Summary: Under the California Constitution, when the Legislature or a state agency mandates a new program or higher level of service on any local government, including school districts, the state is required to

provide a subvention of funds to reimburse that local government for the costs of that new program or higher level of service, with specified exceptions. Current law authorizes a local agency or school district to file an annual reimbursement claim detailing these state-mandated costs, as specified. This bill would make a technical, nonsubstantive change to that law.

Summary: Existing law regulates state and local public retirement systems and generally requires public employees who are new members, as defined, of those systems, on and after January 1, 2013, to participate in specified benefit plans. Existing law requires, in the case of these plans, if a new defined benefit formula is adopted on or after January 1, 2013, that the formula meet certain requirements and, among other things, be approved by the Legislature. This bill would eliminate the requirement that the Legislature approve the changes in the instances described above. This bill would also authorize a local agency public employer or public retirement system that offers a defined benefit pension plan to offer a benefit formula with a lower benefit factor at normal retirement age and that results in a lower normal cost than the benefit formulas that are currently required, for purposes of addressing a fiscal necessity.
