PHILIPS

PHILIPS SEMINARS

Limited to 25 seats. Free to attend. See Philips booth to book your seat.

Building a nursing informatics career

Wednesday 20 November
\ 4pm to 4.40pm

Room 12

Presented by Diane James, Clinical Lead TASY EMR, Philips

Nurses are key members of the informatics community to drive clinically relevant change. Hear how some of our nurse informaticists have grown along differing pathways to deliver meaningful clinical change

Digital generations: moving from technical innovation to clinical and operational innovation

Wednesday 20 November
\ 4.50pm to 5.30pm

Room 12

Presented by Dan Ball Business Lead TASY EMR, Philips

The health industry has a great spirit of innovation to bring data to the front line of care and made available, but the drive to technical innovation has left gaps with the ability to deliver real service and clinical innovation as fast as it could be. In this sessions we discuss the generations of EHR technologies and the innovation waves they enable

VIP Breakfast - The executive decision journey to centralised EMR digitalisation

Thursday 21 November
\ 7am to 8.30am

Room 6 upstairs

Light breakfast available to attendees from 7am
Please RSVP to registration desk

Presented by Keith Muller, Chief Financial Officer, St. Andrew's Toowoomba Hospital, Australia

An exclusive VIP meeting where Keith Muller, a hospital CFO, will be walking through the decision to digitise its hospital's full clinical and business workflows with a major transformation. What are the key items to ensure you get right on this journey, and how can you hope to drive real world ROI?

UI not eww why? Driving value through design

Thursday 21 November
\ 8.40am to 9.20am

Room 12

Presented by Dan Ball, Business Lead TASY EMR, Philips

Digital patient records often fall short on user experience — but at what point is it form over function? Discover how an award winning design can deliver better data and workflow.

Real world design in action. See an award winning reEMR delivering true clinical enablement

Thursday 21 November
\ 9.20am to 9.40am

Room 12

Presented by Diane James, Clinical Lead TASY EMR, Philips

Many systems claim to be user centric however few really deliver. This is a walkthrough of award winning user design in action showing true clinical enablement.

Why build new hospitals: Improving your hospital's capacity through clinical and operational command centres

Thursday 21 November
\ 9.50am to 10.30am

Room 12

Presented by Joe Cain, Business Manager Population Health, Philips

An opportunity to discover the three solutions that support hospitals better manage capacity constraints through command centre solutions designed to reduce admissions, improve patient flow and reduce risk of deterioration in and outside the hospital.

The myth of efficiency: sources of digital waste

Thursday 21 November
\ 11am to 11.40am

Room 12

Presented by Keith Muller, Chief Financial Officer, St. Andrew's Toowoomba Hospital, Australia

The case for moving to a fully digitised hospital environment from a CFO perspective. How digital transformation can assist hospitals to provision services in a quality & efficient manner.

Tackling the challenge of your highest need chronic disease patients: how to improve their wellbeing and reduce hospital admissions

Thursday 21 November
\ 11.50am to 12.20pm

Room 12

Presented by Joe Cain, Business Manager Population Health, Philips

In this session hear more about the outcomes, remote support methodologies and future growth of the MeCare Program: A successful chronic ambulatory care program in Queensland, Australia that supports 200+ of the most chronic, complex-disease patients in their homes.

The myth of efficiency: sources of digital waste

Thursday 21 November
\ 2pm to 2.40pm

Room 12

Presented by Keith Muller, Chief Financial Officer, St. Andrew's Toowoomba Hospital, Australia

Hear the lived experience from a hospital CFO on what truly drives a hospital's technology costs, the current challenges and why digital transformation is required. Join this lively Q&A session.

The I of Intelligence in AI and its beneficiary

Thursday 21 November
\ 2.40pm to 3pm

Room 12

Presented by Amit Guha Roy, Business Manager Health Informatics New Zealand, Philips

Recognising the I in intelligent technology today, join this session to explore how you can better understand, learn and benefit from intelligence in a hospital context and contribute to advancements in your health system.

Creating capacity without adding beds: Making patient flow work with Teletracking Capacity Command Centres

Thursday 21 November
\ 3pm to 3.30pm

Room 12

Presented by Joe Cain, Business Manager Population Health, Philips

Learn more how these NHS and USA high occupancy hospital have created bed capacity, improved access and reduced waiting times driven by Teletracking's Capacity Command Centres.

Virtual Hospitals: Leveraging scarce clinical resources and data analytics to reduce deterioration and improve patient throughput

Thursday 21 November
\ 4pm to 4.30pm

Room 12

Presented by Joe Cain, Business Manager Population Health, Philips

What are some of the successful hub-and-spoke clinical support models used to reduced complications and deterioration? Learn how over 500 hospitals in the USA, Japan and Australia do it to reduce patient deterioration and improve patient flow in critical care settings.

