

Pharmacy-Based Immunization Delivery

Certificate Training Program

**ONLY
\$199**

This virtual program will be conducted on Thursday, December 3, 2020 utilizing Zoom video conferencing. To complete this program, you must complete the self-study component, attend the virtual live session and participate in the hands-on injection technique assessment component of the program. **Prior to registering for this program, please read all the requirements listed below.** The \$199 program fee is non-refundable.

This program was developed by the American Pharmacists Association and is delivered in partnership with the Florida Pharmacy Association. This offering is supported by an educational grant from Merck.

SESSION DATE/TIME

Thursday, December 3rd - 9:00 AM – 5:00 PM EST (Eastern Standard Time)

Pharmacy-Based Immunization Delivery certificate training program (14th Edition) is a 20-hour innovative, intensive, and practice-based continuing pharmacy education, based on national educational standards for immunization training from the Centers for Disease Control and Prevention. This program is designed to educate pharmacists about the professional opportunities for vaccine advocacy and administration. This practice-based curriculum represents a fusion of science and clinical pharmacy. The program, which emphasizes a health care team approach, seeks to foster the implementation of interventions that will promote disease prevention and public health.

The American Pharmacists Association is accredited by the Accreditation Council for Pharmacy Education as provider of continuing pharmacy education.

Activity Type: Practice-based
Audience: Pharmacists in all practice settings
Learning Level: Level 3
Release Date: 03/30/2020
Expiration Date: 03/30/2023
TOTAL CE CREDIT: 20 HOURS (2.0 CEUs)
ACPE UAN: 0202-0000-20-179-H06-P (1.2 CEU)
ACPE UAN: 0202-0000-20-180-L06-P (0.8 CEU)
Visit pharmacist.com/ctp for a complete list of learning objectives, faculty credentials and ACPE information.

Pharmacy-Based Immunization Delivery certificate training program has three components: online interactive self-study with assessment; the live seminar with online final assessment; and hands-on assessment of intramuscular and subcutaneous injection technique. A Certificate of Achievement will be awarded to participants who successfully complete all program components, including an evaluation.

In addition to enrollment in the immunization certificate training program, your \$199 registration fee will also provide you with an automatic free enrollment in **APHA's Test Your Knowledge: Immunization Delivery**. This **free 2-hour online CPE program** will be loaded onto your profile six months later and will provide you with a review of the information you experience in the certificate training program. It will also provide any up-to-date immunization information six months following the certificate training program. You are not obligated to participate in this CPE program, but it is provided to you free as part of your enrollment in the immunization certificate program. It is supported by a grant from Merck. Visit pharmacist.com/ctp for a list of learning objectives, faculty credentials and ACPE information.

Program Requirements

- 1) Complete 12-hour online self-study modules and 8-hour virtual live seminar
- 2) Complete Injection Technique Assessment Exercise *

* To complete the program and receive your certificate, you must adapt your schedule to attend a skills assessment session. You must also provide your own simulated patient (friend, spouse, parent) on which to demonstrate the injection technique assessment. Participant will be observed giving a partner 2 intramuscular and 1 subcutaneous injections of normal saline. **If participant cannot secure a partner to receive the 3 normal saline injections, please refrain from registering for this program and wait for a future APHA immunization program that can be held in person.**

There are two options for completing the injection technique exercise:

- 1) Art Ovation Hotel – Sarasota Dec. 5th – 6th during FPA meeting
- 2) Meet with instructor at one of several identified locations around Florida

The materials needed to perform the participant's injection technique will be mailed by APHA to participants. Your mailing address and email address **MUST** be current on your pharmacist.com account profile.

NOTE: APHA cannot mail participants a Sharps container. Participants will be responsible for securing access to appropriate sharps disposal.

Seminar Agenda

Morning

Clinical Review
Applying ACIP Schedules
Screening Patients
Adverse Events
Communicating with Patients

Afternoon

Managing an Immunization Program
Strategies for Increasing Rates
Vaccine Administration Technique
Discussion of Skills Assessment Plan
