Session Title: Managing Estate Creditors in a Wrongful Death Action

Session Description:

David and his son will provide an overview of the best practices when handling an estate that includes proceeds from a wrongful death action. They will provide tips on proper procedure and how manage clients.

They will elaborate on different types of damages provided under the wrongful death statute and how to manage the various types of creditor one may face when administering the estate. This will include dealing with Medicaid as a creditor.

Finally, they will cover various methods available to provide the maximum benefit for your client including apportionment agreements, structured settlements, and special needs trust.