An overview of Hack Aotearoa: New Zealand's AI in Healthcare Conference and Datathon

Friday 22 November
\ 10am to 10.40am

Room 12

Presented by Dr Mataroria Lyndon, Senior Lecturer, Centre for Medical and Health Sciences Education, School of Medicine The University of Auckland; Equity Lead, Mahitahi Hauora

The Faculty of Medical and Health Sciences at the University of Auckland, in partnership with Philips, Massachusetts Institute of Technology (MIT) Critical Data, and ACC, are pleased to present NZ's first Health Datathon and its implications of medical/data cross-disciplinary knowledge exchange to solve problems.

Q&A and Roundtable with partners and sponsors:

Discussion and answering any questions regarding Hack Aotearoa delivery. Incorporation of ideas to maximise impact

Friday 22 November
\ 10.40am to 11am

Room 12

Hosted by Faculty of Medical and Health Sciences at the University of Auckland

Future of New Zealand Digital Health discussion: How can we further catalyse New Zealand's digital health system beyond HACK Aotearoa?

Seminars & Meetings

MICROSOFT SEMINARS

Limited to 40 seats. Free to attend. See Microsoft booth to book your seat.

Immersion technology & "Digital Twins"

Thursday 21 November
\ 9.10am to 10am

Friday 22 November
\ 9am to 10am

Room 13

Presented by Chimene Bonhomme, Cloud Solution Architect, Microsoft & Nicholas Cater, Data & AI Specialist, Microsoft

Using data and artificial intelligence to foster a more integrated health system for New Zealand. We will also explore how technology used in the construction sector, can benefit the health system.

Tired of inbox overload? There is a smarter way to collaborate

Thursday 21 November
\ 10am to 10.30am

Friday 22 November
\ 11am to 11.30am

Room 13

Presented by Michelle Arthars, Customer Success Manager, Microsoft

In this session we will see how Microsoft Teams can help with those everyday tasks in a more dynamic and engaging way to save you time and make you feel more connected.

Easily build your own apps and business workflows without coding

Thursday 21 November
\ 11am to 11.40am

Room 13

Presented by Jian Sun, Technical Specialist, Microsoft

Learn how to use the power of the Microsoft Office 365 platform, utilising PowerApps and Flow, to automate business workflows and create your own mobile and web apps.

Cloud based Identity - Significantly improve user security

Thursday 21 November
\ 11.40am to 12.20pm

Room 13

Presented by Andrew Kosmadakis, Security Solution Specialist, Microsoft

What is cloud based identity? How does it relate to organisations and bring solutions that allow you to scale, reduce infrastructure deployment and management while also using it to significantly increase security.

Whanganui DHB and Microsoft - What have we achieved together?

Thursday 21 November
\ 2.30pm to 3.30pm

Room 13

Presented by Alex McLeod, ICT SDM, Whanganui DHB & Cliff Bateman, Solution Specialist, Microsoft

Alex will describe how Microsoft technologies are making a difference at WDHB, the future plans to deliver better and more cost effective services and how to get the best out of working with Microsoft.

Citrix & Microsoft - Modern shared clinical workstation in 2019

Thursday 21 November
\ 4pm to 5pm

Room 13

Presented by Scot Fordham, Solution Specialist, Citrix & Gavin Bennett, Technology Strategist, Microsoft

Come and listen to Microsoft & Citrix talk about the best practise options for optimal performance for deploying Office 365 and Teams within a modern Citrix clinical desktop.

NZHIT AGM

Wednesday 20 November
\ 11.45am to 12.30pm

Room 4

NZHIT members only

Managers and staff of current financial NZHIT member organisations are invited to attend the NZHIT AGM. The results of the board election will be announced along with the audited financial statement and an overview of NZHIT's objectives for the year ahead. To check if your organisation is a current NZHIT financial member please contact info@nzhit.nz.

VIP Breakfast - The executive decision journey to centralised EMR digitalisation

Thursday 21 November
\ 7am to 8.30am

Room 6 upstairs

Light breakfast available to attendees from 7am

Please RSVP to registration desk

Presented by Keith Muller, Chief Financial Officer, St. Andrew's Toowoomba Hospital, Australia

An exclusive VIP meeting where Keith Muller, a hospital CFO, will be walking through the decision to digitise its hospital's full clinical and business workflows with a major transformation. What are the key items to ensure you get right on this journey, and how can you hope to drive real world ROI?

VITRO SOFTWARE BREAKFAST

Thursday 21 November
\ 7.30am to 8.30am

Room 9

All welcome

Light breakfast available to attendees from 7.30am

Please RSVP to registration desk

The journey to a digital hospital at St George's Christchurch

Presented by Erin Bensley, Informatics Nurse Specialist, St George's Hospital (Christchurch)

Erin Bensley returns to speak about the St George's Hospital Digital transformation journey one year on. Last year St George's had just embarked on the co-development of a Digital Medical Record in conjunction with Vitro Software. Erin will share where they are now, the approach taken to the co-design process, implementation and clinical engagement, as well as some of the lessons learnt along the way. Join us for breakfast to hear Erin, and take the opportunity to join the Q+A.

