Adolescent/Adult SANE Clinical Training May 17 & 18, 2018

Sponsored by

The clinical preceptorship is designed to complement the classroom educational experience and allow the SANE to apply information and skills obtained during the classroom experience. The required clinical experience is in addition to the 40-hour didactic course. It is recommended that this preceptorship be completed with the guidance of a physician, advanced practice nurse, or a forensically experienced registered nurse.

You must be enrolled in or have completed a 40 hour didactic class in order to take this course.

There will be 2 evaluations, one for the course instructors and one for IAFN in order to receive your CE.

CE will be provided by the International Association of Forensic Nurses. *This offering has been approved for 16.0 nursing continuing education contact hours. The International Association of Forensic Nursing is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.*

May 16, 2018 optional orientation meeting

May 17 & 18, 2018

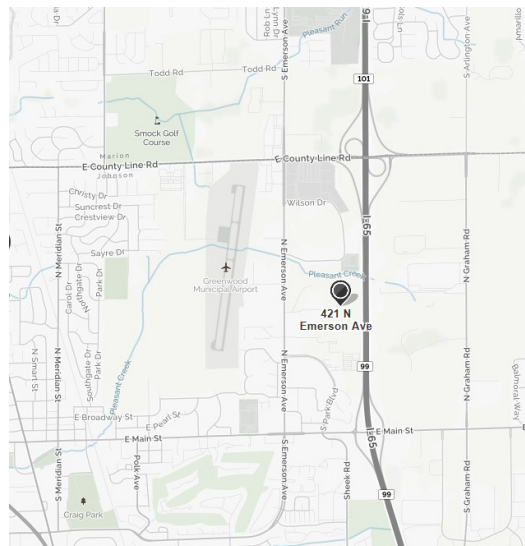

Expect Full day of class on the 17th and 18th

Times will be shared with acceptance letter

Franciscan St Francis Health Education Center

421 N Emerson Avenue

Greenwood, IN 46143

DAY THREE May 18

GTAs (Patients) will stay in character during this experience

- Identify the key components of effective history taking
- Demonstrate effective history taking skills
- Identify the key components of the physical exam
- Demonstrate the complete head to toe assessment
- Prepare the adolescent/adult for the anogenital exam
- Identify the rationale behind collection of specific evidentiary specimens
- Demonstrate proper body orifice and surface collection of evidence
- Demonstrate proper material evidence collection
- Demonstrate proper packaging of evidentiary materials
- Demonstrate proper sealing of evidentiary materials
- Demonstrate proper maintenance of chain of custody of evidentiary materials
- Formulate a sexual assault-specific plan of care based on the overall assessment and diagnosis
- Verbalize and defend the plan of care based on overall assessment and diagnosis
- Explain the care options to the simulated patient

Schedule and Preparation information will be sent upon being accepted in to the clinical course.
