Friday, August 5, 2016

6:00am-5:45pm  REGISTRATION DESK OPEN
6:00-7:00am  ATTENDEE BREAKFAST
7:15am  WELCOME/PRESENTATION OF PHARMACIST AND PHARMACY TECHNICIAN OF THE YEAR
7:35-8:35am  KEYNOTE PRESENTATION: EVOLUTION OF PHARMACY: PAST, PRESENT AND FUTURE
9:40-9:40am  BREAK
9:50-11:50am  GOLDEN OPPORTUNITIES IN PHARMACY TRACK 3.0 HOURS OF C.E.
11:30am-2:30pm  EXHIBITS OPEN
11:50am-12:50pm  ATTENDEE LUNCH

Room: Crystal Ballroom  Moderator: Tom Johns, Pharm.D., BCPS

**KEYNOTE PRESENTATION: EVOLUTION OF PHARMACY: PAST, PRESENT AND FUTURE**

**Pharmacist and Technician Objectives:**
- State at least three essential elements of the historic evolution of hospital pharmacy practice.
- List five major drivers of change in healthcare and how pharmacists and pharmacy technicians should prepare for contemporary and future practice.
- Identify three current major medication related gaps in addressing patient care needs.
- Predict future directions for health system pharmacy practice on how pharmacists and pharmacy technicians may address a mission to optimize patient outcomes through interdisciplinary medication management.

**GOLDEN OPPORTUNITIES IN PHARMACY TRACK 3.0 HOURS OF C.E.**

**America’s Other Drug War: Rising Drug Prices**
Robert Navarro, Pharm.D., Clinical Professor, University of Florida College of Pharmacy, Gainesville, FL

**Pharmacist Objectives:**
- Theorize reasoning behind increasing drug prices.
- Identify examples of unsustainable drug pricing.
- Illustrate the burdens high cost drugs place on health systems and payers.
- Propose pharmacoeconomic management strategies within health systems.
- Describe and assess legislation, advocacy and sustainable drug pricing initiatives.

**Technician Objectives:**
- Theorize reasoning behind increasing drug prices.
- Identify examples of unsustainable drug pricing.
- Illustrate the burdens high cost drugs place on health systems and payers.
- Describe and assess legislation, advocacy and sustainable drug pricing initiatives.

9:40-9:50am  BREAK

9:50-11:50am  Medication Errors/Patient Safety Panel:

**Patient Safety: Past, Present, Future: Introduction, and Overview of Top Patient Safety Concerns**
Eric Renker, Pharm.D., Corporate Director of Pharmacy with Comprehensive Pharmacy Services, Brooksville, FL

**Error Reduction Technology: Past, Present, Future**
Audrey Johnson, BPharm, MSM, Rx View, LLC Pharmacy Operations Consultant, Plantation, FL

**Reacting to Medication Errors: Past, Present, Future**
Steve Allison, Pharm.D., Director of Pharmacy, Florida Hospital East, Orlando, FL

**Pharmacist and Technician Objectives:**
- Describe the evolution of patient safety issues identified by the Joint Commission National Patient Safety Goals.
- Identify significant improvements made in patient safety and recognize areas where improvement is still needed.
- Discuss the past, present and future use of technology to assist in reduction of medication errors.
- Describe effective error reduction strategies to prevent patient harm caused by medication errors.
- Outline the key factors involved in a successful medication error reporting system.
- Review the evolution of root cause analysis.
DIRECTORS’ WORKSHOP 3.0 HOURS OF C.E.

2:30-5:45pm (3 concurrent sessions)  (GCE/CRC)  ACPE UAN 0163-0000-16-146-L04-P

Session 1: Discovery Ballroom
Facilitators:
Timothy R. L’Hommedieu, Pharm.D., MS, Director of Pharmacy Services, East Region of the BayCare Health System, Tampa, FL
Tom Johns, Pharm.D., BCPS, Director, Pharmacy Services, UF Health Shands Hospital, Gainesville, FL

Session 2: Atlantis
Facilitators:
Charzetta H. James, Pharm.D., CPh, MBA, MHA, FACHE, System Director of Pharmacy, St. Vincent’s Health Care, Jacksonville, FL
Dave Lacknauth, Pharm.D., MBA, Director of Pharmacy Services, Memorial Hospital, Miramar, FL

Session 3: Odyssey
Facilitators:
William Kernan, Pharm.D., MBA, Director of Pharmacy, Cleveland Clinic Florida, Weston, FL
John Armitstead, Pharm.D., MS, FASHP, System Director of Pharmacy, Lee Memorial Health System, Fort Myers, FL/ASHP
Immediate Past President, 2016-2017

Pharmacist Objectives:
- Discuss opportunities to improve medication safety through ASHP’s Standardize for Safety Initiative.
- Explore transitions of care pharmacy models to improve outcomes across the continuum of care.
- Review current and proposed regulatory standards for pharmaceutical waste and centralized compounding.
- Discuss methods to improve controlled substance oversight and management.
- Identify strategies to manage high cost drug therapy.