TUNSTALL BREAKFAST

Thursday 21 November
\ 7.30am to 8.30am

Room 10

All welcome

Light breakfast available to attendees from 7.30am

Please RSVP to registration desk

Smart Home Care Technology - Social inclusion solution

Presented by Lisa Capamagian, Marketing & Propositions Manager, and Angela Stocks, Key Account Manager, Tunstall Healthcare

Smart homes are created by combining connected care and health devices to support people to live independently with the flexibility to customise as per client's needs. Smart home technology improves access to care, helps to eradicate isolation and improves outcomes for people who use it. Smart home technology is a connected home which will ensure personal safety through sensors and ICP Triage Manager. It can be voice controlled, automated, has video conference capabilities and is user friendly, through which the care recipient can maintain their independence. Through secure real-time applications, even family and friends can participate in the monitoring and be up to date about the user's wellbeing. With 24/7 round the clock monitoring and activity sensors, the client can receive immediate assistance from anywhere in their home. The aim is to provide solutions that assist people to maintain their independence.

WOMEN IN HEALTH TECH BREAKFAST

Thursday 21 November
\ 7.15am to 8.30am

Room 7

All welcome
Light breakfast available to
attendees from 7.15am
Please RSVP to registration desk

Strengthening Inclusion and Diversity in the Health Technology Sector

Presentations by Nikki Dines,
Air New Zealand & Daniel Chee,
Deloitte

Join us for breakfast to hear from
industry leaders, Air New Zealand
and Deloitte on how to enhance
positivity, productivity and
performance in your healthcare
workplace.

Having a D&I strategy is only the
start. Take part in this interactive
session where our speakers will
share learnings and strategies
on how to create organisational
cultures where individuals can
thrive personally and professionally.
Diversity is now recognised as
a commercial imperative for all
organisations. Come join us as we
strive to enable a healthier NZ,
proudly brought to you by Women
in HealthTech.

HINZ AGM

Thursday 21 November
\ 7.30am to 8.30am

Room 8

HiNZ members only
Light breakfast available to AGM
attendees from 7.30am

Current financial HiNZ members
are invited to attend the HiNZ
AGM. The results of the board
election will be announced along
with the financial statement and
the board chair report.

To check if you are a current HiNZ
member please email Gloria at
admin@hinz.org.nz

ALLSCRIPTS LUNCH

Thursday 21 November
\ 12.30pm to 1.30pm

Room 10

Light lunch available to
attendees from 12.30pm
Please RSVP to registration desk

Rapid Development and Integration of Custom Clinical Analytics Dashboard in the EMR

Presented by Vinay Vaidya, MD-
CMIO, Phoenix Children's Hospital,
USA

Dr. Vinay Vaidya's insightful
presentation will focus on the
advantages of integrating
clinical analytics dashboards into
electronic medical record systems.
The session will illustrate various
dashboards and their associated
benefits. Additionally, it will offer
practical guidance on an effective
approach for deploying dashboards
based on the real-world experience
of the Chief Medical Information
Office at Phoenix Children's
Hospital in Phoenix, Arizona, USA.

Social

WELCOME FUNCTION

Wednesday 20 November
\ 5.30pm to 7.30pm

Exhibition Hall

All welcome

Drinks and canapes will be served in
the exhibition hall at the conclusion
of plenary sessions on Wednesday.
This is your first chance to see the
120 exhibition booths and network
with peers.

**Our thanks to Medtech Global.
Their sponsorship makes this
networking event possible.**

NETWORKING DINNER

Thursday 21 November
\ 6pm to 10pm

Hobbiton

Access by ticket only
Dress code is casual

This year's dinner is at the world-
famous Hobbiton in Matamata. If
you booked a ticket you would have
been given it when you collected
your name badge. (To buy a dinner
ticket or check whether you are
on the dinner list, please see the
registration desk.)

Coaches leave Claudelands every
10 minutes between 5pm and 6pm.
Coaches leave Hobbiton to return
to Claudelands and local hotels
between 10pm and 11pm.

The Claudelands conference venue
car park is locked overnight. If
you leave a car at Claudelands

you won't have access to it after
the dinner, unless you move it
to a surrounding street before
departing on the coach to
Hobbiton.

If you want to self-drive you MUST
book this in advance with the
registration desk. Please see them
for instructions.

On arrival at Hobbiton you will
experience a fun movie set tour in
small groups with Hobbiton guides
followed by a magnificent feast, fit
for a hobbit, set in the picturesque
Hobbiton village.

There are no speeches or
formalities. Enjoy four fantastic
hours of networking — catch up
with old friends and make new
ones! Dress code is casual (or
hobbit friendly if you feel like
getting into costume).

**Our thanks to Microsoft.
Their sponsorship makes this
networking event possible.**
