all insurers in the program, as specified, but requires the plan to provide for a method for insurers who voluntarily write basic property insurance on risks located in areas designated as brush hazard areas to be proportionately relieved of the liability to participate in the plan. This bill would add to the insurers that are proportionately relieved of the liability to participate in the FAIR Plan those voluntarily writing basic property insurance on risks in high or very high fire hazard severity zones, as determined and mapped by the Department of Forestry and Fire Protection.

This bill would instead require an urban water supplier, as defined, to review and revise its emergency response plan as required by federal law. The bill would require the Office of Emergency Services to establish emergency response and recovery plans in coordination with urban water suppliers. Because the bill would require local agencies to perform additional duties, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

Summary: Current law requires the Department of Transportation and the Bay Area Toll Authority to establish the Toll Bridge Program Oversight Committee, as provided, to review and provide program direction for seismic retrofit and replacement projects on toll bridges within the geographic jurisdiction

of the committee. This bill, except as specified, would similarly require a state agency undertaking a publicly funded major infrastructure construction project that is estimated to cost \$1,000,000,000 or more to form an oversight committee, as provided, to develop and use risk management plans throughout the course of the project, and to take specified actions relating to managing risks. The bill would require the oversight committee to act as the authority for critical decisions regarding the implementation of the project's risk management plan and to have sufficient staff to support decisionmaking.

Summary: The California Constitution prohibits the ad valorem tax rate on real property from exceeding 1% of the full cash value of the property, subject to certain exceptions. This measure would create an additional exception to the 1% limit that would authorize a city, county, city and county, or special district to levy an ad valorem tax to service bonded indebtedness incurred to fund the construction, reconstruction, rehabilitation, or replacement of public infrastructure, affordable housing, or permanent supportive housing, or the acquisition or lease of real property for those purposes, if the proposition proposing that tax is approved by 55% of the voters of the city, county, or city and county, as applicable, and the proposition includes specified accountability requirements.

1st House				2nd House								

Summary: The Sales and Use Tax Law designates that certain sellers of tangible personal property are consumers, and not retailers, of the tangible personal property they sell, including, until January 1, 2021, that an all volunteer fire department, as defined, is a consumer, and not a retailer, of all tangible personal property sold by it, if the profits are used solely and exclusively in furtherance of the purposes of the all volunteer fire department, subject to specified limitations, so that the retail sale subject to tax is the sale of tangible personal property to the all volunteer fire department. This bill would remove the repeal date of January 1, 2021, thereby extending the operation of that consumer designation for all volunteer fire departments indefinitely.

Summary: Current law requires every peace officer to participate in expanded training prescribed by the Commission on Peace Officer Standards and Training that includes and examines evidence-based patterns, practices, and protocols that make up racial and identity profiling, including implicit bias. Once basic training is completed, current law requires specified peace officers to complete a refresher course on racial and identity profiling at least every 5 years. This bill would require those peace officers currently required to take the refresher course every 5 years, and additional peace officers, as specified, to instead take refresher training on racial and identity profiling, including the understanding of implicit bias and the promotion of bias-reducing strategies, at least every 2 years.

Summary: Current law provides a separate formula for the allocation of apportionments of state funds to community colleges, which uses the numbers of full-time equivalent students as its basis, for use for apportionments for noncredit instruction and instruction in career development and college

preparation. This bill would provide that instruction by community college districts under instructional service agreements with public safety agencies, as defined, would be funded under the apportionment formula used for instruction in career development and college preparation. The bill would also make various nonsubstantive changes.