To participate in the Directors’ Workshop, you must be the decision-maker at your respective institution and have direct responsibility for personnel, drug budget, and regulatory compliance at your site.

BE RECOGNIZED!
Pick up your member involvement ribbons from the FSHP Registration Desk...Past Presidents, Councils, Student Leaders, Student Sponsors, Regional Officers...
**CARDIAC/VASCULAR TRACK 3.0 HOURS OF C.E.**

Room: Crystal Ballroom DE  
Moderators: Scott King, Pharm.D. and Jacqueline King, Pharm.D.  

**2:30-3:30pm**  
1.0 hour (GCE/CRC) ACPE UAN 0163-0000-16-147-L01-P  

**New Drugs in Cardiology**  
Lori Fiallo, Pharm.D., BCPS-AQ Cardiology, Clinical Pharmacist, Cardiology, Baptist Health, Jacksonville, FL  

**Pharmacist Objectives:**  
- Identify recent FDA approvals in cardiology.  
- Explore the impact of recent FDA approvals on current practice.  
- Design a treatment plan utilizing new medications.

**3:30-4:30pm**  
1.0 hour (GCE/CRC) ACPE UAN 0163-0000-16-148-L01-P  

**Controversies and Unanswered Questions in Anticoagulant Therapy**  
Kyle Davis, Pharm.D., BCPS, Clinical Pharmacy Specialist – Internal Medicine, Ochsner Medical Center, New Orleans, LA

**Pharmacist Objectives:**  
- Discuss monitoring methods for heparin anticoagulants.  
- Describe techniques for monitoring direct acting oral anticoagulants.  
- Explore VTE prophylactic and treatment strategies in obese patient populations.  
- Evaluate alternative treatment strategies in the management of heparin-induced thrombocytopenia.

**4:30-4:45pm**  
**BREAK**

**4:45-5:45pm**  
1.0 hour (GCE/CRC) ACPE UAN 0163-0000-16-149-L04-P  

**Man Versus Machine: A Pharmacist’s Role with Vascular Devices**  
Davide Ventura, Pharm.D., Cardiac Specialist, Florida Hospital, Orlando FL

Otanya Ochogbu, Pharm.D., Clinical Specialist-Critical Care, Florida Hospital, Orlando, FL  

**Pharmacist Objectives:**  
- Identify patient selection criteria for circulatory support devices.  
- Differentiate between percutaneous, extracorporeal, and implantable circulatory support devices.  
- Compare immediate post-operative and long-term outpatient care in the management of circulatory support devices.  
- Summarize associated anti-thrombotic therapy.  
- Outline complications associated with circulatory support devices.  
- Explore areas for potential errors and ways to prevent them.

**EMERGENCY MEDICINE TRACK 3.0 HOURS OF C.E.**

Room: Crystal Ballroom C  
Moderator: Abigail Antigua, Pharm.D.  

**2:30-3:30pm**  
1.0 hour (GCE/CRC/Tech) ACPE UAN 0163-0000-16-150-L04-P and 0163-0000-16-150-L04-T  

**Protocolizing Sepsis and Meeting Core Measures**  
Ginger P. Gamble, Pharm.D., MSCR, BCPS, Clinical Pharmacy Specialist, Emergency Medicine, UF Health Shands Hospital, Gainesville, FL

**Pharmacist Objectives:**  
- Discuss the core measures required for sepsis management.  
- Evaluate the efficacy of protocols and bundles in the management of sepsis.  
- Formulate steps necessary for the implementation of sepsis protocols.  
- Discuss the role of pharmacists in implementation of sepsis protocols.  

**Technician Objectives:**  
- List SIRS criteria for sepsis identification.  
- Identify antimicrobials acceptable for use under the new SEP-1 update.  
- Summarize key changes in the Sepsis Core Measure updates.

**3:30-4:30pm**  
1.0 hour (GCE/CRC/Tech) ACPE UAN 0163-0000-16-151-L04-P and 0163-0000-16-151-L04-T  

**Chemical Adventurism: Substance Abuse in 2016**  
Joe Spillane, Pharm.D., DABAT, Pharmacy Practitioner-Emergency Medicine, UF Health, Jacksonville, FL

**Pharmacist Objectives:**  
- Discuss what led to the largest prescription drug abuse epidemic this country has ever seen.  
- Discuss how the prescription drug abuse epidemic has led to the current spike in heroin abuse.  
- Recount the patterns of use and clinical manifestations of toxicity of synthetic cannabinoid and synthetic cathinone abuse.  
- Describe the pharmacology and clinical toxicology of the wide array of other trendy "designer" drugs that have become popular in the last several years.

