Re: FIRE Legislative Report – Week Ending June 21, 2019

Governor's Strike Force

In April, the Governor's Strike Force was charged with examining California's catastrophic wildfires and five key areas were identified:

- Catastrophic Wildfire Prevention and Response
- Mitigating Climate Change through Clean Energy Policies
- Fair Allocation of Catastrophic Wildfire Damages
- A More Effective California Public Utilities Commission with the Tools to Manage a Changing Utility Market
- Holding PG&E Accountable and Building a Utility that Prioritizes Safety

Today the Governor released the progress report on all of these areas and provides guidance on how the state can build a safe, reliable and affordable energy future. Full progress report can be found [here](#).

State Budget Trailer Bill Update

I am very happy to report that [Assembly Bill 96](#), the SETNA measure to restructure 9-1-1 fees consistent with modern technology and consumer phone usage thereby sustaining the existing 9-1-1 system and implementing Next Generation 9-1-1 passed both Houses of the Legislature this week. AB 96 passed the Assembly by a 56 to 14 vote and the amendments were concurred in on the Senate Floor by a 29 to 10 vote on Thursday. The bill moves on to the Governor where a signature is expected soon. Sincere appreciation for all of you who have worked on this project over the years. The defeat by 1 vote on the last night of the Legislative Session in 2018 has now been extinguished and Cal OES can now construct a state-of-the-art system for the future.

Legislative Update

[Assembly Bill 69 \(Ting\)](#) would require the Department of Housing and Community Development to submit proposed small building home standards to the California Building Standards Commission for accessory dwelling units. The amendments removed any limitation on impact fees in the bill. As amended, AB 69 passed the Senate Housing Committee. *FIRE POSITION: OPPOSE.*

[Assembly Bill 338 \(Chu\)](#) would require all used mobile homes that are sold or rented to have a smoke detector and would require park owners to post emergency procedures for residents. The bill passed the Senate Housing Committee and moves to the Senate Appropriations Committee. *FIRE POSITION: SUPPORT.*

[Assembly Bill 720 \(Muratsuchi\)](#) would maintain funding of community college courses offered through an instructional service agreement with public safety agencies. The bill passed the Senate Education Committee and has been referred to the Senate Appropriations Committee. *FIRE POSITION: SUPPORT.*

[Senate Bill 13 \(Wieckowski\)](#) updates the Accessory Dwelling Unit law and does restrict impact fees by reducing them to 25% for ADUs greater than 750 square feet and eliminating those fees for units less than 750 square feet. The bill passed the Assembly Housing and Community Redevelopment Committee and will now be heard by the Assembly Local Government Committee. All the substantial opposition from local government organizations will continue. *FIRE POSITION: OPPOSE.*

[Senate Bill 292 \(Rubio\)](#) has been gutted and amended to create a Prepared California Disaster Mitigation Fund to be funded by assessment fees on homeowner, auto and commercial insurance policies. The bill has been double referred to the Assembly Insurance and Governmental Organization Committees. *FIRE POSITION: PENDING.*

[Senate Bill 670 \(McGuire\)](#) would require telecommunications service providers to submit an expedited outage notification to Cal OES whenever a community outage occurs that limits the availability for the public to make 9-1-1 calls or receive emergency notifications.

Summary: The Davis-Stirling Common Interest Development Act, governs the management and operation of common interest developments. Current law prohibits the governing document of a

common interest development from prohibiting the rental or leasing of any separate interest in the common interest development, unless that governing document was effective prior to the date the owner acquired title to their separate interest. This bill would make void and unenforceable any covenant, restriction, or condition contained in any deed, contract, security instrument, or other instrument affecting the transfer or sale of any interest in a planned development, and any provision of a governing document, that effectively prohibits or unreasonably restricts the construction or use of an accessory dwelling unit or junior accessory dwelling unit on a lot zoned for single-family residential use that meets the above-described minimum standards established for those units.

Summary: The Planning and Zoning Law provides for the creation of accessory dwelling units by local ordinance, or, if a local agency has not adopted an ordinance, by ministerial approval, in accordance with specified standards and conditions. Current law requires the ordinance to designate areas where accessory dwelling units may be permitted and authorizes the designated areas to be based on criteria that includes, but is not limited to, the adequacy of water and sewer services and the impact of accessory dwelling units on traffic flow and public safety. This bill would instead require a local agency to designate these areas based on the adequacy of water and sewer services and the impact of accessory dwelling units on traffic flow and public safety.

