

Annual Meeting
April 28-29, 2018
Kapiolani Community College - Ohia Dining Hall
Honolulu, Hawaii

Target Audience:

The target audiences are pharmacists and pharmacy technicians.

Schedule:

Saturday, April 28, 2018 Moderator: Patrick Uyemoto, PharmD, President, Hawaii Pharmacists Association (HPhA)		
7:15 am – 7:30 am	Exhibitor Move-in, Poster set up	
7:30 am – 8:30 am	Registration, Continental Breakfast, Exhibits Open, Poster session open	
8:30 am - 8:45 am	Welcome and Opening Remarks - Patrick Uyemoto, PharmD, President, HPhA	
8:45 am – 9:45 am	Pharmacy Resident Presentations	
(0.25 contact hours)	<p>Resident Gay Antonette Subia, PharmD PGY1 resident, Queen's Medical Center, Honolulu, HI</p> <p><u>Safety of Continued Midodrine Use in Patients Post-Septic Shock</u></p> <p>This is a knowledge based continuing education activity 0516-9999-18-005-L01-P 0516-9999-18-005-L01-T</p>	<p>Pharmacist Objectives:</p> <ul style="list-style-type: none"> Assess the rates of adverse effects associated with midodrine use Review current literature on the use of midodrine for septic shock Evaluate the impact of midodrine use on the treatment of patients with septic shock <p>Pharmacy Technician Objectives:</p> <ul style="list-style-type: none"> Recognize the indications and doses of midodrine
(0.25 contact hours)	<p>Resident Zi Yang Zhang, PharmD PGY1 resident, Queen's Medical Center, Honolulu, HI</p> <p><u>Risk Factors for Hypoglycemia in Hospitalized Patients Without Diabetes</u></p> <p>This is a knowledge based continuing education activity 0516-9999-18-006-L01-P 0516-9999-18-006-L01-T</p>	<p>Pharmacist Objectives:</p> <ul style="list-style-type: none"> Discuss the consequence of hypoglycemia in non-diabetic hospitalized patients Identify association between risk factors and hypoglycemia event in non-diabetic patient during hospitalization <p>Pharmacy Technician Objectives:</p> <ul style="list-style-type: none"> Discuss the prevalence of hypoglycemia in non-diabetic patients Identify association between risk factors and hypoglycemia event in non-diabetic patient during hospitalization
(0.25 contact hours)	<p>Resident Kristine Luong, PharmD PGY2 resident, Queen's Medical Center/ University of Hawaii at Hilo Daniel K Inouye College of Pharmacy (DKICP) Honolulu, HI</p> <p><u>Early Venous Thromboembolism Prophylaxis in TBI patients</u></p> <p>This is a knowledge based continuing education activity 0516-9999-18-007-L01-P 0516-9999-18-007-L01-T</p>	<p>Pharmacist Objectives:</p> <ul style="list-style-type: none"> Describe chemoprophylaxis in the setting of brain injury Discuss the appropriate timing of chemoprophylaxis after brain injury Illustrate the benefits of early chemoprophylaxis after brain injury <p>Pharmacy Technician Objectives:</p> <ul style="list-style-type: none"> Recognize different chemoprophylaxis medications List potential adverse events of chemoprophylaxis in the setting of brain injury
9:45 - 10:45 am (1.0 contact hours)	<p>SPEAKER 1- Chad Kawakami, PharmD, BCPS University of Hawaii at Hilo Daniel K Inouye College of Pharmacy, Hilo, HI</p> <p><u>Update on Parkinson's Disease</u></p> <p>This is a knowledge based continuing education activity 0516-9999-18-008-L01-P 0516-9999-18-008-L01-T</p>	<p>Pharmacist Objectives:</p> <ul style="list-style-type: none"> Explain the basic pathophysiologic mechanisms responsible for the motor features of Parkinson's Disease (PD) Recall the different pharmacologic treatment options for the management of PD Explain the clinical features of Parkinson's Disease Psychosis (PDP) and understand the underlying pathophysiology Differentiate how PDP differs from psychotic symptoms associated with other conditions such as, delirium, schizophrenia, bipolar disorder, and psychotic depression. Compare the different management strategies for patients with PDP Utilize the pharmacologic, adverse effect, and efficacy information, select an appropriate pharmacologic treatment option for patients with PDP <p>Pharmacy Technician Objectives:</p> <ul style="list-style-type: none"> Associate brand and generic names of the pharmaceutical treatment options for PDP Explain the dosing, availability, route of administration of the available treatment options for PDP Explain the special procurement process for obtaining and ordering pimavanserin.
10:45 - 11:15 am	Break, Exhibitors, Poster session	
11:15 – 11:55 am	Pharmacy Resident Presentations	