**Technician Objectives:**  
- Discuss the causes, the magnitude, the shifting trends, and the current issues associated with the current epidemic of prescription drug abuse.  
- Recount recent trends in marijuana abuse particularly about the availability, sources, and toxicity of synthetic cannabinoids.  
- Describe the availability, extent of abuse, sources, and toxicity of synthetic cathinones.
**Present/Future: Management of Bleeding Due to Oral Anticoagulants**

Ruben Santiago, Pharm.D., BCPS, Clinical Hospital Pharmacist, Emergency Medicine, Pharmacy Services, Jackson Memorial Hospital, Miami, FL

**Pharmacist and Technician Objectives:**
- Review the mechanism of action of oral anticoagulant agents and identify laboratory parameters that may be used to assess the presence of these medications.
- Discuss emergent reversal strategies and evaluate the current literature for the management of life threatening hemorrhage due to vitamin K antagonists and direct oral anticoagulants.
- Identify future treatment options and assess their potential role in clinical practice for the reversal of hemorrhage due to oral anticoagulation.

**PROFESSIONAL DEVELOPMENT TRACK 3.0 HOURS OF C.E.**

**Pearls of Giving (and Receiving) Feedback**
Earnest Alexander, Pharm.D., FCCM, Assistant Director, Clinical Pharmacy Services, Program Director, PGY2 Critical Care Residency, Department of Pharmacy Services, Tampa General Hospital, Tampa, FL
Jean M. Rogers, Pharm.D., Assistant Professor of Pharmacy Practice, Experiential Director, Institutional Practice, Palm Beach Atlantic University, Gregory School of Pharmacy, West Palm Beach, FL

**Pharmacist Objectives:**
- Differentiate between evaluations and feedback.
- Analyze different approaches to giving feedback.
- Illustrate challenges to giving and receiving feedback.

**Learning the Ropes - Getting Started with Scholarly Activities**
Xi Liu-DeRyke, Pharm.D., FCCM, Clinical Pharmacy Manager, Surgery, Florida Hospital, Orlando, FL

**Pharmacist Objectives:**
- Identify pitfalls in selecting a publishable research project.
- Describe steps in the manuscript writing and publication process.
- Summarize steps to the peer-review process.

**Professional Development Panel**
Panelists:
Suzanne Turner, Pharm.D, FASHP, Pharmacy-Education and Residency Coordinator, Lee Memorial Hospital, Ft. Myers, FL
Karen R. Sando, Pharm.D., BCACP, CDE, Clinical Assistant Professor, Department of Pharmacotherapy & Translational Research College of Pharmacy, University of Florida, Gainesville, FL
Kristin Morse, Pharm.D., Outpatient Clinical Pharmacy Services, Co-Director, Florida Hospital - Celebration Health, Celebration, FL

**Pharmacist Objectives:**
- Compare and contrast different professional societies.
- Summarize certifications available to pharmacists.
- Describe strategies for involvement in the profession at regional, state and national level.
**Meeting Agenda**

**Saturday, August 6, 2016**

**6:30am-5:15pm**  
REGISTRATION DESK OPEN

**6:00-7:00am**  
ATTENDEE BREAKFAST

---

**PHARMACY LAW UPDATE**  
Session color code:  
Moderator: Luke Miller, Pharm.D.

Room: Crystal Ballroom DE  
7:00-8:00am  1.0 hour (GCE/Tech) ACPE UAN 0163-0000-16-156-L03-P and 0163-0000-16-156-L03-T  
Larry Gonzalez, Juris Doctor (JD), General Council, Florida Society of Health-System Pharmacists, Tallahassee, FL  
Gary Dalin, MS, RPh, FASHP, Staff Pharmacist, Boca Raton Regional Hospital, Boca Raton, FL  
Patrick Barnes, Pharm.D., Pharmacy Manager, UF Health, Jacksonville, FL

**Pharmacist and Technician Objectives:**

- Discuss key bills related to pharmacy practice as considered by the Florida House and Senate during the 2016 legislative session.
- Review issues centered on the passage of FSHP's provider status "Access to Pharmacy Services" bill.
- Discuss practice regulations that came before the Florida Board of Pharmacy during 2015-16 including sterile compounding and controlled substance dispensing and requirements.
- Review the potential impact on the technician’s role with the expansion of provider status to the pharmacist.

