Definition of Dues Payable to the NPTA Alliance

Dues Calculation

Your Association collects dues based on your annual sales volume as reported by you. Use the Dues Schedule to look up your volume category. The dues amounts associated with that category is your Headquarters Office dues.

Sales Volume Calculation

The Association uses Dun & Bradstreet information, when available, to present to members to aid in their dues calculation when discrepancies are found. Members are asked to sign their dues invoices to indicate that their dues calculation accurately reflects their sales volume. The Association reserves the right to discuss, in confidence, members' sales volumes and dues calculations with them in order to determine proper dues assessment. The Association keeps sales volume and dues information strictly confidential.

Exclusionary Sales Volume

The Association realizes that some of its members have sales activities that may not be in printing paper distribution. These sales volume dollars may be excluded when calculating Association dues.

Changes in Member Status

From time to time, there is a change in a company's member status: member companies are acquired, change ownership, join or leave marketing groups, etc. The NPTA Board of Directors, ever aware of industry dynamics, passed a resolution to help clarify how such changes impact the Association's membership dues.

1. Association dues are calculated on an annual basis, in October of the current year, covering the following year (known as the "Association Year": January 1 – December 31.) This self-assessment by member companies assumes that their company size, sales volume and number of locations will remain constant for the next Association Year. The NPTA Board knows that changes do take place but, for convenience of the members, the Association does not ask members to recalculate their dues during that 12-month period between dues invoices. [Dues payments are required within 90 days from the date of the dues mailing.]
2. If a member company is purchased by another member company at any time during the Association Year, the acquiring company is asked to continue paying the dues for the acquired company for the next Association Year. After that time, the acquired company becomes a part of the parent, and the parent pays the collected dues based on the aggregate sales volume and total number of locations for the combined entity.
3. When a freestanding Association member company joins a marketing group, buying group or other strategic alliance organization that holds membership in the NPTA, that company's dues are to be paid by the company (in addition to the group's dues) for the next Association Year. After that time, the company becomes part of the marketing group (from a dues point of view) and the group then pays dues based on its aggregate sales volume and total number of locations.

Example: A member company purchases another member company in June. Both companies have already paid their NPTA dues for the year and are members in good standing for that Association Year. For the following Association Year, both dues payments are requested. After that, the two companies may be combined into one dues entity. The same is true for a member company joining a marketing group, buying group or other strategic alliance organization that holds membership in the Association.
