

## **The Kentucky Cabinet for Health and Family Services Contacts FDAK Regarding Funeral Homes**

On Monday, March 23, 2020, The Cabinet for Health and Family Services contacted FDAK regarding **specific funeral homes** in the state that are not complying with Governor Andy Beshear's Order regarding funerals.

FDAK was asked to once again remind the funeral homes in the state that:

- Funerals are limited to the “**Closest of Family**” with “**Private Burials**” and
- All public gathering are limited to no more than **10 people** per the CDC

We know that these are very difficult times but we ALL need to do our part to help stop the spread of COVID 19 in our communities and throughout the entire state.

FDAK realizes this is very difficult for the families that you serve, but we don't want the state to be forced to stop all funerals and burials because there of a few Kentucky funeral homes that refuse to follow the orders as set forth.

The latest COVID Updated Statement from FDAK is attached for your review.