---

**CRITICAL CARE TRACK 3.0 HOURS OF C.E.**  
Track color code:  
Moderator: Kelly Owens, Pharm.D.

Room: Crystal Ballroom DE

**8:15-9:15am**  
1.0 hour (GCE/CRC) ACPE UAN 0163-0000-16-157-L01-P  
Clinical Pearls for the ICU  
Pamela Andrews, Pharm.D., Clinical Pharmacy Specialist, Orlando Health-South Seminole Hospital, Longwood, FL  
Marlena Fox, Pharm.D., BCPS, Director, PGY-2 Critical Care Residency Program, Orlando Regional Medical Center, Orlando, FL

**Pharmacist Objectives:**

- Compare and contrast treatment for hyperosmolar hyperglycemic state (HHS) and diabetic ketoacidosis (DKA).
- Recognize and manage propofol related infusion syndrome (PRIS).
- Describe how to transition from dexmedetomidine to clonidine for ICU sedation.
- Discuss options for the management of shivering in patients undergoing targeted temperature management.

**9:15-9:30am**  
BREAK

**9:30-10:30am**  
1.0 hour (GCE/CRC) ACPE UAN 0163-0000-16-158-L01-P  
Bringing the ABC (DEF)'s to the ICU  
Gina Riggi, Pharm.D., BCPS, BCCCP, Clinical Hospital Pharmacist Trauma Intensive Care Unit, Jackson Memorial Hospital, Miami, FL

**Pharmacist Objectives:**

- Identify the potential adverse outcomes of an ICU stay.
- Describe the components of ICU liberation.
- Evaluate pharmacologic interventions used to treat pain, agitation, and delirium.
- Discuss the pharmacist’s role in ABCDEF.

**10:30-11:30am**  
1.0 hour (GCE/CRC) ACPE UAN 0163-0000-16-159-L01-P  
Transplant Primer for ICU Pharmacists  
Margaret Fernandez, Pharm.D., CPh, BCPS, Clinical Hospital Pharmacist, CSICU/SICU/Heart and Lung Transplant/MCS Clinical Specialist, Jackson Memorial Hospital, Miami, FL

**Pharmacist Objectives:**

- Describe the classifications of rejection.
- Review immunosuppressive agents used in induction, maintenance and acute rejection protocols.
- Describe monitoring strategies to optimize pharmacotherapy in transplant patients.
- Identify regimens to prevent and treat common post-transplant infections.
AMBULATORY CARE/INTERNAL MEDICINE TRACK 3.0 HOURS OF C.E.  
Track color code: [ ]

Room: Atlantis  Moderator: Kelly Biastre, Pharm.D.
8:15-9:15am 1.0 hour (GCE/CRC/Tech) ACPE UAN 0163-0000-16-160-L01-P and 0163-0000-16-160-L01-T

Diabetes – Keeping up with Changes
Mary Hencher, Pharm.D., BCPS, CDE, Clinical Pharmacy Specialist–Endocrine Department, North Florida/South Georgia Veterans Health System, Gainesville, FL
Pharmacist Objectives:
- Review updates in diabetes care regarding the newer oral treatment options and the recent studies supporting these therapies.
- Describe the differences between traditional and newer insulin products.
- Provide strategies to help transition diabetes regimens from both the inpatient and the outpatient setting, including managing oral medications while hospitalized and cost considerations to be aware of.

Technician Objectives:
- List two lifestyle changes that would be optimal for patients to follow who are transitioning from the inpatient to the outpatient setting.
- Describe the differences between traditional and newer insulin products.
- Provide strategies on how technicians can be involved in medication reconciliation to improve patient outcomes.

9:15-9:30am  BREAK

9:30-10:30am 1.0 hour (GCE/CRC/Tech) ACPE UAN 0163-0000-16-161-L04-P and 0163-0000-16-161-L04-T

Pregnancy – An Ever Changing Condition
Timothea Scott, Pharm.D., Newborn Intensive Care Unit Level II Clinical Pharmacist, Baptist Medical Center South, Jacksonville, FL
Pharmacist and Technician Objectives:
- List two reasons for the recommended FDA scoring changes.
- Compare and contrast the FDA pregnancy categories with the new scoring system.
- Describe three medical conditions (Urinary Tract Infection (UTI), Venous Thromboembolism (VTE), Hypertension (HTN)) in pregnant women that may develop due to the pregnancy.
- Provide strategies to safely manage UTI, VTE, and Hypertension in the pregnant population.

