The Voluntary Bar Liaison Committee invites you to a webinar training workshop series designed to strengthen your leadership, management and technical skills. Throughout the year, webinar workshops on a wide variety of topics will be conducted by presenters from the rescheduled 2020 Voluntary Bar Leaders Conference.

Dynamic, knowledgeable, and engaging speakers will be streamed live through GOTOMEETINGS, providing the opportunity for participants to interact with the presenters and give, receive and discuss information in real time.

For a voluntary bar association, providing services to your members is paramount. It's also important and can be instrumental in enhancing your non-dues income and improving your financial bottom-line. This webinar is designed to help you know the who and what and where and how.

Whether you are putting on a webinar, offering an online course or planning a luncheon, your members want to know how many CLE credits they will earn. How do you know if your program is even eligible for accreditation? And what about ethics? Professionalism? Technology? Mental Health? What determines what qualifies? How is it sorted out? Join us for this informative webinar!
