

EVERYONE

Every household. Every school. Every clinic.

Water For People creates innovative and lasting solutions to people's water and sanitation needs in 11 developing countries in Africa, Asia, Central America, and South America. We empower communities to plan, build, finance, maintain, and operate their own safe water and sanitation services—with access for everyone.

You help make this happen.

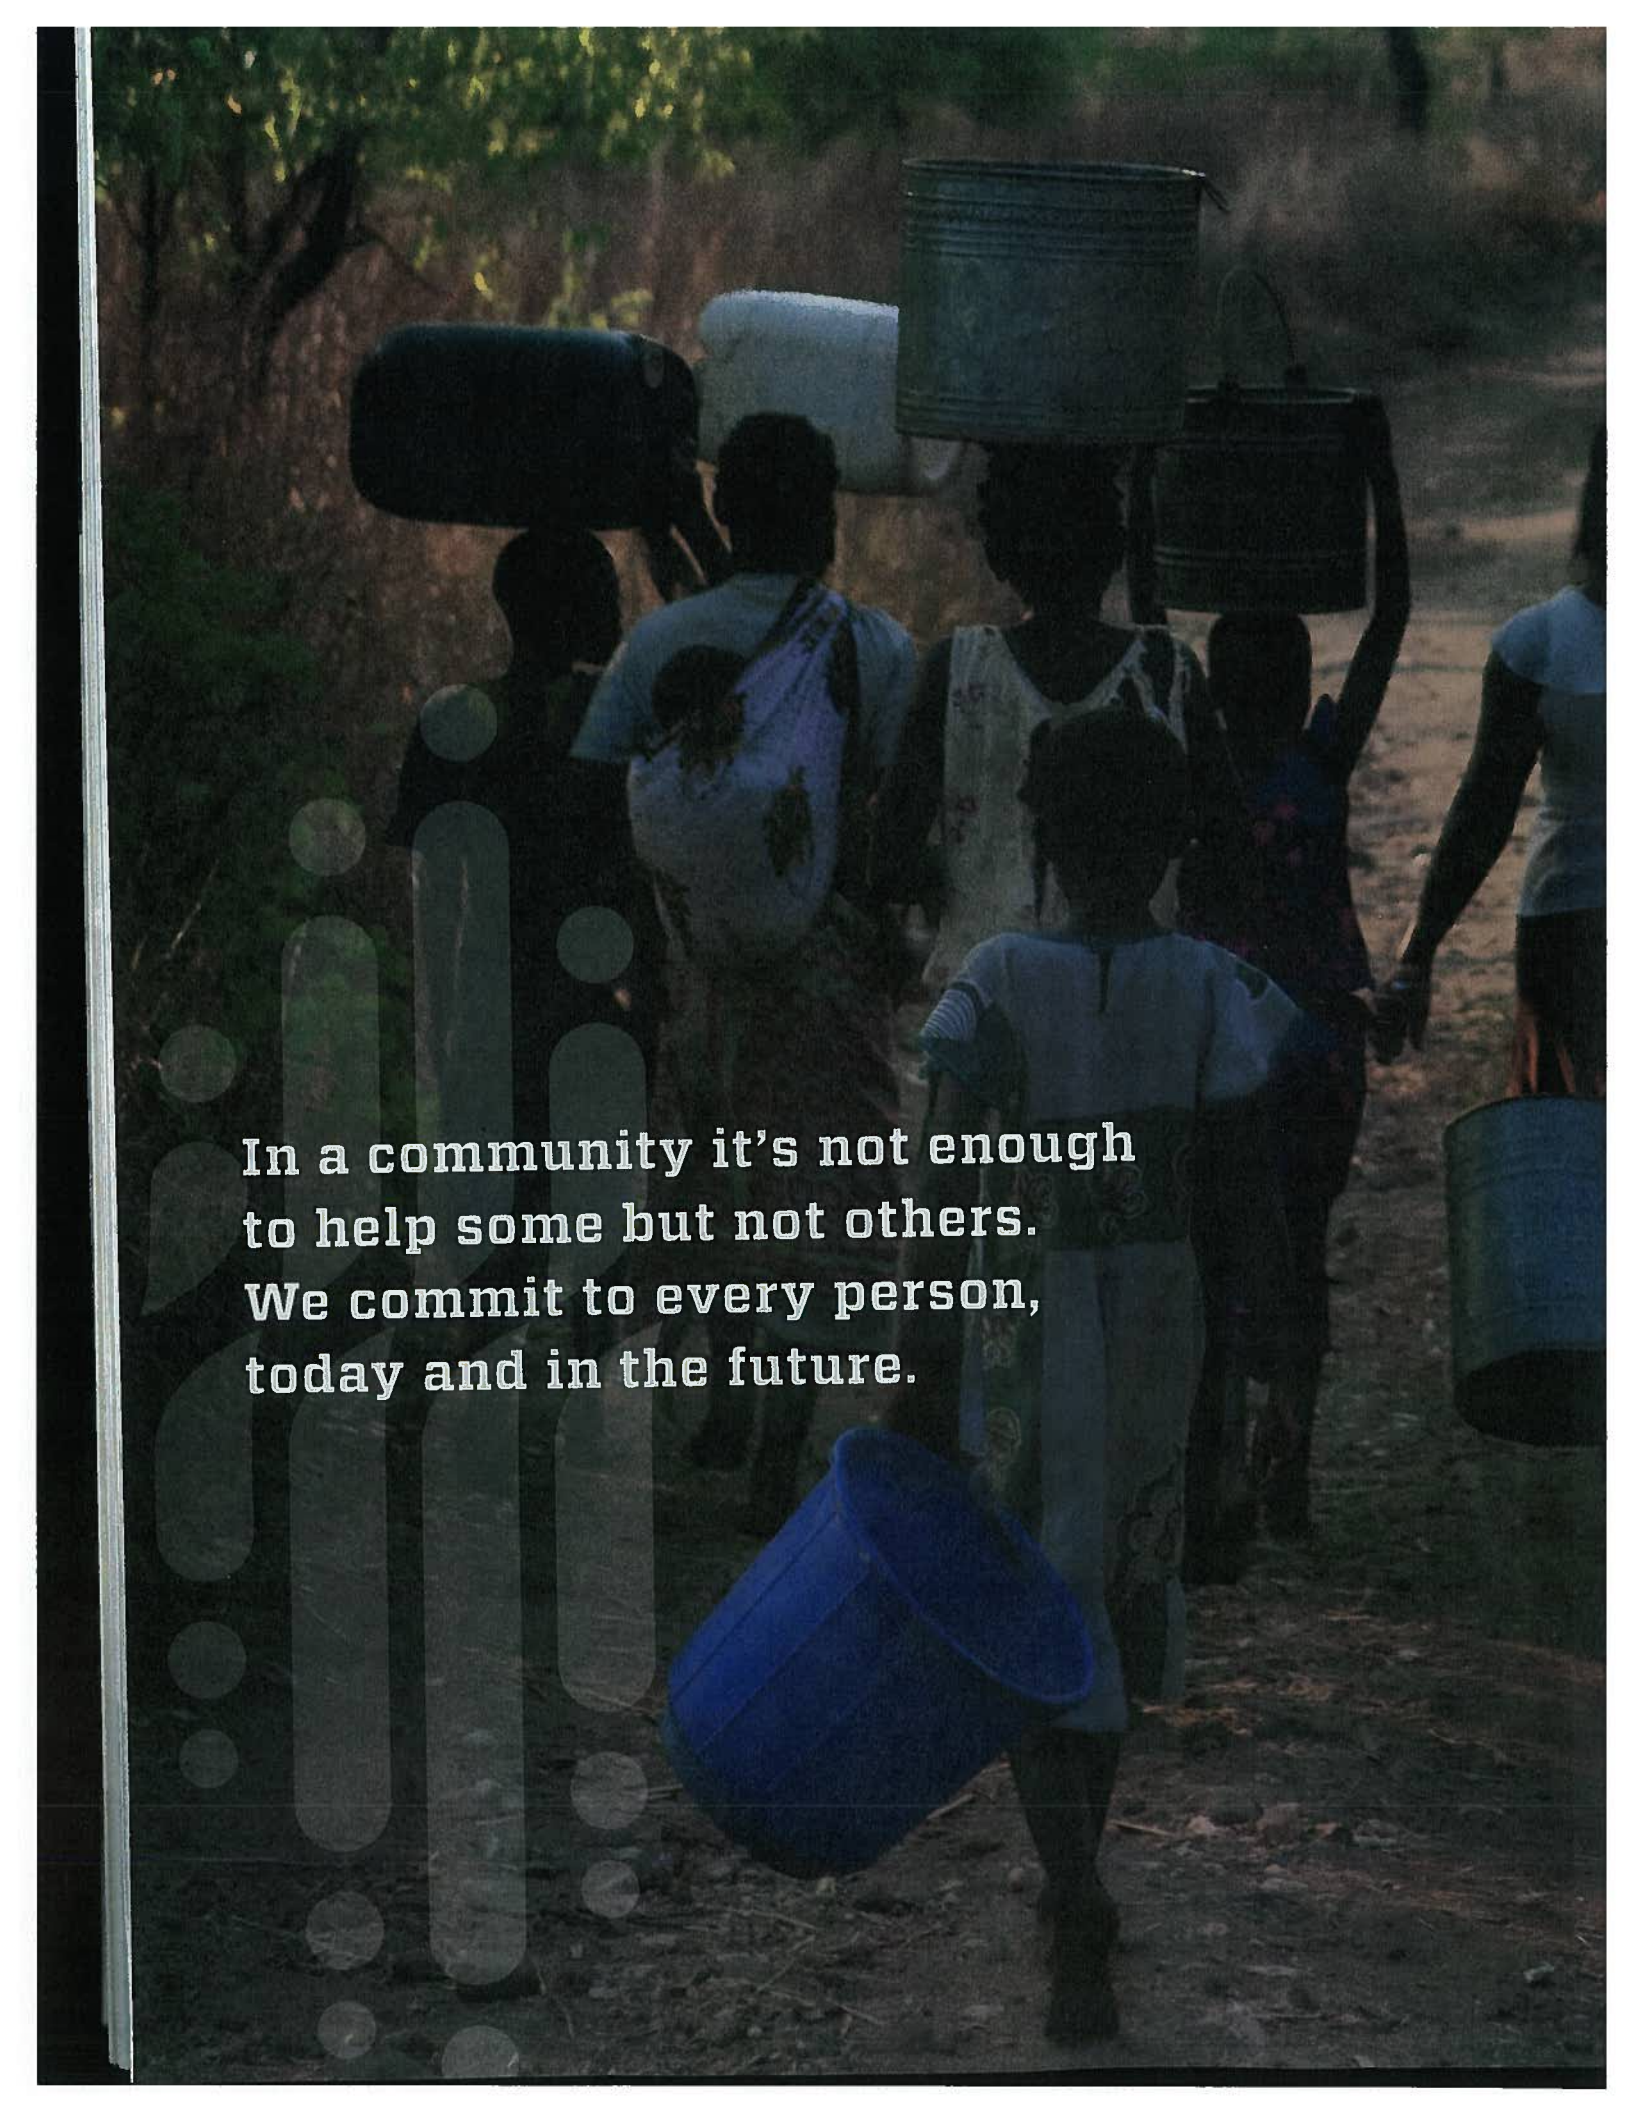

In 2010, AWWA committees raised more than \$700,000 for Water For People. A special thank you to the top fundraising committees for their outstanding efforts: AWWA Indiana, AWWA Pacific Northwest, AWWA Florida, AWWA New Jersey.

Continue your—and our—commitment to everyone. Visit www.waterforpeople.org to learn about the many ways your contributions work to bring safe water, adequate sanitation, and hygiene education to hundreds of thousands of people.

water for people
the current of change

www.waterforpeople.org

A group of people, including men, women, and children, are walking along a dirt path in a rural setting. They are carrying various water containers on their heads and backs, such as large blue plastic jerrycans, metal buckets, and white plastic jugs. The scene is captured in a low-key, high-contrast style, with the subjects appearing as dark silhouettes against a lighter, hazy background of trees and foliage. The overall mood is one of daily labor and community activity.

In a community it's not enough
to help some but not others.
We commit to every person,
today and in the future.