10:30-11:30am 1.0 hour (GCE/CRC/Tech) ACPE UAN 0163-0000-16-162-L04-P and 0163-0000-16-162-L04-T

Bridging the Gap: Pharmacist Role in Transitioning Patients from Hospital to Home
Kara Krzan, Pharm.D., MS, Chief, Pediatric and Women’s Clinical Pharmacy Services, UF Health Shands Hospital, Gainesville, FL
Erin Wright, Pharm.D., BCPS, Chief, Cardiovascular/Neuromedicine Clinical Pharmacy Services, UF Health Shands Hospital, Gainesville, FL
Pharmacist Objectives:
- Describe two ways pharmacists can improve patient outcomes in transitions of care.
- Discuss CMS pay for performance initiatives.
- Provide two examples of initiatives to minimize 30-day readmission rates and improve transitions in care.

Technician Objectives:
- Explain potential roles for pharmacy technicians in transitions of care.
- Describe at least two aspects of med reconciliation.
- Provide two examples of initiatives to minimize 30-day readmission rates and improve transitions in care.

LEADERSHIP TRACK 3.0 HOURS OF C.E.  
Track color code: [ ]

Room: Odyssey  Moderator: Venessa Price Goodnow, Pharm.D.
8:15-9:15am 1.0 hour (GCE/CRC) ACPE UAN 0163-0000-16-163-L04-P

Management Talk for the Non-Manager
Matt Curran, Pharm.D., CPh, Pharmacy Operations Coordinator, Memorial Hospital Miramar, Miramar, FL
Pharmacist Objectives:
- Distinguish the differences between management and leadership.
- Recognize medication-related quality-of-care measures.
- Describe implications of having a dynamic benchmarking system.
- Define productivity and outcomes associated with having a robust productivity index.
- Identify strategies to create and implement effective management techniques.

9:15-9:30am  BREAK
Leading a Multigenerational Workforce

Chris Lynch, Pharm.D., Med, Director of Experiential Education, Lake Erie College of Medicine (LECOM) School of Pharmacy, Bradenton, FL
Rochelle Nappi, EdD, Director, Student Services, College of Pharmacy, Nova Southeastern University, Ft. Lauderdale, FL

Pharmacist Objectives:
- Illustrate the belief systems and values of each of the four generations that make up the current workforce.
- Compare and contrast the workplace characteristics for each of the four generations that make up the current workforce.
- Formulate a plan to implement the “Six Principles for Managing Generations Successfully” into the workplace.

Technician Objectives:
- List the four generations that make up the current workforce.
- Define the workplace characteristics for each of the four generations that make up the current workforce.
- Explain the “Six Principles for Managing Generations Successfully”.

The Leadership Debate

Jennifer Austin, Pharm.D., Faculty, Pharmacy Leadership Academy ASHP Foundation, Pharmacy Manager, St. Joseph’s Hospital, North Tampa, FL
Rochelle Nappi, EdD, Director, Student Services, College of Pharmacy, Nova Southeastern University, Ft. Lauderdale, FL
Minh Tri Duong, Pharm.D., Director, Ambulatory Services, Tampa General Hospital, Tampa, FL

Pharmacist Objectives:
- Define the need to create future Pharmacy leaders.
- Identify programmatic strategies and opportunities to develop resident’s leadership skills.
- Critique efforts by local and national organizations to develop leaders.

STUDENT TRACK

8:00-9:15am Quiz Bowl (Crystal Ballroom A)
Come out and cheer on teams as they compete in a Jeopardy-Style trivia game! Teams will be represented by all Florida schools/colleges of pharmacy.

9:30-10:50am 'Speed Dating with a Pharmacist' (Crystal Ballroom B)

11:00-11:30am Residency Panel (Crystal Ballroom A)

PHARMACY TECHNICIAN TRACK 8.0 HOURS OF TECHNICIAN-SPECIFIC C.E.

Room: Coral Ballroom  Moderator: Maria Castillo, RPhT, CPhT
8:15-9:15am  1.0 hour (Tech) ACPE UAN 0163-0000-16-178-L01-T

New Drugs and Interactions Part 1-Panel
Scott King, Pharm.D., Assistant Manager, Clinical Pharmacy Services, Orlando Health, Orlando, FL
Tara McNulty, AABA, CPht, RPhT, Pharmacy Project Manager-Drug Utilization Review, Wellcare Health Plans, Wesley Chapel, FL

Technician Objectives:
- Discuss recent FDA drug approvals.
- Examine the impact of the new therapy on cardiology.
- Investigate the role of the pharmacy technician with the recent FDA drug approvals.

