

As requested, below are instructions on how to file a complaint with our agency regarding curbstoned vehicles. The Bureau of Field Operations will begin accepting complaints from licensed dealers pertaining to curbstoned vehicles. Dealers should contact our DMV Regional Office in writing and provide us with the following information:

- Specific location where vehicles were or are being offered for sales.
- Dates that the vehicles were or will be offered for sale.
- Contact information for the person filing the complaint.
- Any other data that may aid in the investigation, e.g. name and or telephone number displayed on the vehicle.

Upon receipt of the written complaint, the DMV Regional Office will assign a Compliance Examiner to investigate and take appropriate action if warranted. The information can be emailed to the Regional Offices at the following email addresses:
