

**CARDINAL COMEBACK // The Virginia Beer Company** had to quickly make the transition to curbside service during the initial weeks of the shutdown before being able to reopen their outdoor beer garden. From there, the brewery began to offer free beer and advertisement to local musicians via online streaming, created several new Pride themed drinks, and participated in the Black is Beautiful Beer Initiative. Today, as part of our CARDINAL COMEBACK series recognizing inspiring efforts by businesses to COME BACK after COVID-19, we salute **Virginia Beer Company!**