9:15-9:30am BREAK
9:30-10:30am 1.0 hour (Tech) ACPE UAN 0163-0000-16-179-L01-T

**New Drugs and Interactions Part 2-Panel**
Jacqueline King, Pharm.D., Pharmacist, Florida Hospital Orlando, Orlando, FL
Tara McNulty, AABA, CPhT, RPhT, Pharmacy Project Manager-Drug Utilization Review, Wellcare Health Plans, Wesley Chapel, FL

**Technician Objectives:**
- Explore new medications for the treatment of infectious diseases including HIV and Hepatitis C.
- Analyze the impact of the new agents within clinical practice.
- Utilize drug information to prevent medication misadventures.

**Moderator:** Sandra Barnes, RPhT, CPhT

10:30-11:30am 1.0 hour (Tech) ACPE UAN 0163-0000-16-180-L04-T

**Sterile Compounding (USP 800)**
Dante Kazerounian, Pharm.D., CPh, NPh, Sterile Compounding Manager, John’s Hopkins Medicine, All Children’s Hospital, St. Petersburg, FL

**Technician Objectives:**
- Discuss the need for USP <800> guidelines.
- Describe USP <800> requirements.
- Describe the impact of USP <800> on medication dispensation process.
- Prepare to identify the gaps in your practice site

1:30-2:30pm 1.0 hour (Tech) ACPE UAN 0163-0000-16-181-L04-T

**Medical Marijuana**
Sean Casella, Pharm.D., Clinical Pharmacist, St. Petersburg General Hospital, St. Petersburg, FL

**Technician Objectives:**
- Describe the legislative status of medical marijuana both in Florida and nationally.
- Differentiate between cannabinoids and determine their medical utility.
- Assess medical marijuana’s function in pharmacy.

2:30-3:30pm 1.0 hour (Tech) ACPE UAN 0163-0000-16-182-L04-T

**Calculations**
Sunil Jambhekar, M.S., PhD, Professor, Pharmaceutical Sciences, LECOM School of Pharmacy, Bradenton, FL

**Technician Objectives:**
- Discuss the importance of calculations.
- Outline the steps to avoid calculation errors.
- Explain the importance of reading the prescription carefully and then performing calculations.
- Explain the importance of calculations in determining the number of day supply for a prescription.
- Describe the consequences of errors in calculations.
- Perform a few calculations during the presentation.

3:30-3:45pm BREAK

**Moderator:** Sheryl MacKenzie, RPhT, CPhT

3:45-4:45pm 1.0 hour (Tech) ACPE UAN 0163-0000-16-183-L04-T

**Medication Reconciliations in the ER**
Katherine Sims, Pharm.D., Clinical Pharmacy Specialist-Emergency Medicine, Florida Hospital Tampa, Tampa FL
Amy Carey, CPhT, RPhT, ED Lead Pharmacy Technician III, Florida Hospital Tampa, Tampa, FL

**Technician Objectives:**
- Define components of the admission medication reconciliation.
- Explain the importance of accurate home medication history documentation.
- Recognize potential barriers in the home medication history documentation process.
- Identify opportunities for pharmacy technicians in the admission medication reconciliation process.

4:45-5:45pm 1.0 hour (Tech) ACPE UAN 0163-0000-16—184-L04-T

**Hazardous Materials**
Kathleen A Moorman, BS, Pharm.D., CPh, Pharmacy Director, Florida Hospital Carrollwood, Tampa FL

**Technician Objectives:**
- Labeling requirements of hazardous chemicals and drugs.
- Describe how to handle hazardous drugs (HDs) and chemicals.
- Explain the use of Safety Data Sheets (SDSs).
- Review the Resource Conservation and Recovery Act (RCRA) and RCRA Waste.
- Summarize guidelines for safe handling of hazardous drugs.

Programming that is accredited for pharmacy technicians has been indicated with ‘Tech’ or –T designation.

The Technician Track was developed as Technician–Specific continuing education, only accredited for Pharmacy Technicians.
INFECTIONOUS DISEASES TRACK 3.0 HOURS OF C.E.

Room: Crystal Ballroom DE  Moderator: Calvin Tucker, Pharm.D.
2:00-3:00pm  1.0 hour (GCE/CRC/Tech) ACPE UAN 0163-0000-16-166-L01-P and 0163-0000-16-166-L01-T

**Antibiotic Stewardship: Making the Plan a Reality**
Shauna Jacobson, Pharm.D., Clinical Pharmacy Specialist, Infectious Diseases, Orlando Regional Medical Center; Orlando, FL

**Pharmacist and Technician Objectives:**
- Discuss basic strategies of antibiotic stewardship strategies.
- Describe the importance multidisciplinary approach and member roles of the stewardship team.
- Explain strategies and challenges of stewardship implementation.

