# CCIS Project List – In Progress

- ❖ Implementation of CCIS 3.0 for remaining counties
- ❖ Alignment of CCIS Security Model with AOSC16-14

# Alignment of CCIS Security Model with AOSC16-14

## ◆ The Scope of the Project:

- ◆ Validate the existing CCIS Security Model against the AOSC16-14 Access Security Matrix and define strategies to accommodate gaps
- ◆ Recommend policy changes, if applicable, to the CCIS Committee and Access Governance Board
- ◆ Define the CCIS VOR and Redaction process
- ◆ Create a conversion process to convert existing active CCIS user security profiles to the new security model
- ◆ Define new user authorization processes
- ◆ Analyze and update the CCIS Security Administration functionality to handle new roles and processes
- ◆ Collaborate with counties and CMS vendors
- ◆ Create a Quality Assurance (QA) process to test and validate the new security model
- ◆ Train CCIS Security Administrators and authorized users on the new security model

# Alignment of CCIS Security Model with AOSC16-14

- ★ Proposed Viewable on Request (VOR) Process
  - ★ Web service architecture to facilitate the VOR process in CCIS
    - ★ Modification to the CCIS Docket Pull Service providing an image security code in CCIS representing the image privacy as dictated by the AOSC16-14 Access Security Matrix
    - ★ Implementation of a web service method in local CMS
    - ★ User can request notification of VOR process completion
    - ★ User's request will call local web service method and set the image security to "VOR Pending".
    - ★ After county completes VOR process, and mark the image "Public" making the image available for viewing in CCIS

# Alignment of CCIS Security Model with AOSC16-14

- ◆ CCIS Committee – under review
  - ◆ Add three (3) new CCIS user roles
    - ◆ Attorney of Record
    - ◆ Registered User
    - ◆ Party Access
  - ◆ Exclude Public Anonymous users
- ◆ Future Considerations
  - ◆ Re-authorization / new agreement process for existing users
  - ◆ Notarized agreements for current and new users

# CCIS Project List - Future

## ◆ CCIS Future Projects

- ◆ Development of automated data quality tool for CCIS data and CMS data
- ◆ Development of automated process with FDLE to report records to MECOM
- ◆ Development of automated process with the Justice Administrative Commission (JAC) for court-appointed attorneys
- ◆ Development of support data reports for Clerk and CCOC initiatives