Summary: Current law, until January 1, 2022, upon a declaration of a shelter crisis by the City of San Jose, authorizes emergency housing to include an emergency bridge housing community for the homeless, as specified. Existing law, in lieu of compliance with state and local building, housing, health, habitability, or safety standards and laws, authorizes the city to adopt by ordinance reasonable local standards for emergency bridge housing communities, subject to specified requirements, including review by the Department of Housing and Community Development. This bill would extend the repeal date of these provisions to January 1, 2025. The bill would extend the date that an affordable housing unit identified in the city's housing plan is required to be available for a resident of an emergency bridge housing community to live in to January 1, 2025.

Summary: Current law prohibits a provider of mobile telephony services, as defined, or any affiliate or agent of the provider, when providing the name and dialing number of a subscriber for inclusion in a directory or directory database, from including the dialing number of any subscriber without first obtaining the express consent of that subscriber. However, current law authorizes providing those telephone numbers without regard to consent to a law enforcement agency, fire protection agency, public health agency, public environmental health agency, city or county emergency services planning agency, or private for-profit agency operating under contract with, and at the direction of, one or more of these agencies, for the sole purpose of responding to a 911 call or communicating an imminent threat to life or property. Summary: The Warren-911-Emergency Assistance Act provides that each local public agency within its respective jurisdiction establish a basic system that automatically connects a person dialing 911 to an established public safety answering point through normal telephone service facilities, or to be part of such a system. The act requires the Office of Emergency Services to develop a plan and timeline of target dates for the testing, implementation and operation of a Next Generation 911 emergency coordination system, that includes a text to 911 service, throughout California. This bill would require each public safety answering point to deploy a text to 911 service, no later than January 1, 2021, that is capable of accepting Short Message Service messages and Real-Time Text messages.

Summary: Current law authorizes the Public Utilities Commission, in a proceeding on an application by an electrical corporation to recover costs and expenses arising from a catastrophic wildfire occurring on or after January 1, 2019, to allow cost recovery if the costs and expenses are just and reasonable, after consideration of the conduct of the utility. In evaluating the reasonableness of the costs and expenses, the commission is required to consider the conduct of the electrical corporation and relevant information submitted into the commission record, including in 12 specified areas. Notwithstanding the commission's determination of whether the costs and expenses are just and reasonable as described above, when determining recovery by an electrical corporation for costs and expenses arising from a catastrophic wildfire occurring on or after January 1, 2019, this bill would authorize the commission to consider the electrical corporation's financial status and determine the maximum amount the corporation can pay without harming ratepayers or materially impacting the electrical corporation's ability to provide adequate and safe service.

Summary: Current law requires the State Department of Health Care Services to develop a modified supplemental reimbursement program, with necessary federal approvals, that would seek to increase the reimbursement to a provider of ground emergency medical transportation services provider that is owned or operated by the state, a city, county, city and county, fire protection district, special district, community services district, health care district, or a federally recognized Indian tribe. Current law requires the nonfederal share of any supplemental reimbursement provided under the modified program to be derived from voluntary intergovernmental transfers of local funds. Current law states the Legislature's intent in enacting these provisions to provide the supplemental reimbursement without any expenditure from the General Fund. This bill would delete the provisions relating to the modified supplemental reimbursement program, and would repeal these provisions on July 1, 2021.

Summary: Current law requires the State Board of Forestry and Fire Protection, on or before July 1, 2022, to develop criteria for and maintain a "Fire Risk Reduction Community" list of local agencies located in a state responsibility area or a very high fire hazard severity zone that meet best practices for local fire planning. Current law requires the state board to consider certain things when developing the criteria for the list, including recently developed or updated community wildfire protection plans. This bill would also require the state board, when considering developing criteria for the list, to consider compliance with the state board's regulations, including minimum fire safety standards.

Summary: Current law requires each electrical corporation to annually prepare and submit a wildfire mitigation plan to the commission for review and approval. Current law requires those wildfire mitigation plans to include specified information, including protocols for disabling reclosers and deenergizing portions of the electrical distribution system that consider the associated impacts on public safety, as well as protocols related to mitigating the public safety impacts of those protocols, including impacts on critical first responders and on health and communication infrastructure. This bill would require each electrical corporation, as part of those protocols, to additionally include protocols related to mitigating the public safety impacts of disabling reclosers and deenergizing portions of the electrical distribution system that consider the impacts on customers who are receiving medical baseline allowances.

Summary: The Elder California Pipeline Safety Act of 1981 requires the State Fire Marshal to administer provisions regulating the inspection of intrastate pipelines that transport hazardous liquids. The act requires a pipeline operator to make available to the State Fire Marshal, or any officers or employees authorized by the State Fire Marshal, upon presentation of appropriate credentials, any records, maps, or written procedures that are required by the act to be kept by the pipeline operator and which concern accident reporting, design, construction, testing, or operation and maintenance.