3:00-4:00pm  1.0 hour (GCE/CRC/Tech) ACPE UAN 0163-0000-16-167-L01-P and 0163-0000-16-167-L01-T

**New and Emerging Treatment Options for Hepatitis C**
Jacqueline Byrd, Pharm.D., BCPS, AAHIVP, Clinical Pharmacy Specialist in Infectious Diseases, Orlando VMAC, Orlando FL

**Pharmacist and Technician Objectives:**
- Review the etiology and epidemiology of Hepatitis C Virus (HCV) infection.
- Describe the natural history/pathophysiology of HCV.
- Evaluate Hepatitis C treatment guidelines.
- Discuss current controversies with Hepatitis C treatment.
- Review new and developing treatments for Hepatitis C.

4:00-4:15pm  BREAK

4:15-5:15pm  1.0 hour (GCE/CRC/Tech) ACPE UAN 0163-0000-16-168-L02-P and 0163-0000-16-168-L02-T

**New and Experimental HIV Drugs and Treatments**
Nafeesa Beckford, Pharm.D., Clinical Hospital Pharmacist, Clinical Immunology, Pharmacy Services, Jackson Memorial Hospital, Miami, FL
Jessica Cobian, Pharm.D., Infectious Diseases Clinical Pharmacist, Lakeland Regional Health, Lakeland, FL

**Pharmacist and Technician Objectives:**
- Review newly approved drugs for the treatment of HIV/AIDS and their place in therapy.
- Describe the new developments for pre-exposure prophylaxis (PrEP).
- Discuss investigational agents for the management of HIV/AIDS.

INFORMATION TECHNOLOGY TRACK 3.0 HOURS OF C.E.

Room: Atlantis  Moderator: Amy Rosenberg, Pharm.D.
2:00-3:00pm  1.0 hour (GCE/CRC) ACPE UAN 0163-0000-16-169-L04-P

**Developing an Informatics Learning Experience for Learners**
Sean Park, Pharm.D., Manager, Pharmacy Informatics, Baptist Health, Jacksonville, FL

**Pharmacist Objectives:**
- Review the timeline of a traditional, observational pharmacy informatics rotation and identify pros/cons to this student experience model.
- Describe how to model a more interactive and hands on pharmacy informatics rotation for APPE students.
- Identify operational knowledge gaps APPE students have which contributes to a steeper learning curve for informatics rotations and discuss how these gaps could be minimized.

**Using Technology in Sterile Compounding**
Alex Holmes, Pharm.D., Informatics Pharmacist, Baptist Health, Jacksonville, FL

**Pharmacist Objectives:**
- Describe how the use of technology in sterile compounding impact the pharmacy efficiency.
- List reasons a technology–aided checking system is superior to a manual checking system during sterile product preparation.
- Identify examples of technology–aided checking systems enhancing medication safety during sterile product preparation.

3:00-4:00pm  1.0 hour (GCE/CRC) ACPE UAN 0163-0000-16-170-L04-P

**Clinical Decision Support Development and Maintenance within Electronic Medical Records**
Christina Robinson, Pharm.D., Pharmacy IS Coordinator, Orlando Health, Orlando FL

**Pharmacist Objectives:**
- Describe the process for development and implementation of evidence based electronic order sets.
- Illustrate the process for development and implementation of rules based alerts and clinical decision support tools.
- Construct examples of a process for maintaining and evaluating the effectiveness of these tools in the electronic medical record.

4:00-4:15pm  BREAK
**PAIN MANAGEMENT/PALLIATIVE CARE TRACK 3.0 HOURS OF C.E.**

**Medical Marijuana**
Anthony Pazanese, Pharm.D., Clinical Pharmacy Specialist, Lakeland Regional Health, Lakeland, FL

**Pharmacist Objectives:**
- Describe the current legal status of medical marijuana with respect to indica strains for patients with pain or other palliative care symptoms.
- Discuss the current evidence base for the use of medical marijuana for patients with pain or other palliative care symptoms.

**Palliation of Opioid-Induced Constipation: What’s New?**
Shelley Spradley, Pharm.D., BCPS, Clinical Pharmacy Specialist-Pain Management and Palliative Care, North Florida/South Georgia Veterans Health System, Gainesville, FL

**Pharmacist Objectives:**
- Review the incidence and impact of opioid-induced constipation (OIC).
- Discuss the available treatment options for OIC with an emphasis on pathophysiology.
- Devise a therapeutic plan to incorporate new pharmacologic agents for refractory constipation.

**Panel-Opioid Dose Conversions**
Joseph Cammilleri, Pharm.D., Clinical Pharmacist, UF Health, Jacksonville, FL

**Pharmacist Objectives:**
- Review opioid rotations.
- Discuss incomplete cross tolerance.
- Evaluate equianalgesia opioid conversion tables.
- Demonstrate ability to perform opioid equianalgesic conversions in given cases.

