- Offices in Columbia, Largo, and Belcamp
- Three inpatient facilities:
  - Northwest Hospital, Randallstown
  - Franklin Square Medical Center, Baltimore
  - Sinai Hospital, Baltimore

Additionally, Seasons is proud of our strong nationally-recognized differentiators including:

**A 24/7 US-Based Call Center:** If our patients experience distress or discomfort at any time of the day or night, they can call us and reach a Maryland - licensed Registered Nurse. When combined with our fully-deployed electronic medical record, we can start assisting with symptoms in minutes, not hours. This helps keep our patients in Maryland safe at home instead of dialing 911.

**Music Therapy:** Music Therapy can have strong, clinically proven positive effects on patients facing the end of life, including reducing anxiety, relieving pain, and lowering blood pressure. Seasons is proud to be the largest employer of Board Certified Music Therapists in the United States, with 5 full-time music therapists and 1 intern currently serving our Maryland patients.

**Namaste Care:** Developed by international expert Joyce Simard, the Namaste Program uses person-centered approaches to improve quality of life through meaningful sensory activities that stimulate the senses, promote relaxation, and offer comfort and serenity to those living with dementia. Namaste is provided to hundreds of patients in Maryland every week.

**We Honor Veterans:** This program was developed by the VA and National Hospice & Palliative Care Organization, and focuses on focused on respectful inquiry, compassionate listening and grateful acknowledgment. Seasons Hospice of Maryland is a proud level four partner, the second-highest level attainable, and we are working towards level 5.