(0.25 contact hours)	<p>Resident Nadine So, PharmD PGY1 resident, UH Hilo Daniel K. Inouye College of Pharmacy, Hilo, HI</p> <p><u>Vancomycin Trough Levels and Outcomes in Patients with Pneumonia</u></p> <p>This is a knowledge based continuing education activity 0516-9999-18-009-L01-P 0516-9999-18-009-L01-T</p>	<p>Pharmacist Objectives:</p> <ul style="list-style-type: none"> Discuss the current evidence regarding outcomes associated with achieving specific vancomycin trough levels Evaluate compliance with achieving vancomycin trough levels of 15 – 20 mg/L for patients with pneumonia <p>Pharmacy Technician Objectives:</p> <ul style="list-style-type: none"> Explain the role of vancomycin treatment in patients with pneumonia
(0.25 contact hours)	<p>Resident Kelsea Mizusawa, PharmD PGY1 resident, UH Hilo Daniel K. Inouye College of Pharmacy Hilo, HI</p> <p><u>Pain Control and Safe Opioid Use</u></p> <p>This is a knowledge based continuing education activity 0516-9999-18-010-L01-P 0516-9999-18-010-L01-T</p>	<p>Pharmacist Objectives:</p> <ul style="list-style-type: none"> Recognize the rate of opioid use and opioid-related fatalities in Hawaii Describe how pharmacy technicians can assist in mitigating the risks of opioid therapy <p>Pharmacy Technician Objectives:</p> <ul style="list-style-type: none"> Design an approach for initiating opioid therapy in patients with acute pain Identify strategies that pharmacists may use to support pain control and safe opioid use
12:00 pm – 1:30 pm	Buffet Lunch, Exhibitors, Poster session and Round table discussion	
1:30 pm – 2:30 pm (1.0 contact hours)	<p>Speaker 2-Lara Gomez, PharmD, University of Hawaii at Hilo Daniel K Inouye College of Pharmacy, Hilo, HI</p> <p><u>Precepting Students and Coworker Tips</u></p> <p>This is an application based continuing education activity 0516-9999-18-011-L04-P 0516-9999-18-011-L04-T</p>	<p>Pharmacist Objectives:</p> <ul style="list-style-type: none"> Develop a precepting plan to assist in creating a positive experience Analyze case scenarios pertaining to precepting <p>Pharmacy Technician Objectives:</p> <ul style="list-style-type: none"> Utilize effective listening and feedback skills when working with learners Identify nonverbal gestures which can affect learning environment and effective communication.
2:30 pm – 3:00 pm	Break, Exhibitors and Poster session	
3:00 pm – 4:00 pm (1.0 contact hours)	<p>Speaker 3- Kara Izumi, BCPS, BCNSP, BCCCP, Queen's Medical Center, Honolulu, HI</p> <p><u>Specialized Nutritional Support in Hospitalized Patients: Optimizing Parenteral Nutrition</u></p> <p>This is a application based continuing education activity 0516-9999-18-012-L05-P 0516-9999-18-012-L05-T</p>	<p>Pharmacist Objectives:</p> <ul style="list-style-type: none"> Define appropriate indications for parenteral nutrition in the hospitalized patient Employ knowledge of parenteral nutrition components to formulate patient-specific TPN Design a nutrition plan and evaluate the patient's progress <p>Pharmacy Technician Objectives:</p> <ul style="list-style-type: none"> List appropriate order of electrolytes to be added to the TPN and explain the reason for the order. Demonstrate the potential hazards of precipitation and recognize associated risks
4:00 pm – 5:00 pm (1.0 contact hours)	<p>Speaker 4-Jared Redulla, State of Hawaii Narcotics Enforcement Division, Honolulu, HI</p> <p><u>Keeping your Pharmacy Safe</u></p> <p>This is a knowledge based continuing education activity 0516-9999-18-013-L03-P 0516-9999-18-013-L03-T</p>	<p>Learning Objectives:</p> <ul style="list-style-type: none"> Recognize common violations of narcotic laws Review most common illegal activities occurring in pharmacies (thefts, diversion) Describe updates of the State of Hawaii Opioid Abuse Initiative
5:00 pm – 5:30 pm	Closing, submit evaluations, end of Exhibitor and Poster session	
5:30 pm – 7:30 pm	Games with prizes	
Sunday, April 29, 2018: Moderator: Jasmine Kimura, PharmD, President Elect, HPhA		
7:45 am – 8:00 am	Exhibitor Move-in, Poster Board session set up	
8:00 am – 8:30 am	Registration, Continental Breakfast, Exhibits Open and Poster session Open	
8:30 am - 8:45 am	Welcome and Opening Remarks - Jasmine Kimura, PharmD, President Elect, HPhA	
8:45 am – 9:45 am	Pharmacy Resident Presentations	
(0.25 contact hours)	<p>Resident Christopher Breuer, PharmD PGY1 resident, Tripler Medical Center, Honolulu, HI</p> <p><u>Effect of Decreasing Default Dispense Quantity on Prescribing of Opioids</u></p> <p>This is a knowledge based continuing education activity 0516-9999-18-014-L01-P 0516-9999-18-014-L01-T</p>	<p>Pharmacist Objectives:</p> <ul style="list-style-type: none"> Identify the current opioid epidemic State the importance of default dispense quantities in electronic prescribing Explain the potential effect of changing the default dispense quantity for opioids <p>Pharmacy Technician Objectives:</p> <ul style="list-style-type: none"> Identify how defaults in electronic prescribing can influence prescribing
(0.25 contact hours)	<p>Resident Emily Holcomb, PharmD PGY1 resident, Tripler Medical Center, Honolulu, HI</p> <p><u>Army Pharmacy Polypharmacy Program</u></p> <p>This is a knowledge based continuing education activity 0516-9999-18-015-L04-P 0516-9999-18-015-L04-T</p>	<p>Pharmacist Objectives:</p> <ul style="list-style-type: none"> State the role of a clinical pharmacist in Polypharmacy management Identify key features of the Army Pharmacy polypharmacy program at Tripler Army Medical Center Explain the value of executing polypharmacy medication reviews <p>Pharmacy Technician Objectives:</p> <ul style="list-style-type: none"> State the role of a clinical pharmacy technician in Polypharmacy management Identify key features of the Army Pharmacy polypharmacy program at Tripler Army Medical Center Explain the value of executing polypharmacy medication reviews
(0.25 contact hours)	<p>Resident Linnea Tokushige, PharmD PGY1 resident, Kaiser Health Plans, Honolulu, HI</p> <p><u>Dabigatran and Its Place in Therapy for Atrial Fibrillation</u></p> <p>This is a knowledge based continuing education activity</p>	<p>Pharmacist Objectives:</p> <ul style="list-style-type: none"> Discuss the relevance of dabigatran use in special populations. Explain the strategy used to evaluate the safety and efficacy of dabigatran in special populations. <p>Pharmacy Technician Objectives:</p> <ul style="list-style-type: none"> Describe the use of dabigatran and its place in therapy for atrial fibrillation.

