In 1999 it was agreed that the Northern New Jersey and Central New Jersey Societies of ICFP and the New Jersey IAFP would merge into a local chapter of The Financial Planning Association of New Jersey. An appointed steering committee met on three separate occasions to discuss the form of the new organization. This led to the formation of a Board consisting of five (5) members each from the ICFP and IAFP organizations. As of January 1, 2000 the above mentioned societies ceased to exist and the FPA of NJ took their place. This merger culmination in months of work by members of the various organizations in order to comply with the National FPA. The Past Presidents listed below represented one of the organizations that came together in the merger.
