Housing Colorado believes that safe, stable, and healthy communities are built upon the foundation of housing. We are a nonprofit membership organization working with the housing community to educate and advocate for the building and preservation of housing for low to moderate income Coloradans. Housing Colorado is a unified voice of more than 300 organizations and 6,000 individuals across the state who represent diverse housing perspectives. Housing Colorado’s strength lies in the diversity of our membership base: no other organization in Colorado speaks for the entire affordable housing community.