This bill would revise and recast specified provisions and would authorize the State Fire Marshal, for purposes of carrying out the requirements of state or federal law relating to hazardous liquid pipeline safety, to require the owner or operator of a pipeline to establish and maintain records, make reports, and provide any information that the State Fire Marshal reasonably requires, as provided.

Summary: Current law prohibits an employer from discharging or in any manner discriminating or retaliating against an employee who is a victim of domestic violence, sexual assault, or stalking for

taking time off work to obtain specified relief or because of the employee's status as a victim of domestic violence, sexual assault, or stalking, if the victim provides notice to the employer of the status or the employer has actual knowledge of the status. Current law authorizes an employee to file a complaint with the Division of Labor Standards Enforcement for a violation of these prohibitions within one year from the date of occurrence of the violation. Current law makes it a misdemeanor for an employer to refuse to rehire, promote, or restore an employee who has been determined to be so eligible by a grievance procedure or legal hearing. Summary: Current law prohibits an employer from discharging or discriminating or retaliating against, an employee who is a victim of domestic violence, sexual assault, or stalking because of the employee's status as a victim, if the employer has notice or knowledge of that status. Current law additionally prohibits an employer with 25 or more employees from discharging, or discriminating or retaliating against, an employee who is a victim, in this regard, who takes time off to obtain specified services or counseling. This bill would extend these employment protections to victims of sexual harassment, as defined. The bill would also extend these employment protections to specified family members, as defined, of the victims for taking time off from work to provide assistance to the victims when seeking relief or obtaining those services and counseling, as specified.

Summary: Would require, for purposes of determining permanent incapacity of certain members employed as peace officers in the County of Sacramento, that those members be evaluated by the retirement system to determine if they can perform all of the usual and customary duties of a peace officer, as specified. The bill would apply to members who file applications for disability on or after the effective date of the act, except for cases on appeal at that time. The bill would require the board of retirement to develop a method of tracking the costs of providing permanent disability retirement to the members who become eligible for disability retirement pursuant to the bill's provisions. The bill would repeal these provisions on December 31, 2024.

Summary: Current law grants workers' compensation benefits to a firefighter, or the firefighter's dependents, if the firefighter is injured, dies, or is disabled by proceeding to or engaging in a fire-suppression or rescue operation, or the protection of life or property, anywhere in California, but is not acting under the immediate supervision of the employer. Summary: Current law requires, when payment of compensation has been unreasonably delayed or refused, either prior to or subsequent to the issuance of an award, the amount of the payment unreasonably delayed or refused to be increased up to 25% or up to \$10,000, whichever is less, except for unreasonable delay in the provision of medical treatment for periods of time necessary to complete the utilization review process. Current law provides that a determination by the appeals board or a final determination of the administrative director pursuant to independent medical review that medical treatment is appropriate is not conclusive evidence that medical treatment was unreasonably delayed or denied for purposes of imposing those penalties. This bill would exclude a

final determination of the administrative director pursuant to independent medical review from the latter provision regarding conclusive evidence that medical treatment was unreasonably delayed or denied.

Summary: Current law provides that in the case of active firefighting members of certain fire

departments, a compensable injury includes cancer that develops or manifests while the firefighter member is in the service of the public agency and exposed to a known carcinogen, as defined. Current law establishes a presumption that the cancer in these cases arose out of, and in the course of, employment, unless the presumption is controverted by evidence that the primary site of the cancer has been established and that the carcinogen to which the member has demonstrated exposure is not reasonably linked to the disabling cancer. This bill would enact a similar law that would be applicable to other employees of a city, county, city and county, district, or other municipal corporation or political subdivision whose job duties cause them to be regularly exposed to active fires or health hazards directly resulting from firefighting operations.

Summary: Current law defines "serious injury or illness" and "serious exposure" for purposes of reporting serious occupational injury or illness to the Division of Occupational Safety and Health and for purposes of establishing the division's duty to investigate employment accidents and exposures. This bill would recast the definition of "serious injury or illness" by removing the 24-hour minimum time requirement for qualifying hospitalizations, excluding those for medical observation or diagnostic testing, and explicitly including the loss of an eye as a qualifying injury. The bill would delete loss of a body member from the definition of serious injury and would, instead, include amputation.

