About us:
- Parikh Stevens Architects is a boutique architecture firm specializing in multifamily projects. Our innovative practice Balances the Art and Science of Design to Optimize the Built Environment.
- We have designed about 9,000 units in Colorado.

Balancing Art & Science:
- A keen Design Sense combined with Code and Building Science expertise.
- Buildings as beautiful as they are durable.

Optimizing the Built Environment:
- Beauty
- Efficiency
- Durability
- Inclusivity
- Contextuality
- Sustainability
- Safety