	0516-9999-18-016-L01-P 0516-9999-18-016-L01-T	
9:50 am – 10:50 am (1.0 contact hours)	Speaker 5-Fred Cruz RPh, Director of Pharmacy Operations CVS/Caremark, Honolulu, HI <u>Updates on HIV</u> This is a knowledge based continuing education activity 0516-9999-18-017-L02-P 0516-9999-18-017-L02-T	Pharmacist Objectives: <ul style="list-style-type: none"> Identify advantages and risks of taking single tablet regimens for HIV. Differentiate the difference between TAF (Tenofovir Alafenamide) and TVF (Tenofovir disoproxil fumarate) and the advantages of one over the other. Pharmacy Technician Objectives: <ul style="list-style-type: none"> Identify what HIV medication is utilized for Prep, how it is administered and who is a candidate for prep. Describe the state of Hawaii's H2O initiative and its mission.
10:50 am – 11:20 am	Break, Exhibitors, Poster session	
11:20 am – 12:00 pm (0.25 contact hours)	Resident Michael Makaimoku, PharmD PGY1 resident, Veteran's Administration, Honolulu, HI <u>Alcohol Use Disorder</u> This is a knowledge based continuing education activity 0516-9999-18-018-L01-P 0516-9999-18-018-L01-T	Pharmacist Objectives: <ul style="list-style-type: none"> List potential risks of unhealthy alcohol consumption. Explain how to assess a patient's drinking risk and discuss what therapeutic interventions are appropriate. Pharmacy Technician Objectives: <ul style="list-style-type: none"> Identify common and severe side effects, allergies, and therapeutic contraindications for medications used in the management of alcohol use disorder.
(0.25 contact hours)	Resident Macey Wiens, PharmD PGY1 resident, Veteran's Administration, Honolulu, HI <u>Pharmacist Run Lithium Phone Clinic to Improve Lithium Monitoring at the Veterans Affairs Pacific Islands Health Care System: An Evidence Based Practice Project</u> This is a knowledge based continuing education activity 0516-9999-18-019-L01-P 0516-9999-18-019-L01-T	Pharmacist Objectives: <ul style="list-style-type: none"> Describe the importance of lithium monitoring and identify signs and symptoms of lithium toxicity Define appropriate monitoring parameters for patients on lithium Pharmacy Technician Objectives: <ul style="list-style-type: none"> Identify common food and drug interactions with lithium
12:00 pm – 1:30 pm	Lunch and installation of Hawaii Pharmacists Association Board (Installation by Hiromi Saito), Leadership awards presentation, Exhibitors, Poster Session	
1:30 pm – 2:30 pm (1.0 contact hours)	Speaker 6 Thaddeus Pham, Viral Hepatitis Prevention Coordinator Hawaii Department of Health, Honolulu, HI <u>Hepatitis Overview</u> This is a knowledge based continuing education activity 0516-9999-18-020-L01-P 0516-9999-18-020-L01-T	Pharmacist Objectives: <ul style="list-style-type: none"> Describe the modes of transmission and current treatments for hepatitis A, B, and C. Identify opportunities for prevention of hepatitis A, B, and C in the pharmacy setting. Pharmacy Technician Objectives: <ul style="list-style-type: none"> Explain the basics of viral hepatitis and differences between hepatitis A, B, and C. Translate knowledge of viral hepatitis into effective referrals both in the pharmacy setting (e.g. immunizations) and in the primary care setting (testing).
2:30 pm – 2:45 pm	Break, Exhibitors, Poster session