The bill would also apply these procedures retroactively to determinations made on or after January 1, 2017, if an appeal has been filed and the employee member, survivor, or beneficiary has not exhausted their administrative or legal remedies. Summary: Current law provides that the measure of indemnity in fire insurance under an open policy is the expense to replace the thing lost or injured in its condition at the time of the injury, with the expense computed as of the start of the fire. Current law also provides that under an open policy that requires payment of actual cash value, the measure of the actual cash value recovery is the policy limit or the fair market value of the structure, whichever is less, in the case of a total loss to the structure. In the case of a partial loss to the structure or loss to its contents, the actual cash value recovery under existing law is the amount it would cost the insured to repair, rebuild, or replace the thing lost or injured less a fair and reasonable deduction for physical depreciation based upon its condition at the time of the injury or the policy limit, whichever is less. This bill would delete the provisions regarding the actual cash value of the claim of total loss to the structure and would instead require that the actual cash value of the claim, for either a total or partial loss to the structure or its contents, be the amount it would cost the insured to repair, rebuild, or replace the thing lost or injured less a fair and reasonable deduction for physical depreciation based upon its condition at the time of the injury or the policy limit, whichever is less.

Summary: The California Constitution authorizes the Legislature, with the approval of 2/3 of the membership of each legislative house, to allow a county board of supervisors to exempt from property taxation those properties having a full value too low to justify the costs of assessment and collection. Current property tax law implementing this authority generally limits any exemption granted under this constitutional provision by a county board of supervisors to real property with a total base year value, or personal property with a full value, not exceeding \$10,000. Current property tax law increases this limit to \$50,000 in the case of a possessory interest, for a temporary and transitory use, in a publicly owned fairground, fairground facility, convention facility, or cultural facility. This bill, for lien dates occurring on or after January 1, 2020, and before January 1, 2025, would delete this requirement that the possessory interest be for a temporary and transitory use of a publicly owned fairground, fairground facility, convention facility, or cultural facility, thereby allowing the exemption from taxation under these provisions of any possessory interest valued at \$50,000 or less.

Summary: Would, upon the next revision of a local hazard mitigation plan on or after January 1, 2020, or beginning on or before January 1, 2021, if a local jurisdiction has not adopted a local hazard mitigation plan, require the safety element to be reviewed and updated as necessary to identify evacuation routes and their capacity, safety, and viability under a range of emergency scenarios. The bill would authorize a city or county that has adopted a local hazard mitigation plan, emergency operations plan, or other document that fulfills commensurate goals and objectives to use that information in the safety element to comply with this requirement by summarizing and incorporating by reference that other plan or document in the safety element.

Summary: The California Constitution prohibits the ad valorem tax rate on real property from exceeding 1% of the full cash value of the property, subject to certain exceptions. This measure would create an additional exception to the 1% limit that would authorize a city, county, city and county, or special district to levy an ad valorem tax to service bonded indebtedness incurred to fund the construction, reconstruction, rehabilitation, or replacement of public infrastructure, affordable housing, or permanent supportive housing, or the acquisition or lease of real property for those purposes, if the proposition proposing that tax is approved by 55% of the voters of the city, county, or city and county, as applicable, and the proposition includes specified accountability requirements.

Summary: Current law establishes a pilot program to allow the Counties of Alameda, Los Angeles, Riverside, San Bernardino, San Diego, San Mateo, Solano, and Yuba to select a bidder on the basis of best value, as defined, for construction projects in excess of \$1,000,000. Current law also authorizes these counties to use a best value construction contracting method to award individual annual contracts, not to exceed \$3,000,000, for repair, remodeling, or other repetitive work to be done according to unit prices, as specified. Current law establishes procedures and criteria for the selection of a best value contractor and requires that bidders verify specified information under oath. Current law repeals the pilot program provisions on January 1, 2020. This bill would authorize the County of Santa Clara to utilize this pilot program and would extend the operation of those provisions until January 1, 2025.

Summary: Current law requires any successor agency that has been issued a finding of completion to use bond proceeds derived from bonds issued on or after January 1, 2011, in excess of the amounts needed to satisfy approved enforceable obligations, in a manner consistent with the original bond covenants, subject to certain requirements, including a requirement that no more than 5% of the proceeds derived from the bonds be expended, unless the successor agency has an approved Last and Final Recognized Obligation Payment Schedule, in which case the agency is authorized to expend no more than 20% of the proceeds derived from the bonds, subject to specified adjustments. Current law requires remaining bond proceeds that cannot be spent pursuant to those requirements to be used at the earliest possible date to defease the bonds or to purchase those same outstanding bonds on the open market for cancellation. This bill, notwithstanding the requirement that the remaining bond proceeds be used to defease the bonds or to purchase those same outstanding bonds on the open market for cancellation, would authorize the City of Santa Cruz to use the remaining bond proceeds for the purposes of increasing, improving, and preserving affordable housing, as defined, and facilities for homeless persons, so long as those proceeds are used in a manner consistent with any original bond covenant.