**Panel-Opioid Tapers**
Robin Moorman-Li, Pharm.D., Clinical Assistant Professor/Assistant Director Jacksonville Campus, University of Florida College of Pharmacy, Jacksonville, FL

**Pharmacist Objectives:**
- List indications for tapering opioids.
- Develop a patient-specific taper regimen in a chronic pain management setting.
- Describe common opioid withdrawal symptoms and provide common pharmacological interventions for management of these symptoms.

**Pain Stewardship and Pharmacist’s Role in HCAHPS**
Dave Craig, Pharm.D., Clinical Pharmacist Specialist, H. Lee Moffitt Cancer Center, Tampa, FL

**Pharmacist Objectives:**
- Discuss the HCAHPS process and the impact this has on pharmacy services.
- Describe techniques related to pain management that may be useful for pharmacists to improve patient care and achieve better HCAHPS outcomes.
- Explain various patient related variables that can influence or improve pain related outcomes.
- Summarize important opioid monitoring tools (capnography, pulse oximetry) that can improve the safety of opioids in hospitalized patients.
- Review how the Florida Prescription Drug Monitoring Program (E-FORCSE) can be used to improve hospitalized patient safety.
A SYSTEMATIC APPROACH TO EVALUATION AND PREVENTION (MEDICATION ERRORS)  
**Pharmacist Objectives:**
- Define the relationship between medication errors and adverse drug events.
- Describe the impact medication errors have on patient safety and health care systems.
- Categorize medication errors by common causes and severity.
- Compare and contrast how Continuous Quality Improvement, Failure Mode and Effects Analysis (FMEA) and Root Cause Analysis (RCA) impact medication errors.
- Identify strategies and technologies to enhance patient safety and prevent medication errors in pharmacy practice.
- Apply ‘Just Culture’ principles to evaluate systems, people, and behavioral motives involved in a medication error.

**Technician Objectives:**
- Define the relationship between medication errors and adverse drug events.
- Describe the impact medication errors have on patient safety and health care systems.
- Recognize common causes and types of medication errors.
- Explain how Continuous Quality Improvement, Failure Mode and Effects Analysis (FMEA) and Root Cause Analysis (RCA) impact medication errors.
- Identify strategies and technologies to enhance patient safety and prevent medication errors in pharmacy practice.
- Review the ‘Just Culture’ principles and how they are used to evaluate systems, people, and behavioral motives involved in a medication error.

9:00-9:15am  
**Help us congratulate the incoming FSHP President and Board Members!**

GOLDEN CHALLENGES...GOLDEN SUCCESSES TRACK 3.0 HOURS OF C.E.  
*Track color code:***

9:15-10:15am  
**FSHP FIRST ANNUAL BEST PRACTICE SHOWCASE**  
*The Stewardship Score*
Kathryn DeSear, Pharm.D., BCPS, AAHIVP, Corporate Antimicrobial Stewardship Manager, Community Health Systems, Gainesville, FL

**Pharmacist and Technician Objectives:**
- Summarize the importance of antimicrobial stewardship in the modern hospital landscape.
- Model a new metric to demonstrate efforts to improve the robustness of an antimicrobial stewardship program.

**Development of a Student-Led Ambulatory Medication Reconciliation (SLAMR) Program**
Aimon Miranda, Pharm.D., BCPS, Assistant Professor, University of South Florida, College of Pharmacy, Tampa, FL
Jaclyn Cole, Pharm.D., Assistant Professor, University of South Florida, College of Pharmacy, Tampa, FL

**Pharmacist and Technician Objectives:**
- Describe the goals, logistics, and data monitoring for the Student-Led Ambulatory Care Medication Reconciliation (SLAMR) Project.
- Evaluate the benefit of such a program for enhanced interdisciplinary patient care.

10:15-10:30am  
**BREAK**

10:30am-12:30pm  
**Standards of Practice for the Dispensing of Controlled Substances for Treatment of Pain**
Mark Mikhael, Pharm.D., Vice President of Operations, Pro Health Medical, Orlando FL
Norman Tomaka, BSPharm, MS, FAPhA, Clinical Consultant Pharmacist, Health First, Inc., Consultant Pharmacy Services, Melbourne, FL

**Pharmacist and Technician Objectives:**
- Discuss the requirements under 64816-27.831 of the Florida Administrative Code.
- Review differences between a “valid” vs. “invalid” prescription order for pain management.
- List three processes that foster regulatory compliance when validating a prescription order.
- Discuss practices that foster regulatory compliance when there is suspicion of controlled substances diversion.
- Outline characteristics that promote regulatory compliance in processing electronic prescription orders as per Federal Law and section 456.42(2), of the Florida Statutes.
