NEW YORK EVENTS

Fintech is clearly embedded in all aspects of the financial services industry. Advancements in artificial intelligence (AI) and cyber have enabled the fintech industry to advance more rapidly. We have come a long way from when innovation begun with the first ATM! From currency trading to mobile payments, online banking to insurance, regular way lending to marketplace lending. The FWA's International Business Conference will take place in Israel in February 2020 where we will see first-hand the degree of tech dynamism and disruption in a number of sectors, but certainly in the FINTECH arena.

Inon Elroy
Economic Minister to
North America
Government of Israel

Please join us for this exciting and timely introduction to companies and developments that are transforming the financial services industry globally! Israel is a center of FINTECH innovation and New York is also growing as a hub in this space. This program in New York will introduce us to some of the Israeli-based companies who are making an impact here in the US. We are honored to be joined by Inon Elroy, the Israeli Minister of Economics for North America, who will present an overview of the state of the industry. In addition, we will hear from two fast growing, high performing fintech firms.
