

Forensic Nursing - Excellence

Kaylin Dawson

Albany, New York

Work Setting: Kaylin has not only served as an emergency department RN for almost a decade, but also performs the role of being the Sexual Assault Program Coordinator for Albany Medical Center. She is also actively involved with the Albany Child Advocacy Center and the local SART team.

Kaylin should be recognized for her efforts as not only an examiner, but also a program coordinator. She has made strides in our community by teaming up with local colleges to raise awareness, and always puts her victims' needs first. The SANE/SART community is lucky to have Kaylin on their team.
