June 19, 2018, 8:00 AM – 11:00 AM
National Trench Safety
9002 Wayfarer Ln
Houston, TX 77075

Excavation Safety Awareness

In support of the NUCA National Trench Safety Stand Down June 18-23, National Trench Safety will be offering two workshops on excavation safety. OSHA has a goal of increasing trench related interventions by 10% this year. This is a good opportunity to learn more about OSHA trenching and excavation requirements and the duties they entail to prevent worker injuries.

Recommended for construction companies and those with assigned safety responsibilities overseeing trenching and excavations.

Name: _____

Job Title: _____

E-Mail: _____

Company: _____

Would like to attend the workshop on:

June 12th in Conroe _____

June 13th in Houston _____
