INTERNATIONAL WOMEN'S DAY - MARCH 8, 2020

International Women's Day is less than 3 days away. It is a day of celebration where we remember what women all over the world have done in pursuit of equality for all and honor those who have broken the glass ceiling.

As we celebrate this global day, we must acknowledge the 8 founding women of the Financial Women's Association who through adversity and with perseverance paved the way for women leaders in finance.

On Sunday, March 8th, International Women's Day, choose to be #EachforEqual by donating to a women's organization like the FWA, support a woman-owned business, become a mentor in our high school/college Mentoring programs, or volunteer your time to teach in our financial literacy program. Collectively, we can make a difference and we need your support.

Getting Personal: Responsibility of Boards for Executive Behavior

In the current corporate climate, there is a heightened focus on executive behavior, paired with a sense that inappropriate behavior by an executive—even when not directly related to the business of the company—should be policed by the company.

Come hear our expert panel of directors, executives, and advisory experts moderated by Audry X. Casusol of Sidley on how other professionals are dealing with these challenges.

Panelists to be announced shortly.
